CHAPTER NO. 64

An Act to Extend the Powers of Initiative and Referendum to Montana Counties; Implementing Article XI, Section 8 of the Montana Constitution of 1972.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. (1) Resolutions may be proposed by the legal voters of any county in this state, in the manner provided in this act. Fifteen percent (15%) of the legal voters of any county may propose to the board of county commissioners a resolution on a subject within the legislative jurisdiction and powers of such county commissioners, or a resolution amending or repealing any prior resolution or resolutions. Petitions shall be filed with the county clerk. The county clerk shall present the same to the board at its first meeting next following the filing of the petition. The board may, within sixty (60) days after the presentation of the petition to the board, adopt the resolution as set forth in the petition. If the resolution proposed by the petition is passed without change, it shall not be submitted to the people, unless a petition for referendum demanding such submission is filed under the provisions of this act.

(2) If the board does not, within sixty (60) days, pass the resolution proposed in the petition, then the resolution proposed by the petition shall be submitted to the people. Before submitting such resolution to the people, the board may direct that a suit be brought in the district court in and for the county to determine whether the petition and ordinance are regular in form, and whether the ordinance so proposed would be valid and constitutional. The

HeinOnline -- 1973 vol. I 67 1973

procedure for judicial review shall be the same as that provided for the cities in section 11-1104 (4) and (5).

(3) If a resolution is repealed pursuant to a proposal initiated by the qualified electors of a county as provided in this act, the board of commissioners may not, within a period of two (2) years thereafter, reenact such resolution or any resolution so similar thereto as not to be materially different therefrom. If during such two (2) year period the board enacts a resolution similar to the one repealed pursuant to initiative of the voters, a suit may be brought to determine whether the new resolution is a reenactment without material change of the one so repealed. The same procedures set forth for cities shall apply to such suit and determination of the issues arising thereon. Nothing herein contained shall prevent exercise of the initiative herein provided for, at any time, to procure a reenactment of a resolution repealed pursuant to initiative of the voters.

Section 2. Any resolution proposed by petition which is entitled to be submitted to the people, shall be voted on at the next regular election to be held in the county, unless the petition asks that the same be submitted at a special election, and such petition is signed by not less than fifteen percent (15%) of the electors qualified to vote at the last preceding county election.

Section 3. No resolution passed by the board of county commissioners shall become effective until thirty (30) days after its passage, except general appropriation resolutions providing for the ordinary and current expenses of the county, excepting also emergency measures, and in the case of emergency measures the emergency must be expressed in the preamble or in the body of the measure, and the measure must receive a two-thirds (⅔) vote of all the members of the board. Emergency resolutions shall include only such measures as are immediately necessary for the preservation of peace, health, and safety.

Section 4. During the thirty (30) days following the passage of any resolution, ten percent (10%) of the qualified electors of the county may, by petition addressed to the board and filed with the county clerk, demand that such resolution, or any part or parts thereof, shall be submitted to the electors of the county.

Section 5. Any measure on which a referendum is demanded under the provisions of this act shall be submitted to the electors of the county at the next county election provided the petition or petitions were filed with the county clerk at least thirty (30) days before such election. If such petition or petitions be signed by not less than fifteen percent (15%) of the qualified electors of

HeinOnline -- 1973 vol. I 68 1973

the county, the measure shall be submitted at a special election to be held for the purpose.

Section 6. The board of county commissioners may in any case order a special election on a measure proposed by the initiative, or when a referendum is demanded, or upon any resolution passed by the board and may likewise submit to the electors, at a general election, any resolution passed by the board.

Section 7. Whenever a measure is ready for submission to the electors, the clerk of the county shall, in writing, notify the board, who shall issue a proclamation setting forth the measure and the date of the election. Said proclamation shall be published one (1) day each week for four (4) consecutive weeks in each daily newspaper in the county, if there be such, otherwise in the weekly newspaper published in the county. In case there is no weekly newspaper published, the proclamation and the measure shall be posted conspicuously throughout the county.

Section 8. The question to be balloted upon by the electors shall be printed on the initiative or referendum ballot, and the form shall be that prescribed by law for questions submitted at state elections. The referendum or initiative ballots shall be counted, canvassed, and returned by the regular board of judges, clerks, and officers, as votes for candidates for office are counted, canvassed, and returned. The returns for the questions submitted by the voters of the county shall be on separate sheets, and returned to the county clerk. The returns shall be canvassed in the same manner as the returns of regular elections for county and federal officers. The board shall issue a proclamation, as soon as the result of the final canvass is known, giving the whole number of votes cast in the county for and against such measure, and it shall be published in like manner as other proclamations herein provided for. A measure accepted by the electors shall take effect five (5) days after the vote is officially announced.

Section 9. The qualifications for voting on questions submitted to the electors are the same as those required for voting for county commissioners.

Section 10. The provisions of this act regarding the referendum shall not apply to resolutions which are required by any other law of the state to be submitted to the voters or the electors or taxpayers of any county.

Section 11. The form of petitions and the proceedings under this act shall conform as nearly as possible, with the necessary changes as to details, to the provisions of the laws of the state

CHAPTER NO. 85

An Act Amending Section 11-2214, R.C.M. 1947, by Providing an Additional Method of Financing of Offstreet Parking Improvement Districts and for Determining the Assessment of Each Parcel Within the District, and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 11-2214, R.C.M. 1947, is amended to read as follows:

"11-2214. **Methods of payments of improvements.** (1) To defray the cost of the making of any of the improvements provided for in this act, the city council or commission shall adopt one of the

following methods of assessment; unless otherwise provided in subsection 1 (c):

(a) The city council or commission shall assess the entire cost of such improvements against the entire district, each lot or parcel of land within such district to be assessed for that part of the whole cost which its area bears to the area of the entire district, exclusive of streets, avenues, alleys and public places; provided, however, that the city council or commission, in its discretion, shall have the power to pay the whole or any part of the cost of any street, avenue or alley intersections, out of any funds in its hands, available for that purpose, or to include the whole or any part of such costs within the amount of the assessment to be paid by the property in the district. In order to equitably apportion the cost of any of the improvements herein provided for between that land within the district which lies within twenty-five (25) feet of the line of the street on which the improvement is to be made and all other land within the district, the council or commission may, in the resolution creating any improvement district, provide, that the amount of the assessment against the property in such district, to defray the cost of such improvements, shall be so assessed that each square foot of land within the district lying within twenty-five (25) feet of the line of the street on which the improvements therein provided for are made shall bear double the amount of cost of such improvements per square foot of such land that each square foot of any other within the district shall bear.

(b) The city council or commission shall assess the cost of such improvements against the entire district, each lot or parcel of land within such district, bordering or abutting upon street or streets whereon or wherein the improvement has been made, in proportion to the lineal feet abutting or bordering the same; provided, however, that this method of assessment shall not apply to assessments in improvement districts created under the provisions of section 11-2205 of this code; and provided, further, that the city council or commission, in its discretion, shall have the power to pay the whole or any part of the cost of any street, avenue, or alley intersections out of any funds in its hands, available for that purpose, or to include the whole or any part of such costs within the amount of the assessment to be paid by the property in the district.

(c) Where curbs, gutters, alley approaches, streets, crossings and utility service connections are an integral part of the creation of storm sewer districts, sanitary sewer districts or street pavement districts, the city council or commission may assess a portion of the improvements upon the area basis, as set forth under subsection (1) (a); other portions of the improvements upon a lineal feet basis, as set forth under subsection 1 (b); and the utility service connections upon a lump sum based on the bid price in the improvement district con-

HeinOnline -- 1973 vol. I 95 1973

tract and assessed only against the lots, tracts or parcel of land served by the utility connection or connections, all within the same special improvement district, so long as such assessment is equitable.

(d) When the purpose of the assessment is for the establishment and/or improvement of offstreet parking as provided in this act, the city council or commission shall assess against the real property specifically benefited by the offstreet parking facilities, the cost of the developments involved, in proportion to the benefits received by each tract of land within said district. In determining the benefit to be received by each parcel of land, the city council or commission shall consider:

(i) the relative distance of the parking facility from each parcel of land within the area of the special improvement district;

(ii) the relative needs of parking spaces for each parcel of land located within the boundaries of said district, either as established by the city zoning ordinance, if any, or otherwise, with relation to the use of said parcel;

(iii) the assessed value of each parcel within said district;

(iv) the square footage of each parcel within said district as it relates to the whole;

(v) the square footage of floor space in any improvements on the parcel and the various uses of such floor space;

(vi) the availability of existing on-site parking space on any parcel of land within the district. Provided, however, that before any improvement district can be created or financed under the provisions of this section, the city council or commission must, prior to the creation of said district, pass a city ordinance setting forth therein the formula to be used in determining the assessment of each lot or parcel within said district, which said formula must include but shall not be limited to the items to be considered as set forth hereinabove. And provided further that prior to the adoption of any such ordinance by the city council or commission, the city council or commission shall make a determination of the formula for the method of assessment as set forth above, considering all of the factors above set forth, and shall hold a public hearing after due notice and at such hearing all persons concerned may present their objections to the formula or any part of it and point out errors and inequities and submit reasons for amendments and corrections. The council may continue the hearing from time to time. After the council has heard all objections and suggestions, it shall correct any errors which it finds in the formula for assessment as originally made and shall finally establish and settle the formula for assessment in the same manner as any other city ordinance.

HeinOnline -- 1973 vol. I 96 1973

(2) Whenever any portion of the surface of a paved street is occupied or used for railway or street railway purposes, it shall be and continue to be the duty of the owner or operator of such railway or street railway to fully repair any injury or damage to such pavement caused by such railway or street railway either in the operation of its cars or in the laying or repair of its tracks, and in case of a failure or refusal of such owner or operator so to repair such pavement within a reasonable time after notice by the city council or commission, the city council or commission is authorized and empowered to cause such repairs to be made and to assess the cost thereof to such owner or operator and to enforce collection thereof as in the case of taxes.

(3) Whenever any lot, piece or parcel of land belonging to the United States, or mandatory of the government, shall front upon the proposed work or improvement, or be included within the district declared by the city council in its resolution of intention to be the district to be assessed to pay the costs and expenses thereof, said council shall, in the resolution of intention, declare that said lots, pieces or parcels of land, or any of them, shall be omitted from the assessment thereafter to be made to cover the costs and expenses of said work or improvement, and the cost of said work or improvement in front of said lots, pieces or parcels of land shall be paid by the city from its general fund.

(4) It shall be lawful for the owner or owners of the lots or land fronting upon any street, the width and grade of which shall have been established by the city council or commission, to perform, at his or their own expense (after obtaining permission from the council or commission so to do, but before said council or commission has passed its resolution of intention to order grading exclusive of this), any grading upon said street, to its full width, or to the center line thereof and to its grade as then established, and thereupon to procure, at his or their own expense, a certficate from the city engineer, setting forth the number of cubic yards of cutting and filling made by him or them in such grading, and proportions performed by each owner, and that the same is done to establish width and grade of said street, or to the center line thereof, and thereafter to file said certificate with the city engineer, which certificate the engineer shall record in a book kept for that purpose in his office, properly indexed.

(5) Whenever thereafter the city council or commission orders the grading of said street, or any portion thereof, on which any grading certified as aforesaid has been done, the bids and contracts must express the price by the cubic yard for cutting and filling in grading; and the said owner or owners and his or their successors in interest shall be entitled to credit, on the assessment upon his or their lots and lands fronting on said street for the grading thereof, to the amount

HeinOnline -- 1973 vol. I 97 1973

of the cubic yards of cutting and filling set forth in his or their certificate, at the prices named in the contract for said cutting and filling; or, if the grade meanwhile has been duly altered, only for so much of said certified work as would be required for grading to the altered grade; provided, however, that such owner or owners shall not be entitled to such credit as may be in excess of the assessments for grading upon the lots and lands owned by him or them, and proportionately assessed for the whole of said grading; and the city clerk shall include in the assessment for the whole of said grading upon the same grade the number of cubic yards of cutting and filling set forth in any and all certificates so recorded in his office, or for the whole of said grading to the duly altered grade so much of said certified work as would be required for grading thereto, and shall enter corresponding credits, deducting the same as payments upon the amounts assessed against the lots and land owned respectively, by said certified owners and their successors in interest; provided, however, that he shall not so include any grading quantities or credit any sums in excess of the proportionate assessments for the whole of the grading which are made upon any lots and lands fronting upon said street, and belonging to any such certified owners or their successors in interest.

(6) Whenever any owner or owners of any lots and lands fronting on any street shall have heretofore done, or shall hereafter do any work (excepting grading) on such street, in front of any block, at his or their own expense, and the city council or commission shall subsequently order any work to be done of the same class in front of the same block, said work so done at the expense of such owner or owners shall be excepted from the order ordering work to be done; provided, that the work so done at the expense of such owner or owners shall be upon the official grade, and in condition satisfactory to the city engineer at the time said order is passed.''

Section 4. The election is conducted in the same manner as a regular city or town election except that the election officials are appointed by the board of county commissioners. The election returns are made to the board of county commissioners and canvassed in the same manner as are general election returns.

Section 5. If it is found by the canvass of the votes that less than sixty per cent (60%) of the votes cast were in favor of disincorporation, the county commissioners shall declare the petition for

For the purpose of providing the city or town with an adequate water supply for municipal and domestic purposes, the city or town council shall procure an appropriate water rights and title to the same, and the necessary real and personal property to make said rights and supply available, by purchase, appropriation, location, condemnation, or otherwise.

Section 2. Section 11-1302, R.C.M. 1947, is amended to read as follows:

fund; provided, however, that in case the total indebtedness of a city or town has reached the limit of *five per cent (5%) of the value of taxable property therein*, it shall be lawful for, and said city or town is hereby authorized and empowered, to thereafter manage and conduct its business affairs on a cash basis and pay the reasonable and necessary current expenses of the city or town out of the cash in the city or town treasury and derived from its current revenues, under such restrictions and regulations as the city or town council may by ordinance prescribe; and in the event that payment be made in advance, the city or town shall have power to require a cash deposit as collateral security and indemnity, equal in amount to such payment, and may hold the same as a special deposit with the city treasurer, in package form, as a pledge for the fulfillment and performance of the contract or obligation for which said advance shall have been made; and provided, further, that before the payment of the current expenses above mentioned, the city or town council shall first set apart sufficient moneys to pay the interest upon its legal, valid, outstanding bonded indebtedness and any sinking funds therein provided for, and shall be authorized to pay all valid claims against funds raised by tax especially authorized by law for the purpose of paying such claims."

Section 3. Section 11-2216, R.C.M. 1947, is amended to read as follows:

"11-2216. **Sewer systems.** (1) A sewer system may be established in a city or town, which system may be divided into public, district and private sewers.

Public sewers may be established and constructed along the principal course of drainage at such times, to such an extent, of such dimensions and material, and under such regulations as may be prescribed by the council; and there may be constructed such branches and extensions of sewers already constructed, or to be constructed, as may be considered expedient.

(2) To defray the cost of such public sewers, the city or town council may appropriate moneys therefor from the general or sewer fund, or by availing itself of moneys derived from a bond issue authorized by the constitution and laws of the state. It is further provided that when a public or main sewer also serves as a district sewer, the city council may assess the property bordering or abutting upon such public sewer, either at the time of its construction or at any future time, for an amount equal to the estimated cost of such district sewer capable of accommodating such property.

(3) And /or to provide such sewer fund, and/or to provide for the retirement of such bonds, and/or the payment of the interest on such bonds, and/or for any purpose herein mentioned, the

city council shall, upon being petitioned by five (5) per cent of the qualified electors, at the annual municipal election or at any special election called for that purpose, submit to a vote to the qualified electors, the question whether or not the city council may establish and collect rentals for the use of such sewer system and may fix scale of such rentals and prescribe the manner and time at which such rentals shall be paid, and if a majority of votes is cast in favor of such proposition then the city or town council may establish and collect rentals for the use of any such sewer system and may fix the scale of such rentals and prescribe the manner and time at which such rentals should be paid and to change such scale of rentals from time to time as may be deemed advisable; providing, that the total revenue to be collected from all of the above sources in a given year shall be provided for by the council in such a manner as to provide funds for the payment of all bond issues and interest thereon, as well as for all necessary expenses of the operation, maintenance and repair of any such sewer system. For the purpose of making such rental charges equitable, property benefited thereby may be classified, taking into consideration the volume and character of sewage or waste and the nature of the use made of such sewage facilities. Said rentals shall be collected or taxed against the property in like manner as water rentals are collected and taxed, or by such procedure as may be prescribed by the city or town council, the revenues in this paragraph provided shall be in addition to and not exclusive of other revenues which may be now legally collected for sewer payment.

(4) The funds received from the collection of sewer rentals shall be kept as a separate and distinct fund by the city treasurer, subject only to disbursement by order of the council. This fund shall be used for (1) the payment of the cost of management, (2) maintenance, (3) operation and (4) repair of the sewage system, including treatment and disposal works, (5) for the creation of a sinking fund for the retirement of any indebtedness, (6) for the payment of interest on any such indebtedness, and any surplus in such fund may be used for the enlargement or replacement of the same and for the payment of the interest on any debt incurred for the construction of such sewage system, including sewage pumping, treatment and disposal works, and for retiring such debt, but shall not be used for the extension of a sewage system to serve unsewered areas or for any purpose other than one or more of those above specified.

(5) Any twenty-five (25) or more *electors* of such a municipality may file complaint with the public service commission to the effect that the rental charges so fixed are unreasonable or unjustly discriminatory, and the public service commission shall, upon public hearing thereon, file its findings and determination, stating therein

HeinOnline -- 1973 vol. I 151 1973

in what respect, if any, said rental charges are unreasonable or unjustly discriminatory, and the municipality at interest shall forthwith readjust its rental charges so as to remove any unreasonable or unjustly discriminatory features so found by the public service commission.

(6) It is further provided that all the provisions of this act referring to sewer rentals, shall apply to special improvement districts for the constructing and maintaining and operating of sanitary sewers and storm sewers, as provided for in chapter 133, Laws of 1929 and the powers herein conferred on councils shall be and are hereby conferred on the several boards of county commissioners for the purposes of said chapter 133, Laws of 1929—in so far as the same relates to sewers."

Section 4. Section 11-3229, R.C.M. 1947, is amended to read as follows:

"11-3229. **Bribery—false answers concerning qualifications of elector—voting by disqualified person.** Any person offering to give a bribe, either in money or other consideration, to any elector for the purpose of influencing his vote at any election provided in this act, or any elector entitled to vote at any such election receiving and accepting such bribe or other consideration; any person who agrees, by promise or written statement, that he will do, or will not do, any particular act or acts, for the purpose of influencing the vote of any elector or electors at any election provided in this act; any person making false answer to any of the provisions of this act relative to his qualifications to vote at such election; any person willfully voting or offering to vote at such election, who has not met the residency requirement of the state of Montana, or is not a citizen of the United States, or knowing himself not to be a qualified elector of such precinct where he offers to vote; any person knowingly procuring, aiding, or abetting any violation hereof, shall be deemed guilty of a misdemeanor, and, upon conviction, shall be fined a sum of not less than one hundred dollars ($100) nor more than five hundred dollars ($500), or be imprisoned in the county jail not less than ten (10) nor more than ninety (90) days, or both such fine and imprisonment."

Section 5. Section 16-2008, R.C.M. 1947, is amended to read as follows:

"16-2008. **Board of county commissioners may issue bonds for certain purposes.** The board of county commissioners of every county of the state is hereby vested with the power and authority to issue, negotiate and sell coupon bonds on the credit of the county, as hereinafter in this act more specifically provided, for any of the following purposes:

HeinOnline -- 1973 vol. I 152 1973

(a) For the purpose of acquiring land for sites and grounds for a public building or buildings of any kind within the county and under its control, which the county has lawful authority to acquire or erect, control and maintain; for the purpose of acquiring land for any other public use or activity within the county, under its control and authorized by law.

(b) For the purpose of constructing, erecting or acquiring by purchase necessary public buildings within the county, under its control and authorized by law, making additions to and repairing buildings and for the purpose of furnishing and equipping the same, and for the purpose of building, purchasing, constructing and maintaining devices intended to protect the safety of the public from open ditches carrying irrigation or other water.

(c) For the purpose of enabling a county to liquidate its indebtedness to another county incident to the creation of a new county or the changing of any county boundary line.

(d) For the purpose of funding, paying and retiring outstanding county warrants lawfully issued against the county general fund, road fund, bridge fund or poor fund, when there is not sufficient money in the fund against which such warrants are drawn to pay and retire such warrants and the levying of taxes sufficient to pay and retire such warrants within a period of three (3) years would, in the judgment of the board of county commissioners, work a hardship and be an undue burden upon the taxpayers of the county.

(e) For the purpose of refunding, paying and redeeming optional, redeemable or maturing bonds when there are not sufficient funds available to pay such bonds and it is deemed for the best interests of the county to refund such bonds.

(f) For the purpose of funding, paying and retiring outstanding seed grain warrants lawfully issued under the provisions of section 4651, and for the purpose of funding, paying and retiring outstanding special relief warrants lawfully issued under the provisions of section 4692, when there is not sufficient money available to pay such warrants and the levying of special taxes sufficient to pay the same within a period of three (3) years would, in the judgment of the board of county commissioners, work a hardship and be an undue burden upon the taxpayers of the county.

(g) For the purpose of funding, paying in full or compromising, settling and satisfying any judgment which may have been rendered against the county in a court of competent jurisdiction, when there are not sufficient funds available to pay such judgment and when sufficient money cannot be raised to satisfy such judg-

ment by an annual tax levy of ten (10) mills levied on all the taxable property within the county through a period of three (3) years.

The resolution providing for the issue of such bonds must recite the facts concerning the judgment to be funded and the terms of any compromise agreement which may have been entered into between the board of county commissioners and the judgment creditor.

(h) Whenever the total indebtedness of a county exceeds five per centum (5%) of the value of the taxable property therein and the board of county commissioners of said county finds and determines that the county is unable to pay and discharge such indebtedness in full, the said board of county commissioners shall have the power and authority to negotiate with the holders of the bonds of said county for an agreement or agreements whereby said bondholders agree to accept less than the full amount of such bonds and the accrued unpaid interest thereon in full payment and satisfaction thereof, to enter into such agreement or agreements and to issue refunding bonds for the amount agreed upon. These bonds may be issued in more than one series if the circumstances so require and each series may be either amortization bonds or serial bonds.

The plan agreed upon between the board of county commissioners and the bondholders shall be embodied in full in the resolution providing for the issue of such bonds."

Section 6. Section 16-2010, R.C.M. 1947, is amended to read as follows:

"16-2010. **Limitation on amount of bonds—issuance in excess of limitations void.** No county shall issue bonds for any purpose which, with all outstanding bonds and warrants, except county high school bonds and emergency bonds, will exceed two and one-half per centum (2½%) of the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the issuance of such bonds; provided, however, that a county may issue bonds which, with all outstanding bonds and warrants will exceed two and one-half per centum (2½%), but will not exceed five per centum (5%) of the value of such taxable property, when necessary to do so for the purpose of acquiring land for a site for county high school buildings and for erecting or acquiring buildings thereon and furnishing and equipping the same for county high school purposes; provided, however, that this act shall not be construed to extend limitations on bonded indebtedness for county high school purposes, as fixed by section 75-4114, and acts amendatory thereof; and further pro-

vided, that the foregoing limitations shall not apply to refunding bonds issued for the purpose of paying or retiring county bonds lawfully issued prior to January 1, 1932. All bonds issued by any county in excess of the limitations herein fixed shall be null and void."

Section 7. Section 16-2501, R.C.M. 1947, is amended to read as follows:

"16-2501. **Consolidation of county offices—petitions—time for filing—contents.** At any time not later than seven (7) months before the date of any general election at which any of the county officers of this state are to be elected, a petition in writing may be filed with the board of county commissioners of a county asking for the consolidation of any two or more of said offices by the board of county commissioners of such county. Said petition shall be addressed to the board of county commissioners of such county, shall set forth and state the reasons why such consolidation is believed by the petitioners to be necessary, desirable or for the best interests of the taxpayers of the county, and shall be signed by not less than twenty-five per centum (25%) of the qualified electors of such county whose names appear on the registration records thereof, and each person signing such petition shall place after his name his post-office address and voting precinct."

Section 8. Section 16-2504, R.C.M. 1947, is amended to read as follows:

"16-2504. **Commissioners' right to consolidate offices without petition not limited.** Nothing herein contained shall be deemed as limiting in any manner the discretion of the county commissioners to consolidate the several offices without the filing of the petition provided for in this act."

Section 9. Section 16-2505, R.C.M. 1947, is amended to read as follows:

"16-2505. **Board's order of consolidation to be published.** Whenever a board of county commissioners shall make an order consolidating two or more of the county offices such board shall enter such order in full on its minutes of proceedings and shall cause such order to be published in a newspaper of general circulation printed and published in said county for a period of six successive weeks next following the date of the making and entry of such order."

Section 10. Section 16-3203, R.C.M. 1947, is amended to read as follows:

"16-3203. **Election — term — qualifications.** There shall be

HeinOnline -- 1973 vol. I 155 1973

elected in and for each county of the class named in the preceding section, at the general election to be held in November, 1892, and quadrennially thereafter, some person to serve as county auditor of the county for which he shall be elected for the term of four (4) years, and until his successor shall be elected and qualified, the term to begin on the first Monday in January succeeding his election. No person shall be eligible to the office of county auditor of any county within the state who shall not have arrived at the age of voting and who shall not have been for at least two (2) years next preceding his election, a bona fide resident of the county for which he shall be elected or appointed."

Section 11. Section 19-103.1, R.C.M. 1947, is amended to read as follows:

"19-103.1. **Printing defined.** As used in the laws of the state of Montana, printing is the act of reproducing a design on a surface by any process."

Section 12. Section 23-3012, R.C.M. 1947, is amended to read as follows:

"23-3012. **Lists of registered electors—precinct register.** Immediately after registration is closed, the registrar shall prepare lists of all registered electors. He shall also prepare a precinct register for each precinct and deliver it to the judges of election prior to the opening of the polls."

Section 13. Section 32-2601, R.C.M. 1947, is amended to read as follows:

"32-2601. **Distribution and use of proceeds of gasoline dealers' license tax.** All money received in payment of license taxes under the provisions of sections 84-1845 to 84-1855, except those amounts paid out of the state board of equalization's suspense account for gasoline tax refund shall be used and expended as provided in this section. So much of such money on hand at any time as may be needed to pay highway bonds and interest thereon when due and to accumulate and maintain a reserve therefor, as provided in laws and in resolutions of the state board of examiners authorizing such bonds, shall be deposited in the highway bond account in the sinking fund established by section 79-410. The legislative assembly hereby finds as a fact that the principal and interest and reserve requirements of bonds so authorized are a necessary cost of administering laws under which gasoline license taxes are derived, payment of highway obligations, and cost of construction, reconstruction, maintenance and repair of public highways, roads, streets, and bridges. Subject to the foregoing provision, six-tenths of one per cent (.6%) of all such money shall be deposited in the state

HeinOnline -- 1973 vol. I 156 1973

park account in the earmarked revenue fund. All of the remainder of such money shall be used and expended by the state highway commission on the federal-aid highways in this state selected and designated under the provisions of the Federal-Aid Act, approved July 11, 1916, and the Federal Highway Act, approved November 9, 1921, and all amendments thereto, and on highways leading from each county seat in the state to said federal highway system of federal-aid roads where such county seat is not on said system, and on such other roads as have been or may be authorized by the laws of Montana, and for collection of the license taxes and the enforcement of the Montana highway code, pursuant to the provisions of article XII, section 1b of the constitution of the state of Montana. It shall be the duty of the state highway commission, in expending such money, to carry forward construction from year to year, using the money expended through the matching up of federal-aid allotments to Montana upon the said federal highway system of highways in the various parts of the state in accordance with the provisions of sections 32-2605 through 32-2607; provided that nothing in this act shall be construed to conflict with said federal-aid highway acts and the rules by which they are administered. The state highway commission is authorized to enter into co-operative agreements with the national park service and the bureau of public roads for the purpose of maintaining national park approach roads in Montana.

Money credited to the state park account in the earmarked revenue fund shall be used only for the creation, improvement, and maintenance of state parks where motor boating is allowed, except for the payment of refunds as provided in section 84-1818, R.C.M. 1947. The legislative assembly hereby finds as a fact that of all the fuel sold in the state of Montana for consumption in internal combustion engines, not less than six-tenths of one per centum (.6%) is used for propelling boats on waterways of this state."

Section 14. Section 32-3802, R.C.M. 1947, is amended to read as follows:

"32-3802. **Negotiations for refunding.** (1) Whenever the total indebtedness of a county exceeds five per cent (5%) of the value of the taxable property therein and the board determines that the county is unable to pay such indebtedness in full, the board may:

(a) Negotiate with the bondholders for an agreement or agreements whereby the bondholders agree to accept less than the full amount of the bonds and the accrued unpaid interest thereon in satisfaction thereof.

(b) Enter into such agreement or agreements.

HeinOnline -- 1973 vol. I 157 1973

(c) Issue refunding bonds for the amount agreed upon. These bonds may be issued in more than one series and each series may be either amortization or serial bonds.

(2) The plan agreed upon between the board and the bondholders shall be embodied in full in the resolution providing for the issue of the bonds."

Section 15. Section 32-3804, R.C.M. 1947, is amended to read as follows:

"32-3804. Limitation on amount of bonds—issuance in excess of limitations void. (1) Except as otherwise provided hereafter and in section 16-2010, no county shall issue bonds which, with all outstanding bonds and warrants, except county high school bonds and emergency bonds, will exceed two and one-half per cent (2½%) of the value of the taxable property therein. The taxable property shall be ascertained by the last assessment for state and county taxes prior to the issuance of such bonds.

(2) A county may issue bonds which, with all outstanding bonds and warrants will exceed two and one-half per cent (2½%), but will not exceed five per cent (5%) of the value of such taxable property, when necessary for the purpose of replacing, rebuilding, or repairing county buildings, bridges or highways which have been destroyed or damaged by an act of God, disaster, catastrophe, or accident.

(3) All bonds issued by any county in excess of the limitations herein fixed shall be null and void, except that the limitations shall not apply to refunding bonds issued to pay or retire county bonds lawfully issued prior to January 1, 1932."

Section 16. Section 36-203, R.C.M. 1947, is amended to read as follows:

"36-203. **Conciliation court — judges — budget — conciliation counselors — probation officers — proceedings confidential.** (1) **Excercise of Jurisdiction.** Each district court shall exercise the jurisdiction conferred by this chapter, and while sitting in the exercise of such jurisdiction shall be known and referred to as the "conciliation court."

(2) **Selection of Judges.** In counties having more than one judge of the district court, the judges of such court shall annually, in the month of January or July, designate at least one judge to hear all cases under this chapter. The judge or judges so designated shall hold as many sessions of the conciliation court in each week as are necessary for the prompt disposition of the business before the court.

HeinOnline -- 1973 vol. I 158 1973

(3) **Transfer of Cases.** Another district judge may be called in by the judge of the conciliation court to act as judge of the conciliation court during any period when the judge of the conciliation court is on vacation, absent, or for any reason unable to perform his duties. Any judge so appointed shall have all of the powers and authority of a judge of the conciliation court in cases under this chapter.

(4) **Budget.** The provisions of the county budget system, section[s] 16-1901 to 1911, inclusive, R.C.M. 1947, shall, except as provided by section 4, subsection 9 [36-204(9)] of this act, be applicable to expenditures for the court of conciliation; provided, however, that the court may submit to the board of county commissioners the information required by section 16-1901 on or before July 1st of each year.

(5) **Manner of Conciliation.** The judge of the conciliation court may hear all matters invoked under this act or he may refer such matters to a pastor or director of any religious denomination to which the parties may belong, psychiatrist, physician, attorney, social worker, or other person who is competent and qualified by training and experience in personal counseling. Such person shall be referred to herein as the conciliation counselor.

The conciliation counselor shall:

(6) **Probation Officers Duties.** The probation officer in every county shall give such assistance to the conciliation court as the court may request to carry out the purposes of this chapter, and to that end the probation officer shall, upon request and with the consent of both parties, make investigations and reports as requested, and in cases pursuant to this chapter, shall exercise all the powers and perform all the duties granted or imposed by the laws of this state relating to probation or to probation officers.

(7) **Privacy of Hearings.** All district court hearings or conferences in proceedings under this chapter shall be held in private and the court shall exclude all persons except the officers of the court, the parties, their counsel and witnesses. Conferences may be held with each party and his counsel separately and in the discretion of the judge or counselor conducting the conference or hear-

ing, all counsel may be excluded. All communications, verbal or written, from parties to the judge or counselor in a proceeding under this chapter shall be deemed made to such officer in official confidence.

The files of the conciliation court shall be closed. The petition, supporting affidavit, reconciliation agreement and any court order made in the matter may be opened to inspection by any party or his counsel upon the written authority of the judge of the conciliation court.

(8) **Jurisdiction.** The jurisdiction of the conciliation courts and the powers thereof shall be as provided in the Constitution of Montana, Chapter 3 [Title 93], Revised Codes of Montana, 1947, and acts amendatory and relating thereto, including the right of disqualification of any judge of the conciliation court."

Section 17. Section 36-205, R.C.M. 1947, is amended to read as follows:

2. In order to prove reciprocity the alien heir, devisee and/or legatee must establish by competent evidence produced at a hearing to determine heirship; (a) that such foreign country recognizes the right of United States citizens to inherit property left by a deceased person in such foreign country; (b) that such foreign country places no restrictions upon the movement of money or property out of such foreign country to an heir, devisee and/or legatee residing in the United States.

3. If such proof as required by subsection 2 establishes the fact that such foreign country recognizes the right of inheritance, but restricts the movement of money or property out of such foreign country to an heir, devisee and/or legatee residing in, and a citizen of the United States, then and in that event, the court upon such a determination, shall at the time of final distribution, order the inheritance of such alien heir, devisee and/or legatee distributed to the state treasurer of the state of Montana, in trust for such named heir, devisee and/or legatee, under such conditions and restrictions as are imposed on the movement of money or property by such foreign country in question to an heir, devisee and/or legatee residing in, and a citizen of the United States.

5. The action provided for under the provision of subsection 4 hereof shall in all other respects comply with the requisites of section 91-518.

6. No estate in which alien heirs, devisees and/or legatees have a distributive share shall be considered to be in a condition to petition for final distribution, unless, the court enters a written order in such estate decreeing that an action for determination of heirship has been instituted in which the state of Montana was made a party-defendant and that a decree determining heirship has been entered and filed in said action."

be and it is hereby authorized to issue an injunction to restrain any such person or persons, corporation or corporations, foreign or domestic, from doing business in this state pending the final determination of said action so instituted."

(a) Rates shall not be excessive or inadequate, as herein defined, nor shall they be unfairly discriminatory.

No rate shall be held to be excessive unless (1) such rate is unreasonably high for the insurance provided, and (2) a reasonable degree of competition does not exist in the area with respect to the classification to which such rate is applicable.

No rate shall be held to be inadequate unless (1) such rate is unreasonably low for the insurance provided, and (2) the continued use of such rate endangers the solvency of the insurer using the same, or unless (3) such rate is unreasonably low for the insurance provided and the use of such rate by the insurer using same has, or if continued will have, the effect of destroying competition or creating a monopoly.

(b) Consideration shall be given, to the extent applicable, to past and prospective loss experience within and outside this state, *to revenues and profits from reserves,* to conflagration and catastrophe hazards, if any, to a reasonable margin for underwriting profit and contingencies, to past and prospective expenses, both country-wide and those specially applicable to this state, and to all other factors, including judgment factors, deemed relevant within and outside this state; and in the case of fire insurance rates, consideration may be given to the experience of the fire insurance business during the most recent five-year period for which such experience is available.

Consideration may also be given in the making and use of rates to dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers.

(c) The systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those

of other insurers or groups of insurers to reflect the operating methods of any such insurer or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof.

(d) Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any difference among risks that have a probable effect upon losses or expenses. Classifications or modifications of classifications of risks may be established based upon size, expense, management, individual experience, location or dispersion of hazard, or any other reasonable considerations. Such classifications and modifications shall apply to all risks under the same or substantially the same circumstances or conditions."

Section 1. Section 75-6904, R.C.M. 1947, is amended to read as follows:

"75-6904. **Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase.** A district which anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in subsection (5) of section 75-6903, may increase its foundation program for the ensuing school fiscal year in accordance with the following provisions:

(1) *The* average number belonging used for the establishment of the foundation program for the current year and for each year of the immediately preceding three (3) years shall be used to calculate the percentage increase or decrease in average number belonging for the current year's foundation program over the immediately preceding year, and similarly calculate the percentage increase or decrease in average number belonging for each of the two preceding years. The three (3) annual percentage increases or decreases shall be averaged to obtain the average annual percentage increase or decrease in average number belonging.

(2) *The* district shall estimate the current year's average number belonging by totaling the aggregate days of attendance and aggregate days of absence realized in the district through April 30 and dividing such total by one hundred eighty (180). (3) Prior to May 10, the district shall estimate the probable average number belonging to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

HeinOnline -- 1973 vol. I 196 1973

(5) The budget board shall review the application to determine if the district is eligible for an increase in its foundation program. The budget board may accept, reject, or adjust the district's estimate of the ensuing year's average number belonging. After approving an estimate, the budget board shall:

(a) determine the percentage increase which the estimated average number belonging for the ensuing school fiscal year is over the estimated average number belonging for the current school fiscal year as provided for in subsection (2) above; and

(b) approve an increase of the average number belonging used to establish the ensuing year's foundation program in accordance with subsection (7) if the increase in subsection (5) (a) above is at least twice the average annual percentage increase as provided in subsection (1) above *or six percent (6%) whichever is larger.*

(6) If the budget board approves the application for an unusual enrollment increase, it shall send the application to the superintendent of public instruction together with any other information or data requested by the superintendent of public instruction on or before May 25. (b) subtract the actual average number belonging for the current school fiscal year from the approved estimated average number belonging for the ensuing school fiscal year; and

(c) the difference between the amount determined in subsection (7) (b) above and the amount determined in subsection (7) (a) above shall be the maximum allowable increase added to the actual average number belonging for the current school fiscal year for the purpose of establishing the ensuing year's foundation program."

Section 2. Alternative forms of county government authorized. The electors of any county may adopt an alternative form of county government authorized by the provisions of this act. Upon adoption as provided by such act, said alternative form of government shall take the place of the form of government then existing in such county, and the sections of this act, applicable to the adopted alternative form of government, shall be controlling in such county as to all matters to which they relate, and other provisions of the general laws of the state shall be operative therein only insofar as they are not inconsistent with the aforesaid provisions.

If a majority of the voters disapprove, the existing form shall be continued and no new referendum may be held during the next two (2) years following the date of disapproval.

Section 6. **Discontinuance.** A proposition to discontinue an optional form of county government established under this act or to adopt another optional form of county government pursuant to this act may be submitted to the electors of the county at any general election in the manner provided for the submission of an optional form of county government under section 4 of this act.

All rules, regulations, and orders lawfully promulgated prior to such adoption shall continue in force and effect until amended or rescinded in accordance with the sections of this act.

On the effective date of the adoption or discontinuance of an optional form of county government causing a transfer of rights, duties, and powers from one department or office to another, all books, records, papers, documents, property, real and personal, funds, appropriations and balances of appropriations, and pending business in any way pertaining to such rights, powers, and duties shall be similarly transferred.

(2) If the electors of a county approve a proposition to adopt an optional form of county government under this act and thereby adopt a different size of the board of county commissioners, the change in membership shall be effected as follows:

(a) Whenever the number of members of the board is increased, there shall be elected at the regular state election next following the adoptions of such provision, a sufficient number of county commissioners to bring the total membership of the board up to the number fixed. County commissioners shall first serve a term of six (6) years, except the candidates first elected under the provisions of this section.

(b) Whenever the number of members of the board is decreased, the optional number of county commissioners adopted under this act shall be effective as to the commissioner with the least time left on his term on the first Monday in January following the next regular state election and as to the other half of the decrease on the first Monday in January two (2) years later. The latter decrease in board size shall also be determined by the least time left on his term. Should two (2) commissioners have the same amount of term left to serve, then by lot.

(3) The term of office of county commissioners shall be six (6) years except as provided in this subsection. If the optional form as adopted provides for no change in size of the board of county commissioners, county commissioners shall continue to be elected for six (6) year terms. If the optional form as adopted

HeinOnline -- 1973 vol. I 208 1973

provides for an increased membership on the board of county commissioners as provided in this act, the additional members shall be elected to the board at the first regular state election subsequent to the adoption of the alternative form.

(4) If the first election under an optional form of county government provided for in this act occurs in a year in which one county commissioner is to be elected under the former law and the optional form as adopted provides for an expansion of the board to five (5) commissioners, there shall be elected for a staggered term, two (2) commissioners for a six (6) year term and one (1) commissioner for a four (4) year term, as provided in this act.

(5) At all succeeding elections, after the first regular state election subsequent to adoption of an optional form, all members of the board of county commissioners shall continue to be elected for six (6) year terms.

Section 10. **Election of board by districts.** (1) Under all optional forms of county government whereby any members of the board of county commissioners are elected by districts there shall be a board of county commissioners who shall be nominated and elected as provided by general law, except as otherwise provided for in this section.

(3) The division of the county into districts for county commissioners shall conform to the constitutional standards for division of the state into districts for election of members of the legislature. If the proposition for the optional form adopted provides that the county commissioners shall be elected by districts, the board of county commissioners shall, commencing in the first election under an optional form of county government, divide the county into county commissioner districts using the most recent decennial federal census. The districts shall be reapportioned as soon as possible after each decennial federal census becomes available.

Section 11. **Rules of board—meetings and records to be public—majority vote required.** The board of county commissioners shall determine its own rules and order of business and cause a record of its proceedings to be kept. All meetings of the board must be public, and the books, records, and accounts must be kept at the office of the clerk, open at all times for public inspection, free of charge. Any member of the board may administer oaths to any persons concerning any matter submitted to them or connected with their powers or duties.

Section 13. **Powers vested in board of county commissioners.** The powers of a county as a body politic and corporate shall be vested in a board of county commissioners and exercised in the manner provided in this act.

Such real property or interest shall be sold, leased, otherwise transferred, or retained at not less than its fair value for uses in accordance with the urban renewal plan. In determining the fair value of real property for uses in accordance with the urban renewal plan, a municipality shall take into account, and give consideration to, the uses provided in such plan; the restrictions upon, and the covenants, conditions, and obligations assumed by, the purchaser or lessee or by the municipality retaining the property; and the objectives of such plan for the prevention of the recurrence of blighted areas. Thereafter, the municipality may execute, in accordance with the provisions of subsection (a), and deliver contracts, deeds, leases, and other instruments of transfer.

The portion of a joint district foundation program for each county, as determined in subsection (3) of this section, shall be considered as a separate foundation program in such county for the purposes of calculating the various revenues for the foundation program. After the calculation of the foundation program revenues, the remainder of the general fund revenues shall be calculated in accordance with the provisions for general fund financing."

CHAPTER NO. 140

An Act Amending Section 94-9838, R.C.M. 1947, to Require a Hearing on a Parole Violation.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 94-9838, R.C.M. 1947, is amended to read as follows:

"94-9838. **Return of parole violator.** At any time during release on parole or conditional release the board may issue a warrant for the arrest of the released prisoner for violations of any of the conditions of release, or a notice to appear to answer to a charge of violation. Such notice shall be served personally upon the prisoner. The warrant shall authorize all officers named therein to return such prisoner to the actual custody of the penal institution from which he was released, or to any other suitable detention facility designated by the board. Any probation and parole officer may arrest such prisoner without a warrant, or may deputize any other officer with power to arrest to do so by giving him a written statement setting forth that the prisoner has, in the judgment of said probation and parole officer, violated the conditions of his release. Such written statement delivered with the prisoner by the arresting officer to the official in charge of the institution from which the prisoner was released or other place of detention, shall be sufficient warrant for the detention of the parolee or conditional releasee. The probation and parole officer, after making an arrest, shall present to the detaining authorities a similar statement of the circumstances of violation. Pending hearing, as hereinafter provided, upon any charge of violation, the prisoner *may, if circumstances warrant, be* incarcerated in such institution.

After the arrest of said prisoner, a hearing shall be held within a reasonable time, unless such hearing is waived by the parolee, to determine whether there is probable cause or reasonable grounds to believe that the arrested parolee has committed acts which would constitute a violation of parole conditions. An independent officer

who need not be a judicial officer, must preside over this hearing. This hearing must be conducted at or reasonably near the place of the alleged parole violation or arrest and as promptly as convenient after arrest. The parolee must be given notice of this hearing and must be allowed to appear and speak in his own behalf and introduce relevant information to the hearings officer.

The hearings officer shall make a summary of what transpires at the hearing in terms of the responses of the parolee and the substance of the documents or evidence given in support of parole revocation and of the parolee's position. Based on the information given to him, the hearings officer must determine whether there is probable cause to hold the parolee for the final decision of the board of pardons as specified in section 94-9835.

If the hearings officer determines that there is probable cause to believe that the prisoner has violated a condition of his parole, the probation and parole officer shall immediately notify the board and shall submit in writing a report showing in what manner the prisoner has violated the conditions of release *and this report shall be accompanied by the findings of the hearings officer.* Thereupon, the board shall cause the prisoner to be promptly brought before it for a hearing on the violation charged, under such rules and regulations as the board may adopt. If the violation is established, the board may continue or revoke the parole or conditional release, or enter such other order as it may see fit.

A prisoner for whose return a warrant has been issued by the board shall, after the issuance of such warrant, if it is found that the warrant cannot be served, be deemed a fugitive or to have fled from justice. If it shall appear that he has violated the provisions of his release, whether the time from the issuing of such warrant to the date of his arrest, or any part of it, shall be counted as time served under the sentence, shall be determined by the board."

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 75-6808, R.C.M. 1947, is amended to read as follows:

"75-6808. **Pecuniary interests, letting contracts and calling for bids, under certain circumstances.** It shall be unlawful for any trustee to (1) have any pecuniary interest, either directly or indirectly, in the erection of any school building, or for warming, ventilating, furnishing, or repairing the same, or (2) be in any manner connected with the furnishing of supplies for the maintenance and operation of the schools, or (3) be employed in any capacity by the school district of which he is trustee.

Whenever the estimated cost of any building, furnishing, repairing or other work for the benefit of the district, or purchasing of supplies for the district, exceeds the sum of four thousand dollars ($4,000.00), the work done, or the purchase made shall be by contract. Each such contract must be let to the lowest responsible bidder after advertisement for bids. Such advertisement shall be published in the newspaper which will give notice to the largest number of people of the district as determined by the trustees. Such advertisement shall be made once each week for two consecutive weeks and the second publication shall be made not less than five (5) days nor more than twelve (12) days before consideration of bids. Any contract not let pursuant to this section shall be void.

In all cases where bidding is required, the trustees shall award the contract to the lowest responsible bidder except that the trustees shall have the right to reject any or all bids.

With regard to contracting for work or supplies, the board of trustees of a community college district shall be subject to the provisions of section 75-8118."

Section 2. Whenever any law of this state provides a limitation upon the amount of money that a school district can expend upon any public work or construction project without letting such public work or construction project to contract under competitive bidding procedures, a school district shall not circumvent such provision by dividing a public work or construction project or quantum of work to be performed thereunder which by its nature or character is integral to such public work or construction project, or serves to accomplish one of the basic purposes or functions thereof, into several contracts, separate work orders or by any similar device. This section shall apply not only where the public work or construction project is divided into several projects

(b) The declaration provided for in section 67-2314 has been filed.

(2) If after a final report has been issued, any circumstance occurs which would render the final report misleading as to purchasers, or if the developer proposes to materially change the project, the developer shall stop all sales and immediately submit sufficient information to the department to enable it to issue a supplementary report describing the changes. Sales shall not resume until the supplementary report has been issued.

viding for Termination of Election to Make Payments in Lieu of Contributions and Providing for Appeal Rights of Non-profit Organizations Making Payments in Lieu of Contributions; Providing Amendments to Conform with Reorganization as Required in Title 82A, Chapter 10, R.C.M. 1947; and Deletion of Language No Longer Applicable.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 87-109, R.C.M. 1947, is amended to read as follows:

"87-109. **Contributions.** (a) Payment. (1) Contributions shall accrue and become payable by each employer for each calendar year in which he is subject to this act, with respect to wages, as defined in section 87-149 (c), paid for employment (as defined in this act) occurring during such calendar year. Such contributions shall become due and be paid by each employer to the *division* for the fund in accordance with such regulations as the *division* may prescribe and shall not be deducted, in whole or in part, from the wages of individuals in his employ.

(2) In the payment of any contributions, a fractional part of a cent shall be disregarded unless it amounts to one-half (½) cent or more, in which case it shall be increased to one (1) cent.

(b) Rate of contribution.

(1) Each employer shall pay contributions at the rate of three and one-tenth per centum (3.1%) of wages, as defined in section 87-149 (c) paid by him with respect to such employment, except as provided in subsection (c) of this section.

Nonprofit organizations defined in section *501 (c) (3) of the federal internal revenue code and which are exempt from tax under section 501 (a) of such code* may elect to make payments in lieu of contributions; the state and its political subdivisions specifically covered by this act and those electing coverage shall make payments in lieu of contributions.

A group of nonprofit organizations may elect with the approval of the division to act as a group in fulfilling the requirements of this subsection or of this act.

(2) Employers required or *eligible to elect* to make payments in lieu of contributions shall pay into the fund an amount equivalent to the full amount of regular benefits plus one-half (½) of the amount of extended benefits paid to individuals based on wages paid by such employing unit. If benefits paid an individual are based on wages paid by both such employer and one (1) or more other employers, the amount payable by such employer to the fund

HeinOnline -- 1973 vol. I 287 1973

shall bear the same ratio to total benefits paid to the individual as the base period wages paid to the individual by such employer bear to the total amount of base period wages paid to the individual by all his base period employers. If the base period wages of an individual include wages from more than one (1) such employer, the amount to be paid into the fund with respect to the benefits paid to such individual shall be prorated among the liable employers in proportion to the wages paid to such individual by each such employer during the base period. The amount of payment required from such employers shall be ascertained by the *division* quarterly and shall become due and payable by such employer quarterly as directed in this act. Penalty and interest for delinquency shall be assessed such employers as specified in section 87-135.

(3) *Any* nonprofit organizations as defined in *subsection (b) (1) of this section* electing to become liable for payments in lieu of contributions must file with the *division* a written notice of its election not later than thirty (30) days immediately following the date of the determination of subjectivity to this act. This election shall be *for a period of not less than two (2) years.*

(B) Any nonprofit organization defined in subsection (b)(1) of this section which has been paying contributions for at least two (2) taxable years may change to payments in lieu of contributions by filing with the division a written notice to that effect within thirty (30) days before the beginning of the taxable year for which the change is effective.

(C) If the nonprofit organization is delinquent in making payments in lieu of contributions, the *division* may terminate the election to make payments in lieu of contributions as of the beginning of the next taxable year, and such termination shall be effective for that and the next taxable year.

(4) Payments in lieu of contributions by the state and its political subdivisions shall be an amount equivalent to the amount of benefits paid to individuals based on wages paid by the state and its political subdivisions. The method of determining benefits attributable shall be the same as that set forth in subsection (b) (2) of this section. The amount of payments shall be paid in such manner as the *division* may prescribe.

HeinOnline -- 1973 vol. I 288 1973

(c) Experience rating.

The *division* shall for each calendar year, classify employers in accordance with their actual contributions and unemployment experience and shall determine for each employer the rate of contributions which shall apply to him throughout the calendar year in order to reflect said experience and classification. The *division* shall apply such form of classification or experience rating system which is best calculated to rate individually and most equitably the employment for each employer and to encourage the stabilization of employment.

In making such classification, the *division* shall take account, each to an equal extent, of the following factors relating to the unemployment hazard shown by each employer on the basis of (1) average annual net percentage declines in total payrolls for the last three (3) years prior to computation date; (2) number of years the employer has paid contributions; and (3) chargebacks to the individual employer account upon the last employer basis. The computation date is hereby fixed as of the close of business on June 30 of the preceding calendar year.

The rates for the first calendar quarter of calendar year 1972 and thereafter, except as hereinafter provided, shall be so fixed that they would, if applied to all employers (except those employers making payments in lieu of contributions) and their total taxable annual payrolls for the preceding calendar year, have yielded total paid contributions equaling approximately one and five-tenths per centum (1.5%) of the total of all such payrolls.

The *division* shall determine the contribution rate applicable to each employer for any calendar year subject to the following limitations:

(1) Each employer's rate shall be three and one-tenth per centum (3.1%) unless and until there have been three (3) years prior to the computation date throughout which the employer has paid contributions at the maximum tax rate set by law for each of such years and has reported and paid contributions during each of the three (3) calendar years immediately preceding the computation date and with respect to such three (3) calendar years has filed all contribution reports prescribed by the *division* and paid all contributions due with respect to the three (3) calendar years before March 31 of the rate year. Upon payment of past-due contributions the *division* shall, for the current year, compute a rate for the next succeeding quarter following the payment.

(2) The classified contribution rates for the calendar year 1969, and thereafter, except as hereinafter provided, shall be: five-

tenths of one per centum (.5%), seven-tenths of one per centum (.7%), nine-tenths of one per centum (.9%), one and one-tenth per centum (1.1%), one and three-tenths per centum (1.3%), one and five-tenths per centum (1.5%), one and seven-tenths per centum (1.7%), one and nine-tenths per centum (1.9%), two and one-tenth per centum (2.1%), two and three-tenths per centum (2.3%), two and five-tenths per centum (2.5%), two and seven-tenths per centum (2.7%), two and nine-tenths per centum (2.9%) and three and one-tenth per centum (3.1%).

(3) No employer shall be assigned a classified contribution rate higher than the second classified rate above the rate which was assigned to him for the last preceding calendar year except for the year 1961 and further as hereinafter provided. This subsection shall not apply when the employer's chargeback ratio exceeds one hundred per cent (100%).

(4) An employer whose benefit payments (charged as most recent employer) in the last three (3) years preceding the computation date exceeded the amount of his contributions for those years, may have the option of making a voluntary contribution to the unemployment compensation fund to cancel the amount by which the benefit payments charged to him under section 87-109 (c) during the last three (3) completed fiscal years exceed his contributions for the same three (3) years. Such voluntary contribution shall be applied first to cancel the amount by which benefits exceed contributions in the earliest of the three (3) years preceding the computation date, any remaining to cancel the excess in the second earliest year preceding the computation date, and any further remaining to cancel the excess in the most recent year preceding the computation date. Whenever the benefit payments charged to an eligible employer in the last three (3) fiscal years exceed his contributions for the same period, the *division* shall notify him of the amount of such excess and the rate which would be applicable to him for the ensuing calendar year, if he exercises the option. Such employer must exercise the option of making the voluntary contribution allowed by this section within thirty (30) days after receipt of such notice.

(5) Rates as fixed by the *division* shall stand and be in effect unless and until the cash reserves in the unemployment compensation trust fund at any time in the future fall below, and remain below, eighteen million dollars ($18,000,000) continuously for a period of one (1) year, then employer rates effective at the beginning of the next succeeding calendar quarter shall be so fixed that they would, if applied to all employers and their total taxable annual payrolls for the preceding calendar year, have yielded total paid contributions equaling approximately two per centum (2%)

HeinOnline -- 1973 vol. I 290 1973

of the total of all such payrolls, and shall continue at the two per centum (2%) average rate until cash reserves in the unemployment compensation trust fund exceed twenty-six million dollars ($26,000,000) at which time all employer rates shall again be so fixed to bring an average return of one and five-tenths per centum (1.5%) as in this section hereinabove provided; if reserves remain below eighteen million dollars ($18,000,000) continuously for a period of two (2) years, then the contribution rate of all employers subject to this act shall return to a uniform rate of three and one-tenth per centum (3.1%) effective at the beginning of the next succeeding calendar quarter, and shall continue at the three and one-tenth per centum (3.1%) rate until cash reserves in the unemployment compensation trust fund exceed twenty-six million dollars ($26,000,000) at which time all employer rates shall again be so fixed to bring an average return of one and five-tenths per centum (1.5%) as in this section hereinabove provided.

(6) The *division* shall by regulation adopt such procedures as may be necessary for the substitution, merging or acquisition of an employer account by an employing unit, and the transfer of such employer account, rights, contributions, benefit experience and ratings to the successor employing unit or units.

(7) The *division* shall by regulation provide for the proper notification of employers of the classification and rate of contribution applicable to their accounts. Such notification shall be final for all purposes unless and until such employer files a written request with the *division* for a redetermination or hearing thereon within thirty (30) days after receipt of such notice.

(8) "Annual total payroll" means the total of the four (4) quarters of total payrolls of an employer preceding the computation date as fixed herein.

(9) No employer's account shall be charged with benefits paid to any claimant in determining the contribution rate of such employer;

(A) If the claimant has been disqualified under section 87-106 (a), (b), (g), or (h), as a result of separation from such employer;

(B) If the claimant left work for nondisqualifying reasons as provided in section 87-106(a);

(C) Unless the employer has had notice of the claim for the benefits and has been given opportunity for hearing as an interested party in the manner provided in sections 87-107 and 87-108. Written notice of any hearing shall be mailed to employer not less than ten (10) days prior to the date set.

HeinOnline -- 1973 vol. I 291 1973

(d) The provisions of this act requiring the payment of contributions by employers subject to this act shall apply only to wages paid up to and including three thousand dollars ($3,000) by an employer to an employee with respect to employment during any calendar year preceding the year 1972.

Payment of contributions shall apply only to wages paid up to and including four thousand two hundred dollars ($4,200) by an employer to an employee with respect to employment during the calendar year 1972 and thereafter.

(e) Contribution appeals.

Any person aggrieved by any decision, determination, or redetermination of the division involving contribution liability, contribution rate, application for refund *or the charging of benefit payments to employers making payment in lieu of contributions is entitled to a review* by the *division* or its authorized representative, hereinafter referred to as a deputy. *The* decision of the deputy shall be deemed to be the decision of the *division.* The *division* or the deputy conducting the review may refer the matter to an appeal referee, may decide the application for review on the basis of such facts and information as may be obtained or may hear argument to secure further facts. After such review, notice of the decision shall be given to the employing unit. Such decision made pursuant to such review shall be deemed to be the final decision of the *division* unless the employing unit or any other such interested party, within five (5) calendar days after delivery of such notification or within seven (7) calendar days after such notification was mailed to his last known address, files an appeal from this decision. Such appeal will be referred to an appeal referee who shall make his decisions with respect thereto in accordance with the procedure prescribed in section 87-107 (c)."

CHAPTER NO. 169

An Act to Amend Section 75-7019, R.C.M. 1947, to Clarify the Intent of the Law Which Stipulates the Distance that a Family Must Reside from a School Bus Stop in Order to be Entitled to Individual Transportation.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 75-7019, R.C.M. 1947, is amended to read as follows:

"75-7019. **Schedule of maximum reimbursement for individual transportation including provisions for isolation, room and board, and supervised study programs.** The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county

sources of transportation revenue under the provisions of sections 75-7022 and 75-7023. These rates also shall constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall *reimburse* the parent or guardian on the basis of the following schedule:

(1) When the parent or guardian provides the transportation conveyance, the following per diem rates shall be used to determine the total reimbursable amount for all eligible transportees residing in one household, including both elementary and high school pupils; except that eligible transportees shall be considered as coming from separate households when such eligible transportees are required by the trustees to attend schools in entirely separate communities and cannot be transported by the same conveyance or cared for in the same community. When the distance from the eligible transportee's residence to his assigned school is:

(a) not less than three (3) miles but less than five (5) miles, the rate shall be thirty cents ($.30) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed sixty-six cents ($.66) for all the eligible transportees of one household;

(b) not less than five (5) miles but less than seven (7) miles, the rate shall be thirty-six cents ($.36) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed eighty-four cents ($.84) for all the eligible transportees of one household.

(c) not less than seven (7) miles but less than twelve (12) miles, the rate shall be forty-eight cents ($.48) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed one dollar and eight cents ($1.08) for all the eligible transportees of one household; or

(d) twelve (12) or more miles, the rate shall be sixty cents ($.60) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed one dollar and twenty cents ($1.20) for all the eligible transportees of one household.

(2) When the parent or guardian provides the transportation conveyance from the eligible transportee's residence to an approved route of the school bus designated by the trustees for the transportation of such eligible transportee, the per diem rates prescribed in subsection (1) shall be used to determine the reimbursable

HeinOnline -- 1973 vol. I 306 1973

amount for such transportation on the basis of the distance from the *child's* residence to *an established* bus route *stop*. When the distance from the eligible transportee's residence to the approved bus route *stop* is not less than one and one-half (1½) miles but less than three (3) miles, the reimbursement rate shall be one-half (½) the rate prescribed in subsection (1)(a) above. No transportation reimbursement shall be paid to a parent or guardian when the distance *from the child's residence* is less than one and one-half (1½) miles *from an established bus route stop.*

(3) Where, due to excessive distances, impassable roads or other special circumstances of isolation, the rates prescribed in subsections (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, his parent or guardian may request an increase in the reimbursement rate. Such a request for increased rates due to isolation shall be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances which exist to justify the increase. Before any increase rate due to isolation can be paid to the requesting parent or guardian, such rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the county transportation committee and the superintendent of public instruction, the trustees shall pay such increased rate due to isolation. The board of education shall promulgate a schedule that allows varying percentage increases of the per-day individual transportation rates prescribed in subsections (1) and (2) in relation to the degree of isolation, except that such increases shall not exceed one hundred per cent (100%).

(4) When the isolated conditions of the household where an eligible transportee resides require such eligible transportee to live away from the household in order to attend school, he shall be eligible for the room and board reimbursement. Approval to receive the room and board reimbursement shall be obtained in the same manner prescribed in subsection (3) above. The per diem rate for room and board shall be one dollar and fifty cents ($1.50) for one eligible transportee, sixty cents ($.60) for a second eligible transportee of the same household and thirty cents ($.30) for each additional eligible transportee of the same household.

(5) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate shall be the cost of such study;

HeinOnline -- 1973 vol. I 307 1973

provided that the course of instruction is approved by the trustees and supervised by the district.

(6) The schedules provided in this section shall not be altered by any authority other than the legislative assembly of the state of Montana, except as provided in subsection (3)."

Approved: March 6, 1973.

An Act Amending the Volunteer Firemen's Pension Plan Under the Volunteer Firemen's Compensation Act; Amending Section 11-2022 and Section 11-2023, R.C.M. 1947; and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 11-2022, R.C.M. 1947, is amended to read as follows:

"11-2022. **Disability, death, insurance and pension benefits.** 1. Every member of a fire company organized in an unincorporated area, town or village under the laws of this state, shall be entitled to receive compensation for disability incurred while in the performance of his duties as such fireman, when such disability necessitates the services of a physician or surgeon, while confined or nonconfined, in the following amounts:

a. If confined to a hospital, the actual cost of hospitalization, and the reasonable charges of a duly licensed physician or surgeon, not to exceed two thousand five hundred dollars ($2,500).

b. If not confined to a hospital, the actual reasonable charges of a duly licensed physician or surgeon, not to exceed seven hundred fifty dollors ($750).

c. If confined to his home, and such confinement necessitates the services of a nurse, then the actual charges of such nurse, together with actual reasonable charges of a duly licensed physician or surgeon, not to exceed one thousand seven hundred fifty dollars ($1,750).

2. Where an injury incurred in line of such duty results in the loss by amputation of an arm, hand, leg or foot, or the enucleation of an eye, or the loss of any of the natural teeth, the board shall order them an artificial member or members be furnished to supply the loss thereof. The expense of furnishing such members shall not exceed the following amounts: Hand or arm to elbow, two hundred fifty dollars ($250); arm above elbow, three hundred dollars ($300); foot or leg, two hundred fifty dollars ($250); eye, twenty-five dollars ($25); teeth, one hundred seventy-five dollars ($175). The replacement of an artificial member so furnished shall be required every five (5) years, if necessary.

3. To aid in defraying funeral expenses of a fireman covered under this act whose death occurs in line of duty, an amount not to exceed the sum of two hundred fifty dollars ($250) shall be allowed.

HeinOnline -- 1973 vol. I 339 1973

4. To encourage and aid volunteer fire departments to maintain group insurance for benefits on account of death or injury incurred by members while in the performance of duties as volunteer firemen, the sum of fifty dollars ($50) per year for each mobile unit of fire-fighting equipment, not exceeding two (2) such units in number for any such department, shall be paid to each volunteer fire department maintaining such insurance, or to the organization or agency maintaining such insurance for any such volunteer fire department.

5. In the case of every volunteer fireman who shall meet the qualification requirements set forth in subparagraph two (2) of section 11-2023, and then if the claim provided for under subparagraph two (2) of section 11-2024 shall be completed and filed, the claimant shall be entitled thereafter to participate in the volunteer firemen's pension plan as provided in this act, and to receive payments thereunder computed each year in the following manner. Whenever at the close of business on the last day of any fiscal year there shall be a balance in the volunteer fireman's compensation earmarked revenue account in the earmarked revenue fund in excess of one million dollars ($1,000,000) then the industrial accident board shall *set aside and* pay over to the public employees' retirement system, *the smaller of such amount in excess of one million dollars ($1,000,000), or an amount equal to ninety-five per cent (95%) of the increase of said account balance over the account balance at the end of the preceding fiscal year,* for the payment by said public employees' retirement system of pensions to qualified claimants during the immediately succeeding fiscal year. The amount to be paid to each qualifying claimant shall be determined by dividing said amount *set aside* by the number of claimants qualifying to participate in such pension plan at the beginning of such succeeding fiscal year. If such amount *set aside* shall be sufficient to pay each such qualified claimant at least twenty dollars ($20) per month throughout such succeeding fiscal year, then such pension shall be paid monthly, on or before the last day of each month of such succeeding fiscal year; but if said amount *set aside* shall not be sufficient to pay each qualified claimant at least twenty dollars ($20) per month, then each qualified claimant's full pension for that year shall be paid to him in one lump payment on or before the fifteenth day of December of such year; provided, however, that in any event the total pension payable hereunder to any qualified claimant shall not exceed the sum of *fifty dollars ($50)* per month, and the amount to be set aside hereunder from the volunteer fireman's compensation earmarked revenue account in the earmarked revenue fund at the beginning of any fiscal year for the funding of such pensions shall not in any event exceed the amount necessary to pay such maximum of *fifty dollars ($50)* per month

For the purpose of computation and payment of benefits under this act, if children of any volunteer fireman shall become eligible for benefits hereunder, then all children of such volunteer fireman shall be treated collectively as one (1) claimant. The fiscal year for the purpose of this act shall begin on the first day of July of each year and end on the last day of June of each year."

Section 2. Section 11-2023, R.C.M. 1947, is amended to read as follows:

"11-2023. **Qualification for compensation.** (1) In order to qualify for the compensation provided under subparagraphs one (1), two (2), three (3) and four (4) of section 11-2022, the fireman must be an enrolled active member of a fire company organized under the laws of the state of Montana in an unincorporated area, town or village, at the time of such injury or sickness for which compensation hereunder is claimed.

(2) In order to qualify for participation in the volunteer firemen's pension plan under subparagraph five (5) of section 11-2022, a volunteer fireman must meet each of the following requirements:

(A) *Years of service. (I) To qualify for full participation he* must have completed a total of at least *twenty (20) years'* service as an active volunteer fireman and as an active member of a qualified volunteer fire company organized under the laws of the state of Montana in an unincorporated area, town or village. *(II) If prevented from completing at least twenty (20) years' service by dissolution or discontinuance of his volunteer fire company, or by personal relocation due to transfer or loss of employment, or by personal disability, or by other factor beyond his reasonable control, then he may qualify for partial participation if he has completed at least ten (10) years' service; in that event, he* shall be eligible for only a proportion of the benefits specified in subparagraph five (5) of section 11-2022, determined by multiplying such specified benefits by a fraction, the numerator of which shall be the number of years active service completed, and the denominator of which shall be twenty (20). *(III)* Provided, that from and after July 1, 1965, no volunteer fireman shall receive credit for any year of membership in any such volunteer fire company unless throughout such year such volunteer fire company shall have maintained fire-fighting equipment in serviceable condition of a value of two thousand five hundred dollars ($2,500) or more, and unless throughout such year such volunteer fire company, or the fire district served thereby, shall have been rated in class five (5), six (6), seven (7), eight (8), nine (9), or ten (10) by the board of fire un-

derwriters for the purpose of fire insurance premium rates; provided, further, that such years of active service shall be cumulative and need not be continuous, and that such service need not be acquired with one (1) single fire company, but may be a total of separate periods of active service with different fire companies organized under the laws of the state of Montana in different fire districts in unincorporated areas, towns or villages. From and after passage of this act, the annual period of service for the purpose of this act shall be the fiscal year; no fractional part of any year shall count toward the service requirement, and to receive credit for any particular year a volunteer fireman must serve with one (1) particular volunteer fire company throughout that entire fiscal year;

(B) He must have attained the age of fifty-five (55) years (but he need not be an active volunteer fireman or an active member of any volunteer fire company at the time of reaching such age);

(C) During each of the years for which he claims credit under subparagraph (A) above, he must have completed a minimum of thirty (30) hours of instruction in matters pertaining to fire fighting, under a program formulated and supervised by the chief of his volunteer fire company;

(D) He must have ceased to be an active member of any volunteer fire company organized under the laws of the state of Montana in an unincorporated area, town or village, and if he applies for and receives pension benefits hereunder, he shall not thereafter be eligible to become an active member of any such vol-untter fire company;

(E) He must not be eligible for benefits under any fire department relief association organized in any incorporated area.

(F) Provided, however, that any volunteer fireman who is an active member of a volunteer fire company organized under the laws of the state of Montana in an unincorporated area, town or village at the time of passage of this act shall receive credit against the said service requirement to the extent of one (1) year's credit for each two (2) years' service completed or to be completed by him prior to July 1, 1965, as such active member of any such volunteer fire company or companies; for the purpose of this credit for prior service it shall not be necessary either that the volunteer fire company or companies with which such service has been rendered shall satisfy the requirements of subparagraph (A) above, or that the individual volunteer fireman shall during such prior service have satisfied the requirements of subparagraph (C) above; but in any event no more than ten (10) years' credit shall be allowed any such volunteer fireman by reason of such service prior to July 1, 1965. For the purpose of establishing such prior service credit, the chief

CHAPTER NO. 200

An Act to Amend Section 84-1855, R.C.M. 1947, Relating to the Refund of Gasoline License Tax on Gasoline Used Off the Public Highways by Establishing a Procedure to be Followed by the Claimant and the Department of Revenue in Estimating the Amount of the Gasoline License Tax Refund; and by Prescribing Records of Use to be Kept by Claimants Who Do Not Elect to Estimate the Amount of Gasoline Tax to be Refunded; and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 84-1855, R.C.M. 1947, is amended to read as follows:

"84-1855. **Refund of gasoline license tax — procedure.** (1) Any person who shall purchase and use any gasoline, on which the Montana gasoline license tax has been paid, for operating or propelling stationary gasoline engines, tractors used off the public highways and streets, motorboats, or for cleaning or dyeing, or for any commercial use other than propelling vehicles upon any of the public highways or streets of this state, shall be allowed a refund of the amount of tax paid directly or indirectly on the gasoline so used. Provided, that such refund or drawback should in no instance exceed the tax paid or to be paid, to the state of Montana [, and no refund shall be allowed of that portion of the tax per gallon upon aviation gasoline allocated to the *board of aeronautics* by section 1-501, R.C.M. 1947].

Any distributor paying the gasoline license tax to this state erroneously shall be allowed a credit or refund of the amount of tax so paid.

(2) The application for refund shall be a signed statement on a form furnished by the *department*, accompanied by the *original* invoice or invoices issued to the claimant *at the time of purchase and delivery*, showing the total amount of gasoline purchased, the total amount of gasoline on which a refund is claimed, and the amount of the tax claimed for refund. Such further information pertaining to such claim shall be furnished as required by the *department*, provided that *gallons of gasoline used off the roadways, where not verifiable by records of actual use, may be estimated by the applicant according to the following schedule:*

(a) on the first one thousand (1,000) gallons of gasoline purchased, or any part thereof, forty-five per cent (45%) of gasoline purchased.

(b) on the next one thousand (1,000) gallons of gasoline purchased, or any part thereof, sixty per cent (60%) of gasoline purchased.

(c) on the next one thousand (1,000) gallons of gasoline purchased, or any part thereof, sixty-five per cent (65%) of gasoline purchased.

(d) on any gasoline purchased in excess of three thousand (3,000) gallons, seventy per cent (70%) of gasoline purchased.

If any invoice is either lost or destroyed, the purchaser may support his claim for refund by submitting an affidavit relating the circumstances of such loss or destruction and by producing such other evidence as may be required by the *department*.

(3) Any applicant who does not elect to estimate the off-highway use of gasoline according to the schedule in subsection (2) shall maintain records as provided for in this subsection.

(a) Highway and off-highway use of gasoline from common storage. Gasoline purchased and delivered into bulk storage for use in motor vehicles on public roads and nonhighway use must be fully accounted for by detail withdrawal records to accurately show the manner in which used. Gasoline on hand, determined by actual measurement, shall be deducted from a claim and shall be reported as an opening inventory on the next claim. Credit for the inventory is allowed on the next claim if filed within fourteen (14) months from the filing date of the claim which established the inventory.

(b) Highway and off-highway use of gasoline from separate storage. If separate storage tanks are maintained for highway use and off-highway use, the bulk purchase invoices shall be so marked by the dealer at the time of delivery. No further record is required,

HeinOnline -- 1973 vol. I 344 1973

provided that no gasoline is withdrawn from the off-highway tank for licensed vehicles. Withdrawal of gasoline from the off-highway tank for licensed vehicles will invalidate this method of determining refundable gallonage.

(c) Use of gasoline from restricted use storage. Special storage facilities in the woods, or in farm fields, or for other uses for certain periods, must be identified and explained. If such storage is used entirely for off-highway purposes and is not used in licensed vehicles, no records will be required other than purchase invoices showing the delivery into such storage.

(d) Gasoline purchased for other than bulk storage. Fuel purchased in small containers for nonhighway use must be identified on the purchase invoice and no further record is required.

(e) Resellers. Service stations, bulk dealers and marinas must prepare a separate and complete invoice for each withdrawal of gasoline for own use upon which a refund is to be claimed.

(f) Proof of highway use. When no highway use of gasoline is deducted from the claim, the applicant must substantiate purchases of gasoline and miles traveled for licensed motor vehicles upon request of the department.

(g) Any person who operates a licensed motor vehicle on and off the public roads for commercial purposes may claim refund of the state license tax on the gasoline used to operate the vehicle on roads or property in private ownership, if such person has maintained the following records:

(i) the total number of highway miles operated by each licensed motor vehicle, including private passenger cars;

(ii) total gallons of gasoline used in each vehicle to include both refund and nonrefund use;

(iii) purchase invoices supporting all gasoline handled through bulk storage, as well as all fuels purchased at service stations or received from other sources. Highway use for each vehicle may be determined by actual measurement, or may be computed by dividing the average miles per gallon highway operation consumption rate into the number of highway miles operated.

(4) All applications for refunds shall be filed with the *department of revenue* within fourteen (14) months after the date on which the gasoline was purchased as shown by invoices or after the date on which the tax was erroneously paid. Provided, however, that a distributor may file a claim for refund of taxes erroneously paid within three (3) years after the date of such erroneous payment. *Except in the case of a claim for refund of taxes erroneously*

paid by a distributor, no claimant may make more than one (1) application for refund during any calendar year. The *department* shall have one hundred twenty (120) days after receiving the claim to approve or reject it. If approved, the *department* shall issue a credit in lieu of refund for the amount of the claim, if the claimant is a distributor. For all other persons, a warrant shall be drawn upon the state treasurer for the amount of the claim.

(5) Should the *department of revenue* find that the statement contains errors which are not fraudulently inserted, it may correct the statement and approve it as corrected, or the *department* may require the claimant to file an amended statement. If the state *department of revenue* determines that any claim has been fraudulently presented or is supported by invoice or invoices fraudulently made or altered or that any statement in the claim or affidavit is willfully false and made for the purpose of misleading, the *department* may reject such claim in full. If a claim is rejected, the *department* may suspend claimant's right to refund for a period not to exceed one (1) year.

(6) Any person, other than a licensed distributor, shall obtain a *license* from the state *department of revenue* prior to selling gasoline on which a refund may be claimed. The application for *license* shall contain the applicant's name, address, place or places of business in the state of Montana, and other information which may be required by the *department. Licenses* issued shall bear a *license* number and the date of issuance. The *department* shall keep a record of all *licenses* issued, canceled, or suspended. *Licenses* shall be issued for the calendar year upon payment of a fee of one dollar ($1) and must be renewed annually before the first day of January.

Any person failing to comply with this subsection shall be subject to a fine of not less than twenty-five dollars ($25) or more than two hundred dollars ($200) or imprisonment in the county jail for a period not less than ten (10) days or more than sixty (60) days, or both fine and imprisonment.''

Section 2. This act is effective on its passage and approval.

Approved: March 7, 1973.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. The legislative assembly hereby declares that the health, welfare and safety of the people of the state of Montana would be enhanced by the expeditious handling of liability claims. The legislative assembly further declares that the handling of such claims would be expedited if voluntary payment by or on behalf of one person to or on behalf of a person who has sustained injury to his person or damage to his propery could not be construed as an admission of fault or liability as to any claim arising out of the occurrence which gave rise to such injury or damage.

Section 3. No voluntary partial payment of a claim against any person based on alleged liability of that person for injury to person, including death, or damage to property arising out of any occurrence shall be construed as an admission of fault or liability, or as a waiver or release of claim by the person to whom or in whose behalf such payment was made. The fact of any such voluntary payment, or its amount, shall not be admissible as evidence on the trial of any action arising out of such occurrence, whether on the issue of liability, the extent of the damage or otherwise. Upon final settlement between the parties of a claim arising out of such occurrence, the parties may make any agreement they wish with respect to all voluntary partial payments. After entry of a judgment in an action for damages for personal injuries, including death, or for damage to property arising out of any occurrence, any voluntary partial payment theretofore made shall be treated as a credit against

such judgment, and shall be deductable from the amount of such judgment. If after partial voluntary payments are made as herein provided for, it shall be determined by a court of competent jurisdiction that the person who made such payments, or on whose behalf such payments were made, is liable for an amount which is less than the amount of the voluntary payments already made, such person shall have no right of action for the recovery of the amount by which the voluntary payments exceeded the amount of the judgment.

Section 4. It is the intent of the legislative assembly that each part of this act is essentially dependent upon every other part, and if one part is held unconstitutional or invalid, all other parts are invalid.

Section 1. Section 75-6809, R.C.M. 1947, is amended to read as follows:

"75-6809. **Entering appropriations on accounting records of county treasurer.** When the county treasurer receives the final budgets of the districts from the county superintendent, he shall open a fund for each budgeted fund included on the final budget of each district by entering the amount appropriated for *the fund* on his accounting record.

Whenever the county treasurer receives a final emergency budget for a district from the county superintendent, he shall increase the *amount* of the regularly adopted final budget by the amount of the emergency budgeted fund included on the final emergency budget."

HeinOnline -- 1973 vol. I 393 1973

Section 2. Section 75-6810, R.C.M. 1947, is amended to read as follows:

"75-6810. **Procedure for issuance of warrants.** The trustees of each district shall issue all warrants and the warrants shall identify:

(1) the budgeted fund or nonbudgeted fund on which the warrant is drawn;

(2) the appropriation item of the budgeted fund or the type of expenditure for a nonbudgeted fund on which the warrant is drawn; and

(3) the warrant as an emergency warrant, if it is drawn on an emergency budget.

Any warrant issued by a district shall be countersigned by the chairman of the trustees and the clerk of the district before the warrant shall be negotiable. Facsimile signatures may be used in accordance with the provisions of chapter 13 of Title 59, R.C.M. 1947, provided that the facsimile signature device shall not be available to the other countersigner of the warrant.

The trustees shall issue warrants in single copy or in triplicate copy. When the warrants are issued in single copy, the trustees shall immediately provide a listing of the issued warrants on a fund-by-fund basis to the county treasurer and retain a copy of the listing in the district accounting records. When the warrants are issued in triplicate, the original copy of the warrant shall be delivered to the payee; the duplicate shall be sent immediately to the county treasurer and the triplicate shall be retained by the district for accounting record purposes. The duplicate and triplicate copies shall be identified on the face of the warrant as "Not Negotiable—Copy of Original."

HeinOnline -- 1973 vol. I 394 1973

of the warrants shall allow for the computation of the unexpended amount of a budgeted fund from the accounting records.

Whenever it appears to the county treasurer that a budgeted fund is so nearly exhausted that the issuance of another warrant will cause the overexpenditure of such *budget*, the county treasurer shall immediately notify the appropriate district of the expended condition of the *budget* and the district shall not issue another warrant against such *fund that would overexpend the budget.*

After receiving a duplicate warrant *or warrant listing that contains a warrant* which will exceed the unexpended balance of a budgeted fund, the county treasurer shall immediately notify the district of such overdraft. If the district has not corrected the overdraft before the presentation of the warrant for payment, the county treasurer shall refuse to pay or register such warrant, and shall endorse across the face of such warrant "Payment and Registration Refused, Insufficient *Budget*" and return the warrant to the person presenting it for payment.

Whenever a warrant will everexpend the cash balance of a nonbudgeted fund, the county treasurer shall refuse to pay or register such warrant, and shall endorse across the face of such warrant "Payment and Registration Refused, Insufficient Funds" and return the warrant to the person presenting it for payment. The county treasurer shall immediately notify the district of such refusal to pay or register the warrant drawn on a nonbudgeted fund."

Section 4. Section 75-6812, R.C.M. 1947, is amended to read as follows:

"75-6812. **Transfer among appropriation items of a fund.** Whenever it appears to the trustees of any district that the appropriated amount of any item of a budgeted fund of the final budget or the emergency budget is in excess of the amount actually required during the school fiscal year for such appropriation item, the trustees may transfer any or all of the excess appropriation amount to any other appropriation item of the same budgeted fund.

Such transfers shall not be made between different funds of the same district or between similar funds of different districts except as specifically provided by this title. The trustees shall *enter the authorized transfers upon the permanent records of the district.*"

Section 1. Section 46-801, R.C.M. 1947, is amended to read as follows:

"46-801. **Inspection of livestock before change of ownership or removal from county.** (1) Except as in this act otherwise provided, it shall be unlawful to remove or cause to be removed from any county in this state any cow, ox, bull, stag, calf, steer, heifer, horse, mule, mare, colt, foal or filly, by means of any railroad car, motor vehicle, trailer, horse-drawn vehicle, boat or in any manner whatsoever, or to transfer ownership by sale or otherwise *or for an intended purchaser or his agent to take possession of any such animal subject to title passing upon meeting or satisfaction of any conditions* unless such animal shall have been inspected for brands by a state stock inspector or deputy state stock inspector and certificate of such inspection shall have been issued in connection with and for the purpose of such transportation or removal *or of such change of ownership* as in this act provided. (2) It shall be unlawful to sell or offer for sale at a livestock market any cow, ox, bull, stag, calf, steer, heifer, horse, mule, mare, colt, foal or filly originating within any county in the state of Montana in which a livestock market is maintained, or transported un-

der a market consignment permit until such animal has been inspected for marks and brands by a state stock inspector, as in this act provided.

(3) It shall be unlawful to remove or cause to be removed any cow, ox, bull, stag, calf, steer, heifer, horse, mule, mare, colt, foal or filly from the premises of any livestock market in this state unless such animal shall have been inspected for marks and brands by a state stock inspector and an inspection certificate for such animal shall have been issued in connection with and for the purpose of such removal from the premises of such livestock market, as in this act provided.

(4) The person in charge of any such cow, ox, bull, stag, calf, steer, heifer, horse, mule, mare, colt, foal or filly being removed from any county in this state, where inspection thereof is required by this act, or where change of ownership has occurred as in this act defined, or when moved under a market consignment permit shall have in his possession the certificate of inspection or market consignment permit issued in connection therewith, and shall exhibit the same to any sheriff, deputy sheriff, constable, highway patrolman, state stock inspector or deputy state stock inspector or at the request of either of them and the provisions of section 46-803 shall be extended to livestock transported or sold under the above-mentioned permits.

The state of Montana shall recognize as valid in the state of Montana permanent transportation permits validly issued in other jurisdictions to the owner of saddle, work or show horses subsequently entering the state of Montana, provided that such permit shall be deemed automatically void upon a change of ownership.

(c) In case of registered purebred cattle being transported from county to county within the state by the owner thereof for show purposes and where there is no change of ownership, the inspection certificate as required by this act, may be endorsed as to purpose and extent of transportation by the inspector issuing same in order to serve as a travel permit within the state for a period not to exceed one year for the cattle described thereon. CHAPTER NO. 249

An Act Amending Section 84-6701, R.C.M. 1947, to Specifically Adopt the Multistate Tax Compact Provisions Relating to Interstate Audits.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 84-6701, R.C.M. 1947, is amended to read as follows:

"84-6701. **Compact adopted—text.** The "Multistate Tax Compact" is hereby enacted into law and entered into with all jurisdictions legally joining therein. *Article VIII of the Multistate Tax Compact relating to interstate audits is specifically adopted.*

ARTICLE I. PURPOSES.

The purposes of this compact are to:

1. Facilitate proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes.

2. Promote uniformity or compatibility in significant components of tax systems.

3. Facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration.

4. Avoid duplicative taxation.

ARTICLE II. DEFINITIONS.

As used in this compact:

1. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.

2. "Subdivision" means any government unit or special district of a state.

3. "Taxpayer" means any corporation, partnership, firm, association, governmental unit or agency or person acting as a business entity in more than one state.

HeinOnline -- 1973 vol. I 410 1973

4. "Income tax" means a tax imposed on or measured by net income including any tax imposed on or measured by an amount arrived at by deducting expenses from gross income, one or more forms of which expenses are not specifically and directly related to particular transactions.

5. "Capital stock tax" means a tax measured in any way by the capital of a corporation considered in its entirety.

6. "Gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax.

7. "Sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller, or which is customarily separately stated from the sales price, but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles.

8. "Use tax" means a nonrecurring tax, other than a sales tax, which (a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property and (b) is complementary to a sales tax.

9. "Tax" means an income tax, capital stock tax, gross receipts tax, sales tax, use tax, and any other tax which has a multistate impact, except that the provisions of Articles III, IV and V of this compact shall apply only to the taxes specifically designated therein and the provisions of Article IX of this compact shall apply only in respect to determinations pursuant to Article IV.

ARTICLE III. ELEMENTS OF INCOME TAX LAWS.

Taxpayer Option, State and Local Taxes.

1. Any taxpayer subject to an income tax whose income is subject to apportionment and allocation for tax purposes pursuant to the laws of a party state or pursuant to the laws of subdivisions in two or more party states may elect to apportion and allocate his income in the manner provided by the laws of such state or

by the laws of such states and subdivisions without reference to this compact, or may elect to apportion and allocate in accordance with Article IV. This election for any tax year may be made in all party states or subdivisions thereof or in any one or more of the party states or subdivisions thereof without reference to the election made in the others. For the purposes of this paragraph, taxes imposed by subdivisions shall be considered separately from state taxes and the apportionment and allocation also may be applied to the entire tax base. In no instance wherein Article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if the apportionment or allocation were being made with respect to a state income tax.

Taxpayer Option, Short Form.

2. Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return, whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property, and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of $100,000 may elect to report and pay any tax due on the basis of a percentage of such volume, and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The multistate tax commission, not more than once in five years, may adjust the $100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the $100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

Coverage.

3. Nothing in this Article relates to the reporting or payment of any tax other than an income tax.

ARTICLE IV. DIVISION OF INCOME.

1. As used in this Article, unless the context otherwise requires:

(a) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(b) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(c) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(d) "Financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, co-operative bank, small loan company, sales finance company, investment company, or any type of insurance company.

(e) "Nonbusiness income" means all income other than business income.

(f) "Public utility" means any business entity (1) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipeline, or the production, transmission, sale, delivery, or furnishing of electricity, water or steam; and (2) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.

(g) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this Article.

(h) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign county or political subdivision thereof.

(i) "This state" means the state in which the relevant tax return is filed or, in the case of application of this Article to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

2. Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this Article. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this Article, the taxpayer may elect to allocate and apportion his entire net income as provided in this Article.

3. For purposes of allocation and apportionment of income under this Article, a taxpayer is taxable in another state if (1)

HeinOnline -- 1973 vol. I 413 1973

in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interests, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this Article.

5. (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6. (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if (1) the property had a situs in this state at the time of the sale, or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8. (a) Patent and copyright royalties are allocable to this

state: (1) if and to the extent that the patent or copyright is utilized by the payer in this state, or (2) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:

HeinOnline -- 1973 vol. I 415 1973

(a) the individual's service is performed entirely within the state;

(b) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(c) some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:

(a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and (1) the purchaser is the United States government or (2) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:

(a) the income-producing activity is performed in this state; or

(b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this Article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(a) separate accounting;

(b) the exclusion of any one or more of the factors;

(c) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

HeinOnline -- 1973 vol. I 416 1973

(d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

ARTICLE V. ELEMENTS OF SALES AND USE TAX LAWS.

Tax Credit.

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

Exemption Certificates. Vendors May Rely.

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificates or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

ARTICLE VI. THE COMMISSION.

Organization and Management.

1. (a) The Multistate Tax Commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency, the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1 (e) of this Article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

HeinOnline -- 1973 vol. I 417 1973

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notice of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice-chairman and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount and con-

HeinOnline -- 1973 vol. I 418 1973

ditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

Committees.

2. (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice-chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

Powers.

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) Study state and local tax systems and particular types of state and local taxes.

(b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.

(c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

(d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

Finance.

4. (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

HeinOnline -- 1973 vol. I 419 1973

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph 1 (i) of this Article: provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1(i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any person authorized by the commission.

(f) Nothing contained in this Article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VII. UNIFORM REGULATIONS AND FORMS.

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use

HeinOnline -- 1973 vol. I 420 1973

tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of Article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

ARTICLE VIII. INTERSTATE AUDITS.

1. This Article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being

HeinOnline -- 1973 vol. I 421 1973

examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident: provided that such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this Article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this Article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this Article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this Article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this Article.

8. In no event shall the commission make any charge against a taxpayer for an audit.

9. As used in this Article, "tax," in addition to the meaning

HeinOnline -- 1973 vol. I 422 1973

ascribed to it in Article II, means any tax or license fee imposed in whole or in part for revenue purposes.

ARTICLE IX. ARBITRATION.

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this Article in effect, notwithstanding the provisions of Article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be *knowledgeable* and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ Article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of Article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this paragraph shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residents within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

HeinOnline -- 1973 vol. I 423 1973

6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoenas, and the court may punish failure to obey the order as a contempt. The provisions of this paragraph apply only in states that have adopted this Article.

8. Unless the parties otherwise agree, the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

13. Nothing contained herein shall prevent at any time a

written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceedings.

ARTICLE X. ENTRY INTO FORCE AND WITHDRAWAL.

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdrew from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

ARTICLE XI. EFFECT ON OTHER LAWS AND JURISDICTION.

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement Article III [paragraph] (2) of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax: provided that the definition of "tax" in Article VIII [paragraph] (9) may apply for the purposes of that Article and the commission's powers of study and recommendation pursuant to Article VI [paragraph] (3) may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters."

CHAPTER NO. 254

An Act Providing For A Subsequent Injury Fund In The Workmen's Compensation Act; And Repealing Section 92-709A, R.C.M. 1947.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. There is a new section to be numbered 92-709.1, R.C.M. 1947, which reads as follows:

92-709.1 **Subsequent injury provisions — fund — procedures.** (1) As used in this act:

(a) "Vocationally handicapped" means a person who has a

medically certifiable permanent physical impairment which is a substantial obstacle to obtaining employment or to obtaining reemployment if employee should become unemployed considering such factors as the person's age, education, training, experience, and employment rejection.

(b) "Certifying agency" means the section of rehabilitation, division of workmen's compensation.

(c) "Certificate" means documentation issued by the certifying agency to an individual who is vocationally handicapped.

(d) "Fund" means the subsequent injury fund.

(2) A person who wishes to be certified as vocationally handicapped for purposes of this section may apply to the certifying agency on forms furnished by that agency. The certifying agency shall conduct an investigation and shall issue a certificate to a person who meets the requirements for vocationally handicapped certification.

(3) Upon commencement of employment or retention in employment of a certified vocationally handicapped person, the employer shall submit to the certifying agency, on forms furnished by the agency, all pertinent information requested by the agency. The certifying agency shall acknowledge receipt of the information. Failure to file the required information with the certifying agency within sixty (60) days after the first day of the vocationally handicapped person's employment or retention in employment, precludes the employer from the protection and benefits of this section unless the information is filed before an injury for which benefits are payable under this section.

(4) The administrator of the division shall promulgate rules for certification of vocationally handicapped persons.

(5) A person certified as vocationally handicapped who receives a personal injury arising out of and in the course of his employment and resulting in death or disability, shall be paid compensation in the manner and to the extent provided in this act, or in case of his death resulting from such injury, the compensation shall be paid to his beneficiaries or dependents. The liability of the employer for payment of compensation, for furnished medical care and burial as provided in this act shall be limited to those benefits occurring during the period of one hundred four (104) weeks after the date of injury. Thereafter, all compensation and the cost of all medical care and burial shall be the liability of the fund.

(6) When a vocationally handicapped person receives a personal injury, the procedure and practice provided in this act ap-

HeinOnline -- 1973 vol. I 439 1973

plies to all proceedings under this section, except where specifically otherwise provided herein. Not less than ninety (90) nor more than one hundred fifty (150) days before expiration of one hundred four (104) weeks after the date of injury, the employer, carrier, or the industrial insurance fund, as the case may be, shall notify the fund whether it is likely that compensation may be payable beyond a period of one hundred four (104) weeks after the date of the injury. The fund, thereafter, may review, at reasonable times, such information as the employer, carrier or industrial insurance fund as regarding the accident, and the nature and extent of the injury and disability.

(7) If the fund does not notify the carrier of its intent to dispute the payment of compensation, medical and burial benefits, the employer, carrier, or industrial insurance fund, shall continue to make payments on behalf of the fund, and shall be reimbursed by the fund for all benefits paid that pertain to the period beyond one hundred four (104) weeks after the date of the injury. However, at any time subsequent to one hundred four (104) weeks after the date of injury, the fund may notify the carrier of a dispute as to payment of benefits. The liability of the fund to reimburse the employer, carrier, or the industrial insurance fund shall be suspended thirty (30) days thereafter until the controversy is determined.

(3) The obligation imposed by this section on the employer, carrier, or industrial insurance fund to make payments on behalf of the fund does not impose an independent liability on the employer, carrier or industrial insurance fund. After the right to reimbursement has been established, reimbursement payment shall be made promptly on a proper showing every six (6) months. If the employer, carrier or the industrial insurance fund does not make the payments on behalf of the fund, the fund may make the payments directly to the persons entitled to the payments.

(9) If an employee was employed or retained in employment under the provisions of this act and a dispute or controversy arises as to payment of benefits or the liability therefor, the division shall hold a hearing and resolve all disputes. On motion made in writing by the employer, carrier, or industrial insurance fund, the administrator shall join the fund as a party defendant.

(10) The division within five (5) days of the entry of an order joining the fund as a party defendant shall give the fund written notice thereof not less than twenty (20) days before the date of hearing and shall include the name of employee, employer, and the date of the alleged injury or disability. The fund, named as a defendant, shall have ten (10) days after the date of notification to file objections to being named as party defendant. On the

HeinOnline -- 1973 vol. I 440 1973

date of the hearing at which the liability of the parties is determined, the hearing examiner first shall hear arguments and take evidence concerning the joinder as party defendant. If the fund has filed timely objection, and if argument and evidence warrant, the hearing examiner shall grant a motion to dismiss.

(11) At the time of the hearing, employer and fund may appear, cross-examine witnesses, give evidence and defend both on the issue of liability of the employer to the employee and on issue of the liability of the fund.

(12) The hearing examiner shall make findings of fact and conclusions of law determining the respective liability of the employer and the fund.

(13) Benefits payable from the fund may be converted into a lump sum payment only upon a substantial showing for an equitable cause, the advisability of the lump sum payment to be determined and approved by the administrator of the division.

(a) In every case of the death of an employee under this act, the insurer shall pay to the fund the sum of one thousand dollars ($1,000). In addition, the division may assess every insurer an amount not to exceed five percent (5%) of the compensation paid in Montana in the preceding fiscal year. The assessment shall be transmitted annually to the subsequent injury fund by the employer or insurer.

(b) When in judgment of the administrator the amount of money in the subsequent injury fund is such that there is a surplus above and beyond projected liabilities, the administrator may at his discretion suspend or reduce further collection of assessments for a period of time determined by the administrator.

Section 2. Section 92-709A, R.C.M. 1947, is repealed, and the assets and liabilities acquired under this section are hereby transferred to the subsequent injury fund.

Approved: March 10, 1978

CHAPTER NO. 255

An Act to Amend Section 75-6915, R.C.M. 1947, to reconcile said Section of Law with Section 75-6902, R.C.M. 1947, by deleting the provision for a nonaccredited school to receive county equalization moneys.

Be it enacted by the Legislative Assembly of the State of Montana:

HeinOnline -- 1973 vol. I 441 1973

Section 1. Section 75-6915, R.C.M. 1947, is amended to read as follows:

"75-6915. **Formulas for apportionment of county equalization moneys.** After making such deductions prescribed in section 75-6914, the county superintendent shall apportion the remaining amount of moneys available in the basic county tax account to the several elementary districts of the county and in the basic special tax for high schools account to the several high school districts of the county in proportion to their needs under the foundation program in accordance with the following procedure:

Elementary Schools

(1) Determine the percentage that the sum of interest and income moneys plus the county equalization moneys available for the support of the foundation programs of the elementary districts in the county is of the total amount of the foundation programs of all such elementary districts.

(2) Determine the percentage that the interest and income moneys available to each elementary district (excluding any county equalization moneys) is of the amount of the foundation programs of each such elementary district.

(3) Elementary districts in which the percentage determined in subsection (2) exceeds the percentage determined in subsection (1) shall not be entitled to an apportionment of the county equalization moneys available for the equalization of the elementary district foundation program and shall be excluded from further consideration under this procedure.

(4) After elimination of elementary districts under subsection (3), determine the percentage that the sum of the interest and income moneys available to all remaining elementary districts in the county plus the county equalization moneys available for the support of the foundation programs of the elementary districts in the county is of the total amount of the foundation programs of all such remaining elementary district.

(5) The difference between the percentage determined in subsection (4) above and the percentage determined for such eligible elementary district in subsection (2) above, shall be multiplied by the foundation program amount for each remaining elementary district to determine the portion of the county equalization moneys available to each eligible elementary district.

High Schools

(6) Determine the percentage that the county equalization moneys available for the support of the foundation programs of the

high school districts in the county is of the total amount of the foundation programs of all such high school districts.

(7) Multiply the foundation program amount of each high school district by the percentage determined in subsection (6) above to determine the portion of the county equalization moneys available to each high school district.

No territory situated within a county *shall* be excluded from the apportionment of the county equalization moneys under this section solely because such territory lies within the boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year shall not be considered in the apportionment procedure prescribed in this section.

When the total amount of the available county moneys for apportionment under this section is greater than the amount of money to be apportioned under the apportionment procedure prescribed by this section, the excess amount of county moneys shall be retained by the county to be considered as financing during the ensuing school fiscal year under the requirements of subsection (5) of section 75-6912 or subsection (1) of section 75-6913.

The county equalization moneys apportioned under these procedures shall constitute the second source of revenue in calculating the financing of the elementary district foundation program and shall constitute the first source of revenue in calculating the financing of the high school district foundation program. The county superintendent shall use the apportionment procedure prescribed in this section in computing the estimated revenues for the financing of the ensuring year's foundation program for budgeting purposes."

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. The western interstate nuclear compact is entered into and adopted as follows:

HeinOnline -- 1973 vol. I 445 1973

WESTERN INTERSTATE NUCLEAR COMPACT

ARTICLE I.

Policy and Purpose

The party states recognize that the proper employment of scientific and technological discoveries and advances in nuclear and related fields and direct and collateral application and adaptation of processes and techniques developed in connection therewith, properly correlated with the other resources of the region, can assist substantially in the industrial progress of the west and the further development of the economy of the region. They also recognize that optimum benefit from nuclear and related scientific or technological resources, facilities and skills requires systematic encouragement, guidance, assistance, and promotion from the party states on a cooperative basis. It is the policy of the party states to undertake such cooperation on a continuing basis. It is the purpose of this compact to provide the instruments and framework for such a cooperative effort in nuclear and related fields, to enhance the economy of the west and contribute to the individual and community well-being of the region's people.

ARTICLE II.

The Board

(a) There is hereby created an agency of the party states to be known as the "western interstate nuclear board," hereinafter called the board. The board shall be composed of one (1) member from each party state designated or appointed in accordance with the law of the state which he represents and serving and subject to removal in accordance with such law. Any member of the board may provide for the discharge of his duties and the performance of his functions thereon, either for the duration of his membership or for any lesser period of time, by a deputy or assistance, if the laws of his state make specific provisions therefor. The federal government may be represented without vote if provision is made by federal law for such representation.

(b) The board members of the party states shall each be entitled to one (1) vote on the board. No action of the board shall be binding unless taken at a meeting at which a majority of all members representing the party states are present and unless a majority of the total number of votes on the board are cast in favor thereof.

(f) The board may establish and maintain, independently or in conjunction with any one or more of the party states, or its institutions or subdivisions, a suitable retirement system for its full-time employees. Employees of the board shall be eligible for social security coverage in respect of old age and survivors insurance provided that the board takes such steps as may be necessary pursuant to federal law to participate in such program of insurance as a governmental agency or unit. The board may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The board may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.

(k) The board annually shall make to the governor of each party state, a report covering the activities of the board for the preceding year, and embodying such recommendations as may have been adopted by the board, which report shall be transmitted to the legislature of said state. The board may issue such additional reports as it may deem desirable.

(b) Each of the board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. Each of the board's requests for appropriations pursuant to a budget of estimated expenditures shall be apportioned equally among the party states. Subject to appropriation by their respective legislatures, the board shall be provided with such funds by each of the party states as are necessary to provide the means of establishing and maintaining facilities, a staff of personnel, and such activities as may be necessary to fulfill the powers and duties imposed upon and entrusted to the board.

(c) The board may meet any of its obligations in whole or in part with funds available to it under article II, paragraph (h) of this compact, provided that the board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the board makes use of funds available to it under article II, paragraph (h) hereof, the board shall not incur any obligation prior to the allotment of funds by the party jurisdictions adequate to meet the same.

The board may formulate and, in accordance with need from time to time, revise a regional plan or regional plans for coping with nuclear incidents within the territory of the party states as a whole or within any subregion or subregions of the geographic area covered by this compact.

Any nuclear incident plan in force pursuant to this paragraph shall designate the official or agency in each party state covered by the plan who shall coordinate requests for aid pursuant to article VI of this compact and the furnishing of aid in response thereto.

Unless the party states concerned expressly otherwise agree, the board shall not administer the summoning and dispatching of aid, but this function shall be undertaken directly by the designated agencies and officers of the party states.

The plan or plans of the board in force pursuant to this paragraph shall provide for reports to the board concerning the occurrence of nuclear incidents and the requests for aid on account thereof, together with summaries of the actual working and effectiveness of mutual aid in particular instances.

HeinOnline -- 1973 vol. I 451 1973

From time to time, the board shall analyze the information gathered from reports of aid pursuant to article VI and such other instances of mutual aid as may have come to its attention, so that experience in the rendering of such aid may be available.

(b) Whenever the officers or employees of any party state are rendering outside aid pursuant to the request of another party state under this compact, the officers or employees of such state shall, under the direction of the authorities of the state to which they are rendering aid, have the same powers, duties, rights, privileges and immunities as comparable officers and employees of the state to which they are rendering aid.

(f) Each party state shall provide for the payment of compensation and death benefits to injured officers and employees and the representatives of deceased officers and employees in case officers or employees sustain injuries or death while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within the state by or in which the officer or employee was regularly employed.

Any such agreement shall specify the purpose or purposes; its duration and the procedure for termination thereof or withdrawal therefrom; the method of financing and allocating the costs of the activity or project; and such other matters as may be necessary or appropriate.

No such supplementary agreement entered into pursuant to this article shall become effective prior to its submission to and approval by the board. The board shall give such approval unless it finds that the supplementary agreement or activity or project contemplated thereby is inconsistent with the provision of this compact or a program or activity conducted by or participated in by the board.

(b) Unless all of the party states participate in a supplementary agreement, any cost or costs thereof shall be borne separately by the states party thereto. However, the board may administer or otherwise assist in the operation of any supplementary agreement.

(c) No party to a supplementary agreement entered into pursuant to this article shall be relieved thereby of any obligation or duty assumed by said party state under or pursuant to this compact, except that timely and proper performance of such

HeinOnline -- 1973 vol. I 454 1973

(c) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until two (2) years after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall effect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

(d) Guam and American Samoa, or either of them may participate in the compact to such extent as may be mutually agreed by the board and the duly constituted authorities of Guam or American Samoa, as the case may be. Such participation shall not include the furnishing or receipt of mutual aid pursuant to article VI, unless that article has been enacted or otherwise adopted so as to have the full force and effect of law in the jurisdiction affected. Neither Guam nor American Samoa shall be entitled to voting participation on the board, unless it has become a full party to the compact.

ARTICLE X.

If this compact or any supplementary agreement entered into hereunder shall be held contrary to the constitution of any state participating therein, the compact or such supplementary agreement shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. The provisions of this compact and of any supplementary agreement entered into pursuant thereto shall be liberally construed to effectuate the purposes thereof.

The notice must state generally the relief sought and be served in accordance with section 13 of this act in at least twenty (20) days before the hearing of the action. The action may be brought in the district court in which such person resides or has his principal place of business, or, with consent of the parties, may be brought in the district court of Lewis and Clark County. Section 9. In the administration of this act, the department may accept an assurance of voluntary compliance with respect to any method, act or practice deemed to be violative of the act from any person who has engaged or was about to engage in any such method, act or practice. Any such assurance shall be in writing and be filed with and subject to the approval of district court in which the alleged violator resides or has his principal place of business, or the district court of Lewis and Clark County. Assurance of voluntary compliance is not an admission of violation for any purpose. Matters thus closed may at any time be reopened by the department for further proceedings in the public interest, pursuant to section 5.

Section 10. (1) When it appears to the department that the person has engaged in, is engaging in, or is about to engage in any act or practice declared to be unlawful by this act, or when the department believes it to be in the public interest that an investigation should be made to ascertain whether a person in fact has engaged in, is engaging in or about to engage in, any act or practice declared to be unlawful by this act, the department may execute in writing and cause to be served upon any person who is believed to have information, documentary material or physical evidence relevant to the alleged or suspected violation, an investi-

Section 11. To accomplish the objectives and to carry out the duties prescribed by this act, the department, in addition to other powers conferred upon it by this act, may issue subpoenas to any person, administer an oath or affirmation to any person, conduct hearings in aid of any investigation or inquiry, prescribe forms and promulgate rules and regulations as may be necessary, which rules and regulations shall have the force of law; provided that none of the powers conferred by this act may be used for the purpose of compelling any natural person to furnish testimony or evidence which might tend to incriminate him or subject him to a penalty or forfeiture; and provided further that information obtained pursuant to the powers conferred by this act shall not be made public or disclosed by the department or its employees beyond the extent necessary for law enforcement purposes in the public interest.

Section 12. Service of any notice, demand or subpoena under this act shall be made personally within this state, but if such cannot be obtained, substitute service may be made in the manner provided in the Montana Rules of Civil Procedure.

Section 13. If any person fails or refuses to file any statement or report, or obey any subpoena or investigative demand issued by the department, the department may, after notice, apply to the district court and, after hearing thereon, request an order:

(1) granting injunctive relief to restrain the person from engaging in the advertising or sale of any merchandise or the conduct of any trade or commerce that is involved in the alleged or suspected violation;

(3) granting such other relief as may be required, until the person files the statement or report, or obeys the subpoena or investigative demand. Any disobedience of any final order entered under this section by any court shall be punished as a contempt thereof.

Section 14. (1) Any person who violates the terms of an injunction issued under section 5 of this act shall forfeit and pay to the state a civil penalty of not more than ten thosuand dollars ($10,000) per violation. For the purposes of this section, the district court issuing an injunction retains jurisdiction, and the cause continued, and in such cases the department acting in the name of the state may petition for recovery of civil penalties.

(2) In any action brought under section 5 of this act, if the court finds that a person is willfully using or has willfully used a method, act or practice declared unlawful by section 2 of this act, the department, upon petition to the court, may recover, on behalf of the state, a civil penalty of not more than five hundred dollars ($500) per violation.

(3) Any person who engages in a fraudulent course of conduct declared unlawful by section 2 of this act shall, upon conviction, be fined not more than two thousand dollars ($2,000), imprisoned for not more than one (1) year, or both, in the discretion of the court. Nothing in this subsection limits any other provision of this act.

(4) For purposes of this section, a willfull violation occurs when the party committing the violation knew or should have known that his conduct was a violation of section 2 of this act.

Section 15. Upon petition by the department, the district court may, in its discretion, order the dissolution or suspension or forfeiture of franchise of any corporation which violates the terms of any injunction issued under section 5 of this act.

Section 16. The county attorney shall make a report thereon to the department within thirty (30) days of the final disposition of the matter.

Section 17. The county attorney in first and second class counties may designate an employee to act as a full-time investigator.

Section 18. If any provision of this act is declared unconstitutional, or the application to any person or circumstances is held invalid, the constitutionality of the remainder of the act and its applicability to other persons and circumstances is not affected.

Section 19. This act shall be cited as the "Montana Unfair Trade Practices and Consumer Protection Act of 1973."

HeinOnline -- 1973 vol. I 489 1973

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Purpose. It is the purpose of this act to encourage and promote the adoption of children who are difficult to place in adoptive homes. It is the intent of the legislative assembly to offer prospective adoptive parents information concerning relinquished children, information and assistance in completing the adoption process, and financial aid which may be required to enable them to adopt a "hard-to-place" child.

Section 2. Section 71-1516, R.C.M. 1947, is amended to read as follows:

"71-1516. **Eligibility requirements for medical assistance.** Medical assistance shall be granted in behalf of all persons who reside in the state of Montana, including residents temporarily absent from the state and who meet any of the following requirements:

(1) Who receive all or part of their income from the federally aided public assistance programs: old-age assistance, aid to the blind, aid to dependent children, and aid to the permanently and totally disabled;

(2) All persons, who upon application, would be eligible for financial assistance under any one of the federally aided programs referred to above;

(3) All persons who would be entitled to financial assistance under one of the federally aided categories except that they do not meet the durational residence requirements or relative responsibility requirements of any of the public assistance programs above enumerated;

(4) Persons in medical institutions who, if they were no longer in such institution, would be eligible for financial assistance under one of the above programs;

(5) All children under twenty-one who meet the conditions of eligibility in the state's plan for aid to dependent children, other than with respect to school attendance;

(6) All children under twenty-one who are in foster care under the supervision of the state.

(7) All children under twenty-one (21) who were in foster care under the supervision of the state, and who have been adopted as "hard-to-place" children."

background, race, color or language; is handicapped because of physical, mental or emotional defects; is three (3) years of age or older; or is a sibling of any of the foregoing. If such "hard-to-place child" is under the permanent custody of any licensed state welfare agency other than the department of social and rehabilitation services, that agency must have exhausted all possible attempts for permanent adoption including reference to the department of social and rehabilitation services.

Section 4. The state department of social and rehabilitation services shall establish, administer and regulate the program of subsidized adoption established by this act. The department shall keep such records as are necessary to evaluate the program and shall report annually to the governor concerning the number of children adopted under the program, the cost of the program and any other pertinent information.

The department shall establish rules and regulations concerning financial assistance in addition to the medical assistance provided by section 71-1516 to persons who adopt "hard-to-place" children who were, immediately prior to their adoption, legal wards of the department. The amount of the assistance may not exceed the cost of the care of the child in a foster home. CHAPTER NO. 278

An Act to Amend Section 89-105, R.C.M. 1947, to Require Water User Approval Before Capital Improvements Are Made On Water Projects In Cases Where Construction Estimate Is Five Percent (5%) or More Above the Original Estimate, and Providing An Exception For Emergencies.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 89-105, R.C.M. 1947, is amended to read as follows:

HeinOnline -- 1973 vol. I 491 1973

"89-105. **Power of board to construct works and to act beyond jurisdiction.** The board is hereby authorized to construct, whenever it shall deem such construction expedient, any public works as hereinabove defined, the cost of such construction to be paid wholly by means of or with the proceeds of revenue bonds hereinafter authorized or of a grant to aid in financing such construction from the United States of America or any instrumentality or agency thereof and of other funds provided under the authority of this act. Before constructing any project, the *department* shall make estimates of the cost of the project, of the cost of maintaining, repairing and operating the same, and of the revenues to be derived therefrom, and no such project shall be constructed unless, according to such estimates, the revenues to be derived therefrom will be sufficient to pay the cost of maintaining, repairing and operating the same, and to pay the principal and interest of revenue bonds which may be issued for the cost of such project; provided, however, that in connection with the issuance of any of such bonds, the failure of the board to make the estimates required by this section or to make same in proper form shall in no way affect the validity or enforceability of any such bonds or of the trust indenture, resolution or other security therefor.

However, should the bid of the lowest responsible bidder on any capital improvement associated with public works as defined in this section exceed the department estimates of the cost of the improvements by more than five percent (5%), the department shall obtain approval from the works user association before the bid is accepted; however, capital improvements of an emergency nature necessary to protect life or property or to supply immediate needs for water do not require such approval.

The purpose of this act is to meet, so far as possible, a state-wide need for the conservation and use of water, through the construction and operation of projects designed for such purposes. The board is therefore empowered to make such investigations as may be necessary to plan and carry out a comprehensive state-wide program of water conservation. The projects to be finally constructed shall qualify as parts of such state-wide program and shall be approved by the board upon the showing of their prospective ability to meet, through the sale of water or other services, the cost of operation, maintenance and repair and the amortization of the cost of the construction; provided, however, that the failure of the board to determine such prospective ability of a project shall in no way affect the validity or enforceability of any of such bonds or of the trust indenture, resolution, or other security therefor.

The board may exercise any of its powers:

HeinOnline -- 1973 vol. I 492 1973

(a) In any adjoining state, unless the exercise of such power is not permitted under the laws of such state or of the United States of America.

(b) In any national forest or public domain of the United States of America adjoining, or located in, the state of Montana, unless the exercise of such powers is not permitted under the laws of the United States of America.

(c) In any adjoining country unless the exercise of such powers is not permitted under the laws of such country or of the United States or under the treaties between such country and the United States; provided that the provisions of sections 89-120, 89-121, 89-122 and 89-124 shall not apply to waters appropriated and located outside the state so long as such waters are located outside the state or to rights in waters appropriated and located outside the state, and that all such waters shall be appropriated and all rights in such waters acquired by the board in compliance with the laws of the jurisdiction in which such waters are located and appropriated and with the laws of the United States."

Approved: March 15, 1973.

If the incorporated city or town council does not concur in the resolution of the commissioners, the commissioners shall have no authority to include said town or city in the district, but may continue to develop the district, but excluding said town or city.

(2) The commissioners must give notice of the passage of the resolution of intention and resolution of concurrence, if applicable, a notice describing the general characteristics of the collection system and estimated costs; designating the time and place where the commissioners will hear and pass upon protests made against the operation of the proposed district; and stating that a description of the boundaries for the proposed district is included in the resolution on file in the county clerk's office. The notice shall be published in the newspaper published nearest to the place where the proposed district is to be created for ten (10) consecutive days in a daily newspaper or in two (2) issues of a weekly newspaper; posted in three (3) public places within the boundaries of the proposed district; and a copy mailed by first class mail to every person, firm, or corporation having real property within the proposed district listed upon the last completed assessment list for county taxes the same day the notice is first published."

"89-3504. **Program for delineation of floodways—floodway-encroachment lines—land-use regulations.** (1) The board shall initiate a comprehensive program for the delineation of designated floodways for every watercourse and drainway in the state. It shall make a study relating to the acquiring of flood data, and have authority to enter into arrangements with the United States geological survey, the United States army corps of engineers or any other state or federal agency for such acquisition.

(2) When sufficient data have been acquired to reasonably locate the floodway of a flood of *one hundred (100) year* frequency, the board shall establish, by order, after a public hearing, floodway-encroachment lines for such a floodway within which a political subdivision may establish land-use regulation. available data. The board shall record all floodway-encroachment lines established by it in the office of the county clerk and recorder of each county in which such lines are found. The board shall have the power to alter such lines at any later time, by order, after a public hearing if a re-evaluation of the then available flood data warrants it. Notice of any such hearing or order of the board establishing or altering any such line shall be given by publishing such notice once each week for three consecutive weeks in a legal newspaper published or of general circulation in the area involved, the last publication of which shall be not less than ten (10) days prior to the date set for the hearing or the effective date of such order.

(3) If within one (1) year from the date of transmittal of the floodplain information to officials of the political subdivisions, any political subdivision has failed to adopt land-use regulations which meet or exceed the minimum standards of the board, the designated floodway shall be enforced and no artificial obstruction or nonconforming use shall be established by any person within the floodway-encroachment lines for such a *one hundred (100) year* flood as established by the board under subsection (2) of this section, unless specifically authorized by the board."

Section 3. Section 89-3505, R.C.M. 1947, is amended to read as follows:

This act shall not affect any existing artificial obstruction or nonconforming use established in the floodway prior to the effective date of this act and before the board has enforced a designated floodway under *section 89-3504, subsections (3) or (4);* provided, that no person shall make nor shall any owner allow alterations of any artificial obstruction within a designated floodway

whether the obstruction proposed for alteration was located in the floodway before or after the effective date of this act except upon express written approval of the board. Maintenance of an obstruction shall not be construed to be an alteration.

CHAPTER NO. 310

An Act Amending Section 66-803, R.C.M. 1947, to Extend the Length of Study for the Two Thousand (2,000) Hour Cosmetology Course From Not More Than Twelve (12) Months to not More Than Fourteen (14) Months; and Changing the Fee Charged For Temporary License.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 66-803, R.C.M. 1947, is amended to read as follows:

"66-803. **Requirements for practicing or teaching cosmetology or operating a school of cosmetology.** Before anyone may practice or teach cosmetology, or any person, firm, or copartnership, or

corporation may operate a school of cosmetology, such person, firm, or copartnership or corporation must obtain a license *or* certificate of registration from the state board as hereinafter provided. To be eligible to take the examination to practice cosmetology the applicant must not be less than eighteen (18) years of age and a graduate of the eighth grade school and must be of good moral character. Such applicant must have completed a continuous course of study of at least two thousand (2,000) hours in a registered beauty school, which course of study has been distributed over a period of not less than ten (10) months or more than *fourteen (14)* months, and has received a diploma from said beauty school, or must have completed the course of study in cosmetology prescribed by the state board of education, ex officio regents of the university of Montana, for northern Montana college. Such person so qualified must file with the secretary of the state board, a written application to take such examination accompanied by a health certificate issued by a registered, licensed physician on a form supplied by the state board, and shall deposit with the secretary of the said board, the required examination fee and pass an examination as to his or her fitness to practice cosmetology.

Before an applicant may take an examination to obtain a license as a teacher of cosmetology, he must:

(1) Be a graduate of high school or possess an equivalent of a high school diploma recognized by the state superintendent of public instruction.

(2) Meet the following requirements:

(a) He must have an operator's license to practice cosmetology issued by the state of Montana, been actively engaged as a beauty operator for one (1) continuous year immediately prior to taking the examination, and have received a diploma from a registered school of cosmetology approved by the board certifying satisfactory completion of five hundred (500) hours of student teacher training; or

(b) He must have been actively engaged as a beauty operator for three (3) continuous years immediately prior to taking the teachers' examination.

The applicant must qualify by filing an application as prescribed by the board and by taking and passing the examination prescribed and given by the board. The license must be renewed annually as provided in section 66-816, R.C.M. 1947.

Anyone failing twice to pass an examination may not apply to retake the examination:

HeinOnline -- 1973 vol. I 540 1973

(1) Sooner than six (6) months after the date of the second failure; or

(2) Until he has taken two hundred (200) hours additional teacher training at a registered school of cosmetology approved by the board.

Provided, further, the board may grant to graduates of registered schools of this state upon the payment of *the fee prescribed by law,* a temporary license authorizing such graduates to practice as an operator under the supervision of a licensed cosmetologist, in the practice of hairdressing and beauty culture, for a period of not to exceed ninety (90) days, or until the next examination is held by the board. No such temporary license shall be issued except upon the presentation by the applicant of a certificate of graduation from a registered school of the state of Montana, and such temporary licenses shall not be renewable.

No person, firm or copartnership, or corporation shall operate a school for the purpose of teaching cosmetology for compensation unless a certificate of registration has been first obtained from the state board. Application for such certificate shall be filed with such board on such form as the board shall prescribe.

No teacher or student teacher shall be permitted to practice cosmetology on the public in a school. Any school that enrolls student teachers for a course of student teacher training shall not have at any one (1) time more than one (1) student teacher for each full-time licensed teacher actively engaged at the school. The student teachers may not substitute for full-time teachers.

No school for teaching cosmetology shall be granted a certificate of registration unless it complies, or can comply, with the following requirements:

(1) Have in its employ a licensed teacher who shall be, at all times, in the immediate supervision of the work of said school, or such other teachers as the state board may determine is necessary for the proper conduct of said school. Provided, however, that there shall not be more than twenty-five (25) students to each such teacher.

(2) It shall possess such apparatus and equipment as the state board may determine is necessary for the ready and full teaching of all subjects or practices of cosmetology.

(3) It shall maintain a school term of not less than two thousand (2,000) hours, and shall prescribe a course of practical training and technical instructions equal to the requirements for

HeinOnline -- 1973 vol. I 541 1973

state board examinations, which course of training and technical instruction shall be prescribed by the state board.

(4) It shall keep a daily record of the attendance of each student, establish grades, and hold examinations before issuing diplomas.

(5) No owner, or person in charge of a school of cosmetology shall permit any person to sleep in or use for residential purposes, or any other purpose which would tend to make the room unsanitary, any room used, wholly or in part for a school of cosmetology.

(6) *Licenses or certificates* of registration may be refused, revoked, or suspended, as provided in section 66-811.

(7) The state board shall have the power to prescribe such further rules and regulations as they deem necessary for the proper conduct of schools of cosmetology.

(8) The state board shall require of the person, firm, copartnership, or corporation operating a school to furnish a good and sufficient bond in the amount of five thousand dollars ($5,000) and in a form and manner to be prescribed by the board.

(9) No professional beauty shop shall be operated in connection with any school of cosmetology.

(10) The board may, by ruling, establish suitable curriculum for teachers' training in registered schools of cosmetology.

If a licensee shall contract a communicable disease, endangering the public health, the board shall, upon proof of same, cancel or suspend his or her license until such time as said licensee can secure a physician's certificate showing that such licensee is free from a communicable disease."

CHAPTER NO. 311

An Act Amending Section 93-9902, R.C.M. 1947, to Declare That the Extraction of Coal By Strip Mining or Open Pit Mining Is Not A Public Use; and Setting Forth the Public Policy Therefor.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 93-9902, R.C.M. 1947, is amended to read as follows:

"93-9902. **What are public uses.** Subject to the provisions of

HeinOnline -- 1973 vol. I 542 1973

this chapter, the right of eminent domain may be exercised in behalf of the following public uses:

1. All public uses authorized by the government of the United States.

2. Public buildings and grounds for the use of the state, and all other public uses authorized by the legislative assembly of the state.

3. Public buildings and grounds for the use of any county, city, or town, or school districts; canals, aqueducts, flumes, ditches, or pipes conducting water, heat, or gas for the use of the inhabitants of any county, city, or town; raising the banks of streams, removing obstructions therefrom, and widening, deepening, or straightening their channels; roads, streets, and alleys, and all other public uses for the benefit of any county, city, or town, or the inhabitants thereof, which may be authorized by the legislative assembly; but the mode of apportioning and collecting the costs of such improvements shall be such as may be provided in the statutes or ordinances by which the same may be authorized.

4. Wharves, docks, piers, chutes, booms, ferries, bridges, of all kinds, private roads, plank and turnpike roads, railroads, canals, ditches, flumes, aqueducts, and pipes for public transportation, supplying mines, mills, and smelters for the reduction of ores and farming neighborhoods with water, and drainage and reclaiming lands, and for floating logs and lumber on streams not navigable, and sites for reservoirs, necessary for collecting and storing water.

5. Roads, tunnels, ditches, flumes, pipes, and dumping places for working mines, mills, or smelters for the reduction of ores; also outlets, natural or otherwise, for the flow, deposit, or conduct of tailings or refuse matter from mines, mills and smelters for the reduction of ores, also an occupancy in common by the owners or the possessors of different mines of any place for the flow, deposit, or conduct of tailings or refuse matter from their several mines, mills, or smelters for reduction of ores, and sites for reservoirs necessary for collecting and storing water.

6. Private roads leading from highways to residences or farms.

7. Telephone or electric light lines.

8. Telegraph lines.

9. Sewerage of any city, county, or town, or any subdivision thereof, whether incorporated or unincorporated, or of any settlement consisting of not less than ten (10) families, or of any public buildings belonging to the state, or to any college or university.

HeinOnline -- 1973 vol. I 543 1973

10. Tramway lines.

11. Electric power lines.

12. Logging railways.

13. Temporary logging roads and banking grounds for the transportation of logs and timber products to public streams, lakes, mills, railroads, or highways, for such time as the court or judge may determine; provided, the grounds of state institutions be excepted.

14. Underground reservoirs suitable for storage of natural gas.

15. To mine and extract ores, metals or minerals owned by the plaintiff located beneath or upon the surface of property where the title to said surface vests in others; *provided, however, the use of the surface for strip mining or open pit mining of coal (i.e., any mining method or process in which the strata or overburden is removed or displaced in order to extract the coal) is not a public use and eminent domain may not be exercised for this purpose."*

Section 2. There is a new section to be numbered 93-9902.1 which reads as follows:

93-9902.1. For the following reasons the state's power of eminent domain may not be exercised to mine and extract coal owned by the plaintiff located beneath the surface of property where the title to the surface is vested in others:

(1) Because of the large reserves of and the renewed interest in coal in eastern Montana, coal development is potentially more destructive to land and watercourses and underground aquifers and potentially more extensive geographically than the forseeable development of other ores, metals, or minerals, and affecting large areas of land and large numbers of people;

(2) That in many areas of Montana set forth in (a) hereinabove, the title to the surface is vested in an owner other than the mineral owner, and that the surface owner is putting that surface to a productive use, and it is the public policy of the state to encourage and foster such productive use by such owner, and that to permit the mineral owner to condemn the surface owner is to deprive the surface owner of the right to use his property in a productive manner as he determines, and is also contrary to public policy as set forth in paragraph four (4) herein below;

(3) The magnitude of the potential coal development in east-

HeinOnline -- 1973 vol. I 544 1973

ern Montana will subject landowners to undue harassment by excessive use of eminent domain;

(4) That it is the public policy of the state to encourage and foster diversity of land ownership and that the surface mining of coal and control of large areas of land by the surface coal mining industry would not foster public policy and further the public interest.

CHAPTER NO. 312

An Act to Amend Section 50-704, R.C.M. 1947, to Permit Assessment Work Performed at One (1) Point within a Group of Contiguous Claims to Apply to All Contiguous Claims.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 50-704, R.C.M. 1947, is amended to read as follows:

"50-704. **Recording of affidavit of performance of annual work.** The owner of a lode or placer claim who performs or causes to be performed the annual work, or makes the improvements required by the laws of the United States, as permitted and defined by laws of the United States, in order to prevent the forfeiture of the claim, must, within ninety (90) days after the expiration of the federal annual assessment work period, file in the office of the county clerk of the county in which such claim or claims is situated an affidavit of his own, or an affidavit of the person who performed such work or made the improvements, showing:

1. The name of the mining claim or claims;

2. The location of the claim or claims by sections, township, and range (by projected survey lines if located in unsurveyed country);

3. The book and page numbers wherein the original or latest amended relocation for each claim is recorded;

4. The number of days' work done, and the character and value of the improvements placed thereon, or the verified report required by United States mining law if geological, geophysical, or geochemical work or labor is being relied upon;

5. The dates between which such work or improvements were effected;

HeinOnline -- 1973 vol. I 545 1973

6. At whose instance the work was done or the improvements made;

7. The actual amount paid for work and improvements, and by whom paid when the same was not done by the owner.

Annual assessment work may be performed or cause to be performed at one (1) or more points within a group of contiguous claims and may be utilized to satisfy annual assessment work requirements upon the group of contiguous claims. If annual assessment work is performed or caused to be performed at one (1) or more points within a group of contiguous claims, the affidavit of performance of assessment work must be filed for the group of claims. The affidavit, in addition to requirements established by this section for affidavits of performance of assessment work, must contain a description and location of the work done upon the group at a point or points within the group, the specific names of all the claims in the group for whose benefit the work was performed, and the total cost of the work performed.

If group work is claimed for a group of claims crossing county lines, the affidavit required by this section shall be filed for recording within the required time in each of the counties in which such claims are located.

An affidavit of performance of annual assessment work must be verified, before some officer authorized to administer oaths, by the locator, or one of the locators if there be more than one, or by authorized agent. In the case of a corporation, the verification may be made by any officer thereof, or by an authorized agent. When the verification is made by an agent, the fact of the agency shall be stated in the affidavit. Such affidavits, or a certified copy thereof, are prima facie evidence of the facts therein stated. The failure to file such affidavits within the period allowed therefor shall be prima facie evidence that such labor has not been performed and that the owner of the claim or claims has abandoned and surrendered same."

Approved: March 15, 1973.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 60-145, R.C.M. 1947, is amended to read as follows:

"60-145. **Privilege and license tax, quarterly statements, penalties—drilling permit fees—oil and gas conservation moneys.** A. For the purpose of providing funds for defraying the expenses of the operation and enforcement of this act, and expenses of said oil and gas conservation commission, the operators and producers of oil and gas shall be required to pay, and they will pay, an assessment not to exceed the amounts set forth in the following schedule on each and every barrel of crude petroleum originally produced, saved and marketed or stored within the state of Montana, or exported from the of Montana, and on each and every ten thousand (10,000) cubic feet of natural gas produced, saved and marketed or stored within the state of Montana, or exported therefrom, to wit:

(1) On leases on which wells are producing an average of twenty-five (25) barrels of crude petroleum per day, or less, an assessment not to exceed *three-eights of one cent (3/8¢)* per barrel;

(2) On leases on which wells are producing an average of more than twenty-five (25) barrels of crude petroleum per day, an assessment not to exceed *three-fourths of one cent (¾¢)* per barrel;

(3) And, on wells producing, saving and marketing, storing, or exporting, natural gas, said operators and producers shall pay an assessment not to exceed *two and one-half (2½)* mills per ten thousand (10,000) cubic feet of natural gas *where said gas is marketed for less than fifteen cents (15¢) per thousand (1,000) cubic feet and an assessment not to exceed five (5) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for fifteen cents (15¢) or more per thousand (1,000) cubic feet.* Such payments shall be made during the time the oil and gas conservation commission is in existence. The commission shall by order, without prior notice and/or hearing, fix the amount of such assessments in the first instance and may, from time to time, without prior notice and/or hearing, reduce or increase the amount thereof as, in its judgment, the expenses chargeable against the oil and gas conservation fund may require; provided, however, that in no event

HeinOnline -- 1973 vol. I 548 1973

shall the assessments fixed by the commission exceed the said limits hereinabove prescribed. The amounts of such assessments to be fixed by the commission in the first instance and from time to time as herein provided, shall be a percentage factor (not to exceed one hundred per cent (100%)) of the rates set forth in subparagraphs (1), (2) and (3) above, and the same percentage factor shall be used and applied by the commission in fixing the amount of the assessment on each barrel of crude production and each ten thousand (10,000) cubic feet of natural gas mentioned in said subparagraphs (1), (2) and (3) above. The producers of said crude petroleum and natural gas shall pay such assessments on each and every barrel of crude petroleum and each ten thousand (10,000) cubic feet of natural gas produced for themselves, as well as for others, including royalty holders, and said producers shall be reimbursed for such payments made on crude oil and natural gas produced for others in the same manner as they are reimbursed for net proceeds tax paid on crude petroleum or natural gas produced for others as provided for in section 84-6208.

For the purposes of this section, a "lease" shall mean that particularly described tract of land contained in a contract in writing, under seal, whereby a person having a legal estate in the land so described conveys a portion of his interest to another, in consideration of a certain rental or other recompense or consideration. Further, for the purposes of this section, leases owned or operated by one lessee which in whole or in part cover or affect an underground reservoir containing a common accumulation of crude petroleum oil or natural gas, or both, or which are encompassed within or affected by one particular unit agreement shall be considered as one lease relative to payments to be made under this section.

In addition to the above-mentioned privilege and license tax, any person, before commencing the drilling of any oil or gas well *or stratigraphic test well or core hole,* shall secure from the commission a drilling permit and shall pay to the commission therefor the following amounts: for each well whose estimated depth is thirty-five hundred (3,500) feet or less, twenty-five dollars ($25); from thirty-five hundred and one (3,501) feet to seven thousand (7,000) feet, seventy-five dollars ($75); seven thousand (7,000) feet and deeper, one hundred fifty dollars ($150.00).

B. Each producer of crude petroleum in the state of Montana shall, not later than the last day of each of the calendar months of January, April, July and October, of each and every calendar year, render a true statement to the state treasurer of the state of Montana, and a duplicate thereof to the commission, duly signed and sworn to, of all crude petroleum produced by him in this state during the pre-

HeinOnline -- 1973 vol. I 549 1973

ceding three (3) calendar months, and containing such other information as the commission may require, and shall accompany such statement with the payment to the state treasurer of the assessment provided for in subsection A. of this section, above, for the period covered by such statement. Each producer of natural gas in the state of Montana shall render like statements to the state treasurer of all natural gas produced by him in this state, and shall make payment of the assessment provided for in said subsection A. of this section, above, at such times and for such periods as may be prescribed by regulation of the commission. Any producer carrying on business at more than one (1) place or location in this state may include all such places of business in one (1) statement.

C. Any such assessment not paid within the time herein specified shall be delinquent, and a penalty of twenty-five per cent (25%) thereof shall be added thereto and the whole thereof shall bear interest at the rate of one per cent (1%) per month from the date of delinquency until paid. Upon request of the commission it shall be the duty of the attorney general to commence and prosecute to final determination in any court of competent jurisdiction an action at law to collect the same.

D. All money collected under the provisions of this act shall be deposited in the earmarked reveune fund by the state treasurer of the state of Montana, and shall be used for the purpose of paying all expenses of said commission and for no other purpose; all such moneys shall be used by said commission subject to the approval of the controller and biennial appropriations by the legislative assembly. Upon the termination of said commission any such money remaining shall be paid over to the general fund of the state. All accounts and expenditures of said commission shall be certified by the commission, approved as provided by law, and paid by the state treasurer.

E. The commission may appoint a secretary and employ such other persons as experts, assistants, clerks, and stenographers, as may be deemed necessary to perform the duties that may be required of it, and fix their compensation; provided, however, that the total expenditures of such commission shall not exceed in the aggregate during any fiscal year, the amount actually collected under the provisions of subsection A. of this section, above, plus any amount appropriated for that purpose. The members of the commission shall be allowed their several expenses incurred in the discharge of their duties, as is elsewhere provided in this act."

CHAPTER NO. 322

An Act Authorizing the Department of Social and Rehabilitation Services to Purchase Vocational Rehabilitation Services for Handicapped Persons; Authorizing the Department to Promulgate Rules and Regulations Under This act; and Providing for the Expenditure of Funds for this Purpose.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. The purpose of this act is to encourage the development, improvement and expansion of sheltered employment and supervised work programs for mentally retarded, severely handicapped and disadvantaged individuals to enable them to become contributing and self-supporting members of society as an alternative to dependency.

HeinOnline -- 1973 vol. I 561 1973

The condition of the mentally retarded, severely handicapped and disadvantaged is such that after laborious training in the schools and otherwise they reach the point in their lives where they can and should, under proper and continued guidance, engage in sheltered employment or supervised work to help them become contributing members of society instead of being dependent. For such persons, retention in sheltered employment or supervised work may constitute satisfactory placement. Such training and placement is often a suitable alternative to institutionalization or idleness and its consequences. By keeping these individuals within their communities and in touch with their families, a worthwhile dimension is added to their lives and they are thus spared the anxieties naturally attached to separation. All of these factors have also been shown to reflect tangible benefits upon the mentally retarded, severely handicapped or disadvantaged person by improving his overall well-being.

Section 2. (1) "Handicapped person" means any individual:

(a) who has a physical or mental disability, which constitutes a substantial handicap to employment, of such a nature that vocational rehabilitation services may reasonably be expected to render him fit to engage in a gainful occupation consistent with his capacities and abilities; or

(b) who, because of lack of social competence or mobility, experience, skills, training or other factors, is in need of vocational rehabilitation services in order to become fit to engage in a gainful occupation or to attain or maintain a maximum degree of self-support or self-care; or

(c) for whom vocational rehabilitation services are necessary to determine rehabilitation potential.

(2) "Physical or mental disability" means a physical or mental condition which materially limits, contributes to limiting or, if not corrected, will probably result in limiting an individual's activities or functioning. The term includes behavioral disorders characterized by deviant social behavior or impaired ability to carry out normal relationships with family and community which may result from vocational, educational, cultural, social, environmental or other factors.

(3) "Vocational rehabilitation services" means goods or services provided handicapped persons to enable such persons to be fit for gainful occupation or to attain or maintain a maximum degree of self-support or self-care and includes every type of goods and services for which federal funds are available for vocational rehabilitation purposes, including, but not limited to,

HeinOnline -- 1973 vol. I 562 1973

the establishment, construction, development, operation and maintenance of workshops and rehabilitation facilities.

(4) "Self-care" means a reasonable degree of restoration from dependency upon others for personal needs and care and includes but is not limited to ability to live in own home, rather than requiring nursing home care and care for self rather than requiring attendant care.

(5) "Department" means the department of social and rehabilitation services.

Section 3. (1) The department may purchase, from any source, by contract, vocational rehabilitation services for handicapped persons, payments for such services to be made subject to procedures and fiscal controls approved by the department of administration. The performance of and payment for such services shall be subject to post audit review by the state auditor.

(2) Notwithstanding any other provision of this act, when the department determines that a mentally retarded, severely handicapped or disadvantaged person can reasonably be expected to benefit from, or in his best interests reasonably requires extended sheltered employment or supervised work furnished by an approved nonprofit organization, the department is authorized to contract with such organization for the furnishing of such sheltered employment or supervised work to such mentally retarded, severely handicapped or disadvantaged person. The department is authorized to expend for or toward the cost of providing such sheltered employment or supervised work a sum or sums not to exceed one thousand five hundred dollars ($1,500) per annum for each such mentally retarded, severely handicapped or disadvantaged person in order to maintain him as a contributing and self-supporting member of society as an alternative to dependency; provided, that the department is authorized to extend in excess of one thousand five hundred dollars ($1,500) per annum for each such mentally retarded, severely handicapped or disadvantaged person when federal or other funding becomes available to the state agency for such purpose and such additional expenditures may continue as long as the additional federal or other funding is or becomes available.

(3) The determination of eligibility for such service shall be made for each individual by the department.

(4) The department shall maintain a register of nonprofit organizations which it has inspected and certified as meeting required standards and as qualifying to serve the needs of such mentally retarded, severely handicapped or disadvantaged per-

HeinOnline -- 1973 vol. I 563 1973

sons. Eligibility of organizations to receive the funds specified by this act shall be based upon standards and criteria promulgated by the department.

(5) The department is authorized to promulgate such rules and regulations as it may deem necessary or proper to carry out the provisions of this section.

Section 4. Federal funds as may be available are appropriated to the department for use in administering the provisions of this act.

Approved: March 15, 1973.

(3) Time during which an employee of a school district is absent from service during official vacation shall be counted as service in determining eligibility for membership under this act.

Section 6. There is a new section to be numbered 68-1602, R.C.M. 1947, which reads as follows:

68-1602. The following persons shall not become members of the retirement system:

(1) elective officers who have not filed with the board of administration written requests to become members; provided that any person so excluded from membership may later become a member by otherwise becoming an employee or by written request after a subsequent election to office; and provided further that if he shall affirmatively exercise the option, the contributions of the employer, because of his membership, shall be the same as they would have been had he not been so excluded;

(2) inmates of state institutions who are allowed compensation for such service as they are able to perform;

(3) persons in state institutions principally for the purpose of training, but who receive compensation;

(4) independent contractors unless written contract specifies the creation of an employer-employee relationship for purposes of retirement coverage under the Public Employees' Retirement System Act;

(6) employees in service on July 1, 1945, or prior thereto who filed with the board of administration an election not to become members; provided, any person so excluded from membership by his own election may become a member by meeting the requirements of the balance of this subsection. Such a person must file an election to become a member with the board of administration no later than July 1, 1975; provided, that any such person who is not an employee on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming an employee. In either event, such person must thereupon pay to the retirement system the amount which he and his employer would have contributed had he not been so excluded plus interest which

HeinOnline -- 1973 vol. I 568 1973

would have accumulated thereon. All benefits payable thereafter to such person shall be the same as if such person had never filed an election not to be a member;

(7) persons directly appointed by the governor, who do not file with the board of administration an election in writing to become members;

(8) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government or political subdivision thereof and who are receiving credit in such other system for service, it being the purpose of this section to prevent a person from receiving credit for the same service in two (2) retirement systems supported wholly or in part by public funds, and no person shall receive such credit under any circumstances; any member of the retirement system who, because of his employment by the state, shall be required to become a member of any such other systems, shall be considered solely for the purposes of making normal contributions as permanently separated from service; the accumulated contributions of any member who shall have died after becoming a member of such other system and before receiving said accumulated contributions, shall be paid to the beneficiary nominated by him to receive any death benefit payable under section 68-2301; employer contributions on the basis of compensation earned by members after the effective date of termination of membership herein because of the membership in such other system, shall be repaid to the employer; for the purpose of this section, persons receiving pensions, retirement allowances or other payments, from any source, on account of employment other than as an employee as defined in this act, shall not be considered, because of such receipt, members of any other retirement or pension system;

(9) court commissioners or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(10) persons who become employees after they have reached their sixtieth birthday and have no creditable service in this system, and who do not file with the board of administration an election to become members;

HeinOnline -- 1973 vol. I 569 1973

68-1603. If any part of a member's accumulated normal contributions are refunded pursuant to section 68-1905, he ceases to be a member and all membership service to his credit is canceled. Any person who is retired ceases to be a member.

Section 8. There is a new section to be numbered 68-1604, R.C.M. 1947, which reads as follows:

68-1604. Except as provided in section 68-1605 and 68-1606, time during which a member is absent from compensated employment with an employer shall not be allowed in computing service.

Section 9. There is a new section to be numbered 68-1605, R.C.M. 1947, which reads as follows:

68-1605. Any period of absence from compensated employment with an employer occurring either during a war involving the United States as a belligerent or in any other national emergency, and for ninety (90) days thereafter for one of the following reasons shall be considered as service, for the purpose of qualification for retirement and death benefits, but not for calculation of retirement benefits:

(1) by reason of having been ordered on duty with the armed forces of the United States;

(2) by reason of voluntary service in said forces or on ships operated by or for the United States government; or

(3) by reason of direct assignment to the department of war or defense for duties pursuant to the national defense efforts where a leave of absence has been granted by the employer.

Any member so absent shall have the right to contribute to the retirement system, either during his period of absence or upon his return to service, at times and in the manner fixed by the board of administration, amounts equal to the contribution which would have been made by him to the system on the basis of his compensation at the commencement of his absence. If he does so contribute he shall receive credit for service for such time in the same manner as if he had not been absent from service. Whenever a member elects to continue his contributions the employer shall thereupon contribute an amount equal to what its employer contributions would have been had the member not been absent from service.

Any member so absent shall lose the right to contribute under this section if all of his accumulated normal contributions are refunded pursuant to section 68-1905.

Section 10. There is a new section to be numbered 68-1605.1, R.C.M. 1947, which reads as follows:

HeinOnline -- 1973 vol. I 570 1973

68-1605.1. A member with ten (10) years or more of state service credited under this act may at any time prior to retirement make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits up to a maximum of five (5) years if he is not otherwise eligible to receive credit for this same service pursuant to section 68-1605. To qualify this service he must contribute to the retirement fund the amount determined by the board to be due based on his compensation and normal contribution rate as of his eleventh year and as many succeeding years as are required to qualify this service with interest from the date he becomes eligible for this benefit to the date he so contributes. He may not qualify more of this service than he has state service in excess of ten (10) years.

Section 11. There is a new section to be numbered 68-1606, R.C.M. 1947, which reads as follows:

68-1606. Time during which a member is absent from service by reason of injury or illness determined within one (1) year after the end of such absence as arising out of and in the course of his employment shall be considered as spent in service for the purpose of qualification for retirement benefits or survivorship allowances, but not for the calculation of such benefits.

Section 12. There is a new section to be numbered 68-1607, R.C.M. 1947, which reads as follows:

68-1607. Subject to the provisions of this section, any person who has service with a contracting employer which is not creditable service may convert all or a portion of such service to membership service by filing written notice thereof with the board of administration no later than July 1, 1975; provided that any such person who is not a member on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming a member. In either event, such person must pay to the retirement system the sum of the amount which he and his employer would have contributed during the period of service so converted if the employer had then been a contracting employer and the interest which would have accumulated thereon to the time of such payment; provided, that the employer may pay the employer's portion including accrued interest. Payment may be made in one sum at the time of such filing or on an installment basis thereafter, except that failure to make installment payments of at least ten percent (10%) of compensation in any payroll period thereafter shall forfeit such person's right to make any further installments.

Section 13. There is a new section to be numbered 68-1608, R.C.M. 1947, which reads as follows:

HeinOnline -- 1973 vol. I 571 1973

68-1608. Credit for any prior service not previously granted shall be granted to a member upon his filing written notice thereof with the board of administration no later than July 1, 1975; provided, that any such person who is not a member on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming a member and further provided he otherwise has not less than ten (10) years of creditable service of which not less than three (3) years have been as a contributing member of the retirement system. Proper certification of such service must be furnished.

Section 14. There is a new section to be numbered 68-1701, R.C.M. 1947, which reads as follows:

68-1701. Any municipal corporation, county or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of said contracting employer, subject to the provisions of this act. The contract may include any provisions which are consistent with this act and necessary in the administration of the retirement system as it affects the contracting employer and its employees. The approval and termination of the contract shall be subject to the following provisions, in addition to the other provisions of this act.

(1) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract shall not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at such election shall include the summary of the retirement system as set forth in the resolution. The election shall be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract shall be by ordinance adopted by the affirmative vote of two-thirds (⅔) of the members of the legislative body, not less than twenty (20) days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting thereon.

(2) The contract shall specify that all employees of the contracting employer or such groups of employees as agreed to between the board and the contracting employer shall become members. The groups of employees to be included shall be by departments, duties, age or other similar classifications and not by individual employees. The board shall have the right to disapprove any classification into groups if in its opinion said classification

HeinOnline -- 1973 vol. I 572 1973

affects adversely the interest of the retirement system. Membership in the retirement system shall be compulsory for all employees included under the contract.

(3) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

Section 15. There is a new section to be numbered 68-1702, R.C.M. 1947, which reads as follows:

68-1702. Any employee who has continuously been, for a period of at least two (2) years, an employee of a municipal corporation, county or other public agency of this state which is not a contracting employer may advise the legislative body of his employer, in writing, that he wishes to participate in the retirement system. Within thirty (30) days after receipt of such written request, the legislative body shall thereupon adopt the resolution of intention and take such action as provided for in section 68-1701.

Section 16. There is a new section to be numbered 68-1703, R.C.M. 1947, which reads as follows:

68-1703. Should the legislative body of any city, county or public agency having an existing retirement, pension or annuity fund or system, hereafter referred to as the local system, desire to make the members of the local system members of the public employees' retirement system, it may enter into a contract for that purpose with the board of administration in the manner provided in section 68-1701 provided, however, that the employees voting as provided in subsection (1) of section 68-1701 shall be limited to active members of the local system and approval shall require an affirmative vote of two-thirds (⅔) of such employees.

All active members of the local system shall become members of the retirement system and shall no longer be members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract shall be continued and paid at their existing rates by the public employees' retirement system. The liability for such pensions shall be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system shall be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of said securities shall be determined by the board of administration.

The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion,

HeinOnline -- 1973 vol. I 573 1973

if any, of the funds of the system that represents the accumulated contributions of the active members, and the relative shares of the members as of that date. Such shares shall be charged to the employer and credited to the respective individual accounts of such members in the public employees' retirement system and administered as if said contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section will be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section shall be payable by the contracting employer, with interest, on a monthly basis as specified in the contract.

Section 17. There is a new section to be numbered 68-1704, R.C.M. 1947, which reads as follows:

68-1704. The rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied by the contracting employer. Any person who is a member or beneficiary of the retirement system on account of the participation of the contracting employer shall have the right to maintain the appropriate action or proceeding to require performance of the duty imposed on the legislative body by this section.

Those members of the board who are not members of the retirement system shall be entitled to receive in addition to actual and necessary expenses compensation at the rate of twenty-five dollars ($25) per day. All expenses of the administration of this act in excess of the amounts provided by the membership fees contributed pursuant to section 68-1904 shall be a charge on the appropriation made from the general fund of the state.

Section 20. There is a new section to be numbered 68-1803, R.C.M. 1947, which reads as follows:

68-1803. (1) The board of administration may establish such rules and regulations as it deems proper for the administration and operation of the retirement system and enforcement of this act, subject to its limitation. The board shall determine who are employees within the meaning of this act. The board shall be the sole authority under this act as to the conditions under which persons may become members and receive benefits under the retirement system. The board shall determine and may modify allowances for service and disability under this act. The board shall establish those uniform rules and regulations as are necessary to determine credit for fractional years of service. The board shall maintain such records and accounts it determines necessary for the administration of this act. Upon the basis of the findings of the actuary pursuant to section 68-1804, the board shall adopt those actuarial tables and those rates of regular interest it determines appropriate to comply with the provisions of this act.

(2) As soon as practical after the close of each fiscal year, the department of administration shall file with the governor a report of its work for that fiscal year. The report shall include a statement as to the accumulated cash and securities in the retirement fund as certified by the state treasurer and the board of investment. The report shall also include the most recent unpublished report of the actuary of the actuarial valuation of the assets and liabilities of the system.

Biennially he shall make an actuarial investigation into the suitability of the actuarial tables used by the system and an actuarial valuation of the assets and liabilities of the retirement system. (5) Interest earned on any cash deposit in a bank by the state treasurer and income on other assets constituting a part of the fund shall be paid into the fund as received. Income, of whatever nature, earned on the retirement fund during any fiscal year, in excess of the interest credited to contributions during that year shall be retained in the fund as a reserve against deficiencies in interest earned in other years, losses under investments, and other contingencies.

(6) Except as herein provided, no member and no employee of the department of administration shall have any interest direct, or indirect, in the making of any investment, or in the gains or profits accruing therefrom. And no member or employee of the department directly or indirectly, for himself or as an agent or partner of others, may borrow any of its funds or deposits, nor shall any member or employee in any manner use the same except to make such current and necessary payments as are authorized by the department nor shall any member or employee of the department become an endorser or surety as to or in any manner an obligor for investments for the retirement system.

If he has less than ten (10) years of service and he does not reenter service for a period of five (5) years after such discontinuance, he shall automatically be paid any portion of his total accumulated contributions not previously withdrawn. Upon qualification for any other benefit under this act, a member having any accumulated normal contributions standing to his credit in the retirement fund shall receive

HeinOnline -- 1973 vol. I 577 1973

the benefit based upon the creditable service during which such contributions were made. The board may, in its discretion, withhold for not more than one (1) year after a member last rendered service, all or part of his accumulated normal contributions if after a previous discontinuance of service he withdrew all or part of his normal contributions and failed to redeposit such withdrawn amount in the retirement fund as provided in section 68-1906.

If he makes this redeposit, his membership shall be the same as if unbroken by such last termination. Regardless of whether this redeposit is made, the documents held by the retirement system as executed by the member prior to termination of membership shall be held by the system for the same purposes as prior to termination, and beneficiaries nominated in the documents shall continue unchanged until changed as provided herein.

68-2103. The annual amount of retirement allowance payable to a member eligible for disability retirement for duty-related reasons is fifty percent (50%) of his final compensation; provided, however, that the annual amount of retirement allowance shall be twenty-five percent (25%) of final compensation for any period during which the member has been awarded compensation by the workmen's compensation division, whether or not such compensation is received in periodic payments or in a lump sum; provided further, that the annual amount of retirement allowance shall revert to fifty percent (50%) of final compensation at the end of such period.

Section 37. There is a new section to be numbered 68-2104, R.C.M. 1947, which reads as follows:

68-2104. The annual amount of retirement allowance payable to a member eligible for disability retirement for other than duty-related reasons is the sum of (1), (2) and (3) as follows:

(1) an annuity which is the actuarial equivalent of his accumulated additional contributions on the day his retirement allowance commences;

HeinOnline -- 1973 vol. I 581 1973

(2) an annuity which is the actuarial equivalent of his accumulated normal contributions with normal interest to the day his retirement allowance commences;

(3) if, in the opinion of the board, the disability is not due to intemperance, willful misconduct or violation of law on the part of the member, a pension which is the lesser of (a) or (b) as follows:

(a) a pension which, together with the annuity provided under (2), shall make the retirement allowance equal to ninety percent (90%) of one sixty-fifth (1/65) of his final compensation multiplied by his years of creditable service;

(b) a pension equal to twenty-five percent (25%) of his final compensation.

Section 38. There is a new section to be numbered 68-2201, R.C.M. 1947, which reads as follows:

68-2201. (1) The board may, at its pleasure, require the recipient of a retirement allowance because of disability to undergo medical examination. The examination shall be made by a physician or surgeon appointed by the board, at the place of residence of the recipient or another place mutually agreed upon. Upon the basis of the examination the board shall determine whether said recipient is unable, by reason of physical or mental incapacity, to perform either the duties of the position held by him when he was retired or the duties proposed to be assigned to him. If the board determines that said recipient is not so incapacitated or if the recipient refuses to submit to medical examination, his retirement allowance shall be canceled.

(2) Any person whose retirement allowance is so canceled shall be reinstated to the position held by him immediately before his retirement or to a position in the same classification with duties within his capacity, if he had been an employee of the state or of the university. If he had been an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the retirement allowance has been canceled and that the former employee is eligible for reinstatement to duty. The fact that he was retired for disability shall not prejudice any right to reinstatement to duty which he may have or claim to have.

(3) If any person whose retirement allowance is so canceled is not reemployed in a position subject to the retirement system, his service shall be deemed to be discontinued coincident with his retirement allowance for the purposes of section 68-1905.

HeinOnline -- 1973 vol. I 582 1973

Section 39. There is a new section to be numbered 68-2202, R.C.M. 1947, which reads as follows:

68-2202. Should the recipient of a retirement allowance because of disability engage in a gainful occupation during any month other than as an employee as defined in section 68-1503, the amount of his pension for that month shall be reduced to an amount which, when added to the compensation earned by him in that occupation, shall not exceed the amount of his monthly compensation at the time of his retirement.

Section 40. There is a new section to be numbered 68-2203, R.C.M. 1947, which reads as follows:

68-2203. (1) The retirement allowance of a member who so elects shall be converted, in lieu of all other benefits under this act, into an optional retirement allowance which is the actuarial equivalent of such other allowance. The optional retirement allowance is a reduced amount payable during the member's lifetime with a subsequent benefit as follows:

(a) Option 1—a death benefit to the member's beneficiary equal to the excess, if any, of the member's accumulated contributions with regular interest to the day his retirement allowance commenced over the total of his retirement allowance payments.

(b) Option 2—a continuation of the reduced retirement allowance during the lifetime of his named contingent annuitant.

(c) Option 3—a continuation of one-half (½) of the reduced retirement allowance during the lifetime of his named contingent annuitant.

(d) Option 4—an actuarial equivalent benefit based on the life of a single designated beneficiary.

(e) Option 5—such other actuarially equivalent benefit as shall be approved by the board.

(2) Election of any optional retirement allowance shall be by written application filed prior to the first payment of the regular retirement allowance. The contingent annuitant named by the member must have an insurable interest in the life of the member.

(3) If either the member or his contingent annuitant should die before the member has received the first payment under option 2 or 3, the election of such option shall automatically be canceled.

(4) If a member dies after retirement and within thirty (30) days from the date his election or changed election of an optional retirement allowance is received by the board, then said

HeinOnline -- 1973 vol. I 583 1973

election is void and of no effect, and the death shall be considered as that of a member before retirement.

Such recalculated benefit shall be based on his creditable service accumulated at the time of his previous retirement plus any creditable service accumulated subsequent to his reemployment. Except as otherwise expressly provided by law, he shall receive the benefit of provisions enacted subsequent to his initial retirement only if he accrues at least two (2) years of creditable service subsequent to his reinstatement and then only with respect to such creditable service.

Section 43. There is a new section to be numbered 68-2302, R.C.M. 1947, which reads as follows:

68-2302. The amount of death benefit is the sum of (1) and (2), as follows:

(1) the member's accumulated contributions, together with regular interest on the accumulated normal contributions to the date of the member's death;

(2) an amount equal to one-twelfth (1/12) of the compensation received by the member during the last twelve (12) months

HeinOnline -- 1973 vol. I 584 1973

of such compensation multiplied by the smaller of six (6) or the number of years of his creditable service; provided, however, that this portion of the death benefit is not payable if the board receives a certification from the workmen's compensation division of the state of Montana that it is paying compensation because the member's death resulted from injury or disease arising out of or in the course of employment.

Section 44. There is a new section to be numbered 68-2303, R.C.M. 1947, which reads as follows:

68-2303. A member or his beneficiary after his death may elect to have the death benefit paid in an actuarially equivalent form subject to such rules and regulations as the board may adopt. Election of an optional death benefit shall be by written application.

Section 47. There is a new section to be numbered 68-2401, R.C.M. 1947, which reads as follows:

68-2401. (1) The beneficiary of a member shall be such person as the member shall so designate in the appropriate written application. A member may revoke such designation and name a dif-

If the estate would not be probated but for the amount due from the retirement system, all of the amount due, including retirement allowances accrued but not received prior to death, shall be paid directly without probate to the surviving next of kin of the deceased, or the guardians of said survivor's estate, share and share alike, payment to be made in the same order in which the following groups are listed:

(a) husband or wife, or

(b) children, or

(c) father and mother, or

(d) grandchildren, or

(e) brothers and sisters, or

(f) nieces and nephews.

(2) No payment shall be made to persons included in any of said groups if at the date of payment there be living persons in any of the groups preceding it, as listed. Payment shall be made upon receipt from said persons of an affidavit, upon a form supplied by the retirement board, that there are no living individuals in the groups preceding it and that the estate of the deceased will not be probated. The payment shall be in full and complete discharge and acquittance of the board and system on account of said death.

(3) If a member's beneficiary cannot be found within ninety (90) days of the member's death or if the estate of the member is his beneficiary, the board in its discretion may pay all or a portion of the death benefit to the undertaker who conducted the funeral of the member or to any person or organization who paid the undertaker; provided, however, the amount so paid by the board shall not exceed the funeral expenses or the portion of such expenses paid by the person or organization respectively, all as evidenced by the sworn itemized statement of the undertaker and by other documents the board may require. The payment shall be in full and complete discharge and acquittance of the board and system up to the amount so paid, anything in this act to the contrary notwithstanding.

of his estate, the benefit may be paid to the person entitled to the custody of a minor to hold for the minor upon execution and filing with the board of a written statement by such person that the total estate of the minor does not exceed one thousand dollars ($1,000) in value. The payment shall be in full and complete discharge and acquittance of the board and system on account of said benefit. The person shall account to the minor for the money when the minor reaches the age of majority.

Section 49. There is a new section to be numbered 68-2501, R.C.M. 1947, which reads as follows:

68-2501. A retirement allowance or survivorship allowance granted under the provisions of this act shall be payable in monthly installments, except that the board at its discretion may convert payments of less than twenty dollars ($20) per month to larger periodic payments which are the actuarial equivalent of such smaller payments, but which occur less frequently. If payments of at least twenty dollars ($20) per year are not so payable, the payment may be commuted into a single sum. A smaller pro rata amount may be paid for part of a month when the retirement allowance begins after the first day of the month or ends before the last day of the month.

(2) The actuary shall determine the current service contribution rate to be that level percentage of the present value of the future compensation of the average new member entering the system which equals the then present value of the excess of all prospective benefits in respect of such member over the member's own normal contributions.

(3) The actuary shall determine the minimum unfunded liability contribution rate to be that level percentage of the present value of the prospective compensation of all members for the forty (40) year period following the date of the determination which is equal to the unfunded liability on that date. The unfunded liability at any time is the excess of the present value of all future benefits payable in respect of all persons then entitled to benefits under the system over the sum of the retirement fund and the present values of the future current service contributions and normal contributions payable in respect of all such persons.

The state auditor shall thereupon draw a warrant upon the state treasurer for such contributions. The warrant shall be drawn to the credit of the retirement fund on the funds appropriated to that unit.

(2) Every state employer shall include in his budget and request for legislative appropriations an amount necessary to defray the state's part of the costs of this act for employees in their respective departments, and to the end that the legislature may make definite appropriation for the cost incurred by each employer whose employees are within the retirement system created by this act.

Adjustments to correct any other errors in payments to or by the board of administration may be made in the same manner.

(1) shall exercise general supervision, administration, and enforcement of this act and all rules and orders adopted under this act;

(2) shall examine and pass upon all plans and specifications submitted by the operator for the method of operation, backfilling, grading, highwayy reduction, topsoiling and for the reclamation of the area of land affected by his operation;

(3) shall order the suspension of any permit for failure to comply with this act or any rule adopted under this act;

(4) shall order the halting of any operation that is started without first having secured a permit as required by this act;

HeinOnline -- 1973 vol. I 595 1973

(5) shall make investigations and inspections necessary to insure compliance with this act;

(6) may encourage and conduct investigations, research, experiments and demonstrations, and collect and disseminate information relating to strip mining and reclamation of lands and waters affected by strip mining;

(7) may adopt rules with respect to the filing of reports, the issuance of permits and other matters of procedure and administration.

Section 6. (1) An operator may not engage in strip mining without having first obtained from the department a permit designating the area of land affected by the operation. The permit shall authorize the operator to engage in strip mining upon the area of land described in his application and designated in the permit for a period of one (1) year from the date of its issuance. Such permit shall be renewable from year to year thereafter upon application to the department at least thirty (30) but not more than sixty (60) days prior to the renewal date so long as the operator is in compliance with the requirements of this act, the rules hereunder, and the reclamation plan provided for in section 10 of this act, and agrees to comply with all applicable laws and rules in effect at the time of renewal. Such renewal shall further be subject to the denial provisions of sections 9 and 13 of this act.

(2) An operator desiring a permit shall file an application which shall contain a complete and detailed plan for the mining, reclamation, revegetation, and rehabilitation of the land and water to be affected by the operation. Such plan shall reflect thorough advance investigation and study by the operator and shall include all known or readily discoverable past and present uses of the land and water to be affected and the approximate periods of such use and shall state:

(a) the location and area of land to be affected by the operation, with a description of access to the area from the nearest public highways;

(b) the names and addresses of the owners of record of the surface of the area of land to be affected by the permit and the owners of record of all surface area within one-half (.5) mile of any part of the affected area;

(c) the names and addresses of the present owners of record of all subsurface minerals in the land to be affected;

(d) the source of the applicant's legal right to mine the mineral on the land affected by the permit;

HeinOnline -- 1973 vol. I 596 1973

(e) the permanent and temporary post office addresses of the applicant;

(f) whether the applicant or any person associated with the applicant holds or has held any other permits under this act, and an identification of those permits;

(g) whether the applicant is in compliance with subsection (2) of section 17 and whether every officer, partner, director, or any individual owning of record or beneficially (alone or with associates) if known, ten per cent (10%) or more of any class of stock of the applicant, is subject to any of the provisions of subsection (2) of section 17 and he shall so certify, and whether any of the foregoing parties or persons have ever had a strip mining license or permit issued by any other state or federal agency revoked, or have ever forfeited a strip mining bond or a security deposited in lieu of a bond and if so, a detailed explanation of the facts involved in each case must be attached;

(h) the names and addresses of any persons who are engaged in strip mining activities on behalf of the applicant;

(i) the annual rainfall and the direction and average velocity of the prevailing winds in the area where the applicant has requested a permit;

(j) the results of any test borings or core samplings which the applicant or his agent has conducted on the land to be affected, including the nature and the depth of the various strata or overburden and topsoil, the quantities and location of subsurface water and its quality, the thickness of any mineral seam, an analysis of the chemical properties of such minerals, including the acidity, sulphur content, and trace mineral elements of any coal seam, as well as the british thermal unit (B.T.U.) content of such seam, and an analysis of the overburden, including topsoil. If test borings or core samplings are submitted, each permit application shall contain two (2) copies each of two (2) sets of geologic cross-section accurately depicting the known geologic makeup beneath the surface of the affected land. Each set shall depict subsurface conditions at five hundred (500) foot intervals across the surface and shall run at a ninety (90) degree angle to the other set. Each cross-section shall depict the thickness and geological character of all known strata beginning with the top soil;

(k) the name and date of a daily newspaper of general circulation within the county in which the applicant has prominently published an announcement of his application for a strip

mining permit, and a detailed description of the area of land to be affected should a permit be granted;

(l) such other or further information as the department may require.

(3) The application for a permit shall be accompanied by two (2) copies of all maps meeting the requirements of the subsections below. The maps shall:

(a) identify the area to correspond with the application;

(b) show any adjacent deep mining and the boundaries of surface properties and names of owners of record of the affected area and within one thousand (1,000) feet of any part of the affected area;

(c) show the names and locations of all streams, creeks, or other bodies of water, roads, buildings, cemeteries, oil and gas wells, and utility lines on the area of land affected and within one thousand (1,000) feet of such area;

(d) show by appropriate markings the boundaries of the area of land affected, any cropline of the seam or deposit of mineral to be mined, and the total number of acres involved in the area of land affected;

(e) show the date on which the map was prepared and the north point;

(i) show the location of test boring holes;

(j) show the surface location lines of any geologic cross-sections which have been submitted;

(k) show a listing of plant varieties encountered in the area to be affected and their relative dominance in the area, together with an enumeration of tree varieties and the approximate number of each variety occurring per acre on the area to be affected, and the locations generally of the various kinds and varieties of plants, including but not limited to grasses, shrubs, legumes, forbs and trees;

HeinOnline -- 1973 vol. I 598 1973

(l) be certified as follows: "I, the undersigned, hereby certify that this map is correct, and shows to the best of my knowledge and belief all the information required by the strip mining laws of this state." The certification shall be signed and notarized. The department may reject a map as incomplete if its accuracy is not so attested;

(m) contain such other or further information as the department may require.

(4) In addition to the information and maps required above, each application for a permit shall be accompanied by detailed plans or proposals showing the method of operation, the manner, time or distance, and estimated cost for backfilling, grading work, highwall reduction, topsoiling, planting, revegetating, and a reclamation plan for the area affected by the operation, which proposals shall meet the requirements of this act and rules adopted under this act.

(5) An application fee of fifty dollars ($50) shall be paid before the permit required in this section shall be issued. The operator shall file with the department a bond payable to the state of Montana with surety satisfactory to the department in the penal sum to be determined by the board (on the recommendation of the commissioner) of not less than two hundred dollars ($200) nor more than twenty-five hundred dollars ($2,500) for each acre or fraction thereof of the area of land affected, with a minimum bond of two thousand dollars ($2,000), conditioned upon the faithful performance of the requirements set forth in this act and of the rules of the board. In determining the amount of the bond within the above limits, the board shall take into consideration the character and nature of the overburden, the future suitable use of the land involved and the cost of backfilling, grading, highwall reduction, topsoiling, and reclamation to be required; but in no event shall the bond be less than the total estimated cost to the state of completing the work described in the reclamation plan.

Section 7. The department may increase or reduce the area of land affected by an operation under a permit on application by an operator, but an increase may not extend the period for which an original permit was issued. An operator may, at any time within one (1) year from the date of issuance of the permit, apply to the department for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this act and shall pay an application fee of fifty dollars ($50) and shall file

HeinOnline -- 1973 vol. I 599 1973

with the department a supplemental bond in the amount to be determined under section 6 for each acre or fraction of an acre of the increase approved. If the department approves a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced, but in no case shall the bond be reduced below two thousand dollars ($2,000), except as provided in subsection (5) of section 6.

Section 8. (1) On and after the effective date of this act prospecting by any person on land not included in a valid strip mining permit shall be unlawful without possessing a valid prospecting permit issued by the department as provided in this section. No prospecting permit shall be issued until the operator submits an application, the application is examined, amended if necessary, and approved by the department, and adequate reclamation performance bond is posted, all of which prerequisites must be done in conformity with the requirements of this act.

(2) An application for a prospecting permit shall be made in writing, notarized, and submitted to the department in duplicate upon forms prepared and furnished by it. The application shall include among other things, a prospecting map and a prospecting reclamation plan of substantially the same character as required for a surface mining map and reclamation plan under this act. The department shall determine, by rules and regulations, the precise nature of such required prospecting map and reclamation plan. Any operator who intends to prospect by means of core drilling shall specify the location and number of holes to be drilled, methods to be used in sealing aquifers, and such other information as may be required by the department. The applicant must state what types of prospecting and excavating techniques will be employed on the affected land. The application shall also include any other or further information the department may require.

(3) The application shall be accompanied by a fee of one hundred dollars ($100). This fee shall be used as a credit toward the strip mining permit fee provided by this act if the area covered by the prospecting permit becomes covered by a valid surface mining permit obtained before or at the time the prospecting permit expires.

(4) Before the department gives final approval to the prospecting permit application, the applicant shall file with the department a reclamation and revegetation bond in a form and in an amount as determined in the same manner for strip mining reclamation and revegetation bonds under this act.

HeinOnline -- 1973 vol. I 600 1973

(5) In the event that the holder of a prospecting permit desires to strip mine the area covered by the prospecting permit, and has fulfilled all the requirements for a strip mining permit, the department may permit the postponement of the reclamation of the acreage prospected if that acreage is incorporated into the complete reclamation plan submitted with the application for a strip mining permit. Any land actually affected by prospecting or excavating under a prospecting permit and not covered by the strip mining reclamation plan shall be promptly reclaimed.

(6) The prospecting permit shall be valid for one (1) year, and shall be subject to renewal, suspension, and revocation in the same manner as strip mining permits under this act.

(7) The holder of the prospecting permit shall file with the department the same progress reports, maps, and revegetation progress reports, as are required of strip mining operators under this act.

Section 9. (1) An application for a prospecting or strip mining permit shall not be approved by the department if there is found on the basis of the information set forth in the application, an on-site inspection, and an evaluation of the operation by the department that the requirements of the act or rules will not be observed or that the proposed method of operation, backfilling, grading, highwall reduction, topsoiling, revegetation, or reclamation of the affected area cannot be carried out consistent with the purpose of this act.

(2) The department shall not approve the application for prospecting or strip mining permit where the area of land described in the application includes land having special, exceptional, critical, or unique characteristics, or that mining or prospecting on that area would adversely affect the use, enjoyment, or fundamental character of neighboring land having special, exceptional, critical, or unique characteristics. For the purposes of this act, land is defined as having such characteristics if it possesses special, exceptional, critical or unique:

(a) biological productivity, the loss of which would jeopardize certain species of wildlife or domestic stock; or

(b) ecological fragility, in the sense that the land, once adversely affected, could not return to its former ecological role in the reasonable foreseeable future; or

(c) ecological importance, in the sense that the particular land has such a strong influence on the total ecosystem of which it is a part that even temporary effects felt by it could precipi-

HeinOnline -- 1973 vol. I 601 1973

tate a system-wide reaction of unpredictable scope or dimensions; or

(d) scenic, historic, archeologic, topographic, geologic, ethnologic, scientific, cultural, or recreational significance. In applying this subsection, particular attention should be paid to the inadequate preservation previously accorded Plains Indian history and culture.

(3) If the department finds that the overburden on any part of the area of land described in the application for a prospecting or strip mining permit is such that experience in the state with a similar type of operation upon land with similar overburden shows that substantial deposition of sediment in streambeds, landslides, or water pollution cannot feasibly be prevented, the department shall delete that part of the land described in the application upon which the overburden exists.

(4) If the department finds that the operation will constitute a hazard to a dwelling house, public building, school, church, cemetery, commercial or institutional building, public road, stream, lake, or other public property, the department shall delete those areas from the prospecting or strip mining permit application before it can be approved.

Section 10. (1) As rapidly, completely, and effectively as the most modern technology and the most advanced state of the art will allow, each operator granted a permit under this act, shall reclaim and revegetate the land affected by his operation. Under the provisions of this act and rules adopted by the board, an operator shall prepare and carry out a method of operation, plan of grading, backfilling, highwall reduction, topsoiling and a reclamation plan for the area of land affected by his operation. In developing a method of operation, and plans of backfilling, grading, highwall reduction, topsoiling and reclamation, all measures shall be taken to eliminate damages to landowners and members of the public, their real and personal property, public roads, streams and all other public property from soil erosion, landslides, water pollution, and hazards dangerous to life and property. The reclamation plan shall set forth in detail the manner in which the applicant intends to comply with this section and sections 11, 12 and 13 of this act. The plan shall be submitted to the department and the department shall notify the applicant by registered mail within one hundred twenty (120) days after receipt of the plan and complete application if it is or is not acceptable. The department may extend the one hundred twenty (120) days an additional one hundred twenty (120) days upon notification of the operator in writing. If the plan is not acceptable, the de-

HeinOnline -- 1973 vol. I 602 1973

partment shall set forth the reasons why the plan is not acceptable and it may propose modifications, delete areas, or reject the entire plan. A land owner, operator, or any person aggrieved by the decision of the department may, by written notice, request a hearing by the board. The board shall notify the person by registered mail within twenty (20) days after the hearing of its decision. Every reclamation plan shall be subject to annual review and modification.

(2) In addition to the method of operation, grading, backfilling, highwall reduction, topsoiling and reclamation requirements of this act and rules adopted under this act, the operator, consistent with the directives of subsection (1) of this section shall:

(a) bury under adequate fill all toxic materials, shale, mineral, or any other material determined by the department to be acid producing, toxic, undesirable, or creating a hazard;

(b) seal off, as directed by rules, any breakthrough of water creating a hazard;

(c) impound, drain, or treat all runoff water so as to reduce soil ersoion, damage to grazing and agricultural lands, and pollution of surface and subsurface waters;

(d) remove or bury all metal, lumber, and other refuse resulting from the operation;

(e) use explosives in connection with the operation only in accordance with department regulations designed to minimize noise, surface damage to adjacent lands and water pollution. ensure public safety, and for other purposes.

(3) An operator may not throw, dump, pile or permit the dumping, piling, or throwing or otherwise placing any overburden, stones, rocks, mineral, earth, soil, dirt, debris, trees, wood, logs or any other materials or substances of any kind or nature beyond or outside of the area of land which is under permit and for which a bond has been posted under section 6, or place the materials described in this section in such a way that normal erosion or slides brought about by natural physical causes will permit the materials to go beyond or outside of the area of land which is under permit and for which a bond has been posted under section 6.

Section 11. (1) Area strip mining, a method of operation which does not produce a bench or fill bench, is required. All highwalls must be reduced and the steepest slope of the reduced highwall shall be no greater than twenty (20) degrees from the horizontal. Highwall reduction shall be commenced at or beyond

HeinOnline -- 1973 vol. I 603 1973

the top of the highwall and sloped to the graded spoil bank. Reduction, backfilling, and grading shall eliminate all highwalls and spoil peaks. The area of land affected shall be restored to the approximate original contour of the land. When directed by the department, the operator shall construct in the final grading, such diversion ditches, depressions, or terraces as will accumulate or control the water runoff. Additional restoration work may be required by the department according to rules adopted by the board.

(2) In addiiton to the backfilling and grading requirements, the operator's method of operation on steep slopes may be regulated and controlled according to rules adopted by the board. These rules may require any measure whatsoever to accomplish the purpose of this act.

(3) All available topsoil shall be removed in a separate layer, guarded from erosion and pollution, kept in such a condition that it can sustain vegetation of at least the quality and variety it sustained prior to removal, and returned as the top layer after the operation has been backfilled and graded; provided that the operator shall accord substantially the same treatment to any subsurface deposit of material that is capable, as determined by the department, of supporting surface vegetation virtually as well as the present topsoil.

(4) As determined by rules of the board, time limits shall be established requiring backfilling, grading, highwall reduction, topsoiling, planting, and revegetation to be kept current. All backfilling, grading, and topsoiling shall be completed before necessary equipment is moved from the operation.

(5) When the backfilling, grading, and topsoiling have been completed and approved by the department, the commissioner may release so much of the bond which was filed for that portion of the operation as the commissioner may determine, provided that no less than two hundred dollars ($200) per acre shall be retained by the department until such time as the planting and revegetation is done according to law and approved by the department, at which time the commissioner shall release the bond in the remaining amount.

(6) An operator may propose alternative plans other than backfilling, grading, highwall reduction, or topsoiling if the restoration will be consistent with the purpose of this act. These plans shall be submitted to the department, and, after consultation with the landowner, if the plans are approved by the board and complied with within the time limits as may be determined by the board as being reasonable for carrying out the

HeinOnline -- 1973 vol. I 604 1973

plans, the backfilling, grading, highwall reduction, or topsoiling requirements of this act may be modified by the board. An operator who proposes alternative plans that will affect an existing permit shall comply with the notice requirement of section 6 (2) (k).

Section 12. After the operation has been backfilled, graded, topsoiled, and approved by the department, the operator shall prepare the soil and plant such legumes, grasses, shrubs, and trees upon the area of land affected as are necessary to provide a suitable permanent diverse vegetative cover capable of:

(a) feeding and withstanding grazing pressure from a quantity and mixture of wildlife and livestock at least comparable to that which the land could have sustained prior to the operation;

(b) regenerating under the natural conditions prevailing at the site, including occasional drought, heavy snowfalls, and strong winds; and

(c) preventing soil erosion to the extent achieved prior to the operation.

The seed or plant mixtures, quantities, method of planting, type and amount of lime or fertilizer, mulching, irrigation, fencing, and any other measures necessary to provide a suitable permanent diverse vegetative cover shall be defined by rules of the board.

Section 13. The operator shall commence the reclamation of the area of land affected by his operation as soon as possible after the beginning of strip mining of that area in accordance with plans previously approved by the department. Those grading, backfilling, topsoiling, and water management practices that are approved in the plans shall be kept current with the operation as defined by rules of the board and a permit or supplement to a permit may not be issued, if in the discretion of the department, these practices are not current.

Section 14. (1) At least sixty (60) days prior to the date of each permit expiration, the operator shall file a planting report with the department on a form to be prescribed and furnished by the department, giving the following information:

(a) identification of the operation;

(b) the type of planting or seeding, including mixtures and amounts;

(c) the date of planting or seeding;

HeinOnline -- 1973 vol. I 605 1973

(d) the area of land planted;

(e) any other relevant information the department requires.

(2) All planting reports shall be certified by the operator.

(3) Inspection and evaluation for permanent diverse vegetative cover shall be made as soon as it is possible to determine if a satisfactory stand has been established. If the department determines that a satisfactory permanent diverse vegetative cover has been established, it shall release the remaining bond held on the area reclaimed after public notice and an opportunity for a hearing; but in no event shall such remaining bond be released prior to a period of five (5) years from the initial planting provided for in section 12 of this act.

Section 15. All legumes, grasses, shrubs, and trees which are planted or seeded on the area of land affected as required by this act or rules adopted under this act, become the property of the landowner, after complete release of the bond, unless the operator and the landowner agree otherwise.

Section 16. Within sixty (60) days after each date of expiration of a permit, the operator shall annually file with the department a report stating the exact number of acres of land affected by the operation, the extent of the reclamation already accomplished by him, and any other information required by the rules of the department and the board. The report shall be accompanied by a copy of the map filed with the original application which shall show any revisions made necessary by results of the operation.

Section 17. (1) If any of the requirements of this act or rules or orders of the department and the board have not been complied with within the time limits set by the department or the board or by this act, the department shall serve a notice of noncompliance on the operator, or where found necessary, the commissioner shall order the suspension of a permit. The notice or order shall be handed to the operator in person or served by registered mail addressed to the permanent address shown on the application for a permit. The notice of noncompliance or order of suspension shall specify in what respects the operator has failed to comply with this act or the rules or orders of the department and the board. If the operator has not complied with the requirement set forth in the notice of noncompliance or order of suspension within time limits set therein, the permit may be revoked by order of the board and the performance bond forfeited to the department.

HeinOnline -- 1973 vol. I 606 1973

(2) Any additional permits held by an operator whose mining permit has been revoked shall be suspended and the operator is not eligible to receive another permit or to have the suspended permits reinstated until he has complied with all the requirements of this act in respect to former permits issued him. An operator who has forfeited a bond is not eligible to receive another permit unless the land for which the bond was forfeited has been reclaimed without cost to the state, or the operator has paid into the reclamation account a sum together with the value of the bond, the board finds adequate to reclaim the lands. The department may not issue any additional permits to an operator who has repeatedly been in noncompliance or violation of this act.

Section 18. Where one operator succeeds another at an uncompleted operation, either by sale, assignment, lease, or otherwise, the department may release the first operator from all liability under this act as to that particular operation if both operators have been issued a permit and have otherwise complied with the requirements of this act, and the successor operator assumes as part of his obligation under this act, all liability for the reclamation of the area of land affected by the former operator.

Section 19. (1) All fees, forfeit funds, and other moneys available or paid to the department under the provisions of this act shall be placed in the state treasury and credited to a special agency account to be designated as the strip mining and reclamation fund. This fund shall be available to the department by appropriation and shall be expended for the administration and enforcement of this act and for the reclamation and revegetation of land and the rehabilitation of water affected by any mining operations. Any unencumbered and any unexpended balance of this fund remaining at the end of any fiscal year shall not lapse but shall be carried forward for the purposes of this act until expended or until appropriated by subsequent legislative action.

Section 20. (1) The board may receive any federal funds, state funds, or any other funds for the reclamation of land affected by strip mining. The board may have reclamation work done by its own employees or by employees of other governmental agencies, soil conservation districts, or through contracts with qualified persons.

(2) Any funds or any public works programs available to the board shall be used and expended to reclaim and rehabilitate lands that have been subjected to strip mining that have not been reclaimed and rehabilitated in accordance with the standards of this act.

Section 21. The board may reclaim, in keeping with the

HeinOnline -- 1973 vol. I 607 1973

provisions of this act, any affected lands with respect to which a bond has been forfeited and to use moneys appropriated from the strip mining and reclamation fund for such purposes.

Section 22. A resident of this state, with konwledge that a requirement of this act or rule adopted under this act, is not being enforced by a public officer or employee whose duty it is to enforce the requirement or rule may bring the failure to enforce to the attention of the public officer or employee by a written statement under oath that shall state the specific facts of the failure to enforce the requirement or rule. Knowingly making false statements or charges in the affidavit subjects the affiant to penalties prescribed under the law of perjury.

(2) If the public officer or employee neglects or refuses for an unreasonable time after receipt of the statement to enforce the requirement or rule, the resident may bring an action of mandamus in the district court of the first judicial district of this state, in and for the county of Lewis and Clark, or in the district court of the county in which the land is located. The court, if it finds that a requirement of this act or a rule adopted under this act, is not being enforced shall order the public officer or employee, whose duty it is to enforce the requirement or rule, to perform his duties. If he fails to do so, the public officer or employee shall be held in contempt of court and is subject to the penalties provided by law.

(3) An owner of an interest in real property who obtains all or part of his supply of water for domestic, agricultural, industrial, or other legitimate use from an underground source other than a subterranean stream having a permanent, distinct, and known channel, may sue an operator to recover damages for contamination, diminution, or interruption of the water supply, proximately resulting from strip mining.

(4) A servient tract of land is not bound to receive surface water contaminated by strip mining on a dominant tract of land, and the owner of the servient tract may sue an operator to recover the damages proximately resulting from the natural drainage from the dominant tract of surface waters contaminated by strip mining on the dominant tract.

(5) This section does not create, modify, or affect any right, liability, or remedy other than as expressly provided in this section.

Section 23. (1) A person or operator who violates any of the provisions of this act or rules or orders adopted under this act shall pay a civil penalty of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) for the viola-

HeinOnline -- 1973 vol. I 608 1973

tion, and an additional civil penalty of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) for each day during which a violation continues, and may be enjoined from continuing such violations as hereinafter provided in this section. These penalties shall be recoverable in any action brought in the name of the state of Montana by the attorney general in the district court of the first judicial district of this state, in and for the county of Lewis and Clark, or in the district court having jurisdiction of the defendant.

(2) The attorney general shall, upon the request of the commissioner, sue for the recovery of the penalties provided in this section for, and bring an action for a restraining order, temporary or permanent injunction, against an operator or other person violating or threatening to violate an order adopted under this act.

(3) A person who willfully violates any of the provisions of this act, or any determination or order adopted under this act which has become final is guilty of a misdemeanor and shall be fined not less than five hundred dollars ($500) and not more than five thousand dollars ($5,000). Each day on which a violation occurs constitutes a separate offense.

Section 24. All hearings and appeal procedures shall be in accordance with sections 82-4209 through 82-4217.

Section 25. If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 26. Sections 50-1018 through 50-1033, R.C.M. 1947, are repealed.

Section 27. Every operator shall within ninety (90) days after the effective date of this act file with the department an application for a permit.

Section 28. Ninety (90) days after the effective date of this act, the state shall proceed to cancel, according to their terms, all existing contracts entered into pursuant to chapter 245, laws of Montana, 1967. If the contract does not provide according to its terms, for the cancellation, it shall be terminated and void within two hundred seventy (270) days from the effective date of this act.

Section 29. This act is effective on its passage and approval.

Approved: March 16, 1973.

CHAPTER NO. 326

An Act to Provide for Reclamation and Conservation of Land Subject to Open Cut Bentonite, Sand or Gravel Mining; Requiring Reclamation Contracts for Operations Resulting in Removal of Ten Thousand (10,000) Cubic Yards of Overburden or Product; Providing Enforcement by the State Board of Land Commissioners; Repealing Sections 50-1018 through 50-1033, R.C.M. 1947, and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. This act shall be known and may be cited as "The Open Cut Mining Act."

Section 2. It is the policy of this state to provide for the reclamation and conservation of land subjected to open cut bentonite, sand or gravel mining. Therefore, it is the purpose of this act to preserve natural resources, to aid in the protection of wildlife and aquatic resources, to safeguard and reclaim through effective means and methods all agricultural, recreational, home and industrial sites subjected to or which may be affected by open cut bentonite, sand or gravel mining to protect and perpetuate the taxable value of property, to protect scenic, scientific, historic or other unique areas, and to promote the health, safety and general welfare of the people of this state.

Section 3. The state board of land commissioners is hereby authorized to enter into contracts in the name of the state of Montana with operators which will provide for the reclamation of lands on which open cut mining of bentonite, sand and gravel has been or is to be conducted. The state board of land commissioners is authorized to sue and be sued in the name of the state of Montana to enforce the provisions of any contract, and said board shall bring such court actions and take such other steps and actions as may be necessary to enforce the provisions of such contracts.

Section 4. When used in this act, unless a different meaning clearly appears from the context:

(1) "Contract'' means a mined land reclamation contract prepared by the commission to meet the requirements of this act.

(2) "Open cut mining" means the mining of bentonite, sand or gravel by removing the overburden lying upon natural deposits thereof, and mining directly from the natural deposits thereby exposed, including the removal of overburden for the purpose of determining the location, quality or quantity of any natural deposit of bentonite, sand or gravel.

HeinOnline -- 1973 vol. I 610 1973

(3) "Reclamation" means the reconditioning of the area of land affected by open cut mining operations to make the area suitable for productive use including but not limited to, forestry, agriculture, grazing, wildlife, recreation, residential and industrial sites.

(4) "Overburden" means all of the earth and other materials which lie above a natural deposit of bentonite, sand or gravel. "Spoil" is the overburden disturbed from its natural state in the process of open cut mining.

(5) "Operator" means any person engaged in and controlling an open cut mining operation.

(6) "Affected land" means the area of land from which overburden is to be or has been removed and upon which the overburden is to be or has been deposited.

(7) "Commission" means the state board of land commissioners.

(8) "Person" means any natural person, or any firm, association, partnership, cooperative, corporation or any department, agency or instrumentality of the state or any governmental subdivision, or any other entity whatsoever.

(9) "Landowner" means the owner of land directly or indirectly affected by an open cut mining operation.

(10) "Public notice" means notice given by publication in a newspaper in the general area where the affected land is located. Such notice shall be given once a week for three (3) successive weeks.

(11) "Soils materials" are those horizons containing topsoil or other soils leached free of deleterious salts and capable of sustaining plant growth and recognized as such by standard authorities.

(12) "Refuse" means all waste material directly connected with the open cut mining operations.

(13) "Final cut" means the last pit created in an open cut mined area.

(14) "High wall" means that side of the pit adjacent to unmined land.

HeinOnline -- 1973 vol. I 611 1973

(16) "Progress report" means a report showing the land which the operator has affected by open cut mining during the year. Such report shall show the number of acres of affected land and all reclamation accomplished.

Section 5. The commission is the administrator of this act and it has all the power necessary to implement and enforce it. The commission may delegate to the commissioner of state lands such powers, duties and functions under this act as it deems necessary for the performance of its duties.

Section 6. The commission has the following powers, duties and functions:

(1) to enter into contracts where it is found on the basis of the information set forth in the application and an evaluation of the operation by the commission that the requirements of the act or rules will be observed and that the operation and the reclamation of the affected area can be carried out consistent with the purpose of the act;

(2) to prepare and adopt rules and regulations pertaining to open cut mining to accomplish the purposes of this act;

(3) to conduct hearings and for the purposes of conducting such hearings, to administer oaths and affirmations, to subpoena witnesses, to compel attendance of witnesses, to hear evidence and to require the production of any books, papers, correspondence, memoranda, agreements, documents or other records relevant or material to the inquiry;

(4) to adopt uniform procedures for the filing of necessary records, the issuance of contracts, and for any other matters of administration not specifically enumerated in this act;

(5) to reclaim any affected land with respect to which a bond has been forfeited;

(6) to make investigations or inspections which may be deemed necessary to insure compliance with any provisions of this act.

Section 7. From and after the effective date of this act, no operator shall conduct open cut mining operations which shall result in the removal of ten thousand (10,000) cubic yards, or more, of product or overburden, until he has entered into a contract with the commission for the reclamation of the land affected. Any operator conducting a number of operations each of which result in the removal of less than ten thousand (10,000) cubic yards of product or overburden but which result in the removal of ten thousand (10,000) cubic yards, or more, of pro-

HeinOnline -- 1973 vol. I 612 1973

duct or overburden in the aggregate shall be subject to the provisions of this act.

Section 8. Applications for a contract shall be made upon a form furnished by the commission, which form contains the following:

(1) the name of the operator and, if other than the owner of the land, the name and address of the owner.

(2) the type of operation to be conducted;

(3) the volume of earth to be removed, as accurately as the same may then be estimated, and the volume which has been previously removed, if any;

(4) the location of the operation by legal subdivision, section, township and range, and county;

(5) the date when such operation was or will be commenced;

(6) the operator must submit a plan of his operation and the method and manner of reclamation that will be used or followed. If the operator, prior to applying for a contract, notifies the commission of his intention to submit a plan, and requests the commission to examine the area to be mined, the commission shall cause the area to be examined and make recommendations to the operator regarding reclamation;

(7) a statement that the applicant has the right and power by legal estate owned to mine by open cut mining the lands so described;

(8) the application shall be accompanied by:

(a) a bond or security meeting the requirements as set out in this act, and

(b) a fee of fifty dollars ($50);

Upon receipt of such application, bond or security and fee due from the operator, and upon agreement to the terms of the contract by the parties, the commission may issue a contract to the applicant which shall entitle him thereafter to continue in or engage in open cut mining on land therein described;

(9) an operator desiring to have his contract amended to cover additional contiguous or nearby land may file an amended application with the commission. Upon receipt of the amended application, and such additional bond as may be required, and upon agreement to the terms of the amendment by the parties, the commission may issue an amendment to the original contract

HeinOnline -- 1973 vol. I 613 1973

covering the additional land described in the amended application, without the payment of any additional fee;

(10) an operator may withdraw any land covered by contract, except affected land, by notifying the commission thereof, in which case the penalty of the bond or security filed by such operator pursuant to the provisions of this act shall be reduced proportionately.

Section 9. (1) Any bond required to be filed in this act by the operator shall be in such form as the commission prescribed, payable to the state of Montana, and conditioned upon the operator's full compliance with all requirements of this act and all rules and regulations of the commission. Such bond shall be signed by the landowner or operator, as appropriate, as principal, and by a good and sufficient corporate surety, licensed to do business in the state of Montana, as surety. The penalty of such bond shall be in an amount not to exceed the costs of restoration required by this act as determined by the commission, but shall not be less than two hundred dollars ($200) nor more than one thousand dollars ($1,000) per acre.

(2) In lieu of such bond, the operator may deposit cash and government securities or a bond with property sureties with the commission in an amount equal to that of the required bond on conditions as above prescribed. In the discretion of the commission, surety bond requirements may be fulfilled by the operator's posting a bond with land and improvements and facilities thereon as security, in which event no surety shall be required. The penalty of the bond or amount of cash and securities shall be increased or reduced from time to time as provided in this act. Such bond or security shall be and remain in effect until the mined acreages have been reclaimed, as provided under the contract, and approved and released by the commission, and shall from time to time cover only actual mined acreages and may be increased or reduced to cover only such acreages as remained unreclaimed.

(3) If the license to do business in the state of any surety upon a bond filed with the commission pursuant to this act shall be suspended or revoked, the operator, within thirty (30) days after receiving notice thereof from the commission, shall substitute for such surety a good and sufficient surety licensed to do business in the state. Upon failure of the operator to make substitution of surety, the commission shall have the right to suspend the contract of the operator to conduct operations upon the land described in such contract until such substitution has been made.

HeinOnline -- 1973 vol. I 614 1973

(4) The commission shall cause to be reclaimed any affected land with respect to which a bond has been forfeited.

(5) Whenever an operator shall have completed all of the requirements under the provisions of this act as to any affected land, he shall notify the commission thereof. If the commission shall release the operator from further obligation regarding such affected land, the penalty of the bond shall be reduced proportionately.

Section 10. The contract shall meet the following requirements:

(1) The operator shall submit a reclamation plan to the commission before commencing any open cut mining, and may not commence mining before it receives approval from the commission. The operator may request and receive a meeting with the commission prior to submission of the plan. If the commission does not notify the operator that it has approved or disapproved a plan within thirty (30) days after the commission has received the plan, the commission shall be deemed to have approved the plan. The commission, however, may for sufficient cause extend its period of consideration for an additional thirty (30) days if it notifies the operator prior to the end of the original thirty (30) day period. The commission shall submit all reclamation plans or amendments to the reclamation plan to the landowner for his recommendations and shall consider those recommendations in deciding whether to approve or disapprove any plan or amendments. The commission may seek technical help from any state or federal agency. The commission must submit the plan immediately to the director, university of Montana statewide archeological survey for evaluation of possible archeological or historical values in the area to be mined. The commission may approve a reclamation plan only if the commission has found that the plan provides for the best possible reclamation procedures available under the circumstances at the time, so that after mining operations are completed the affected land shall be reclaimed to a productive use. Once the reclamation plan has been accepted in writing by the commission, it shall become a part of the contract but shall be subject to annual review and modification by the commission.

(2) The commission may not approve any reclamation plan unless the plan provides that:

(a) the land will be reclaimed for one or more specified uses, including but not limited to: forestry, pasture, orchard, cropland, residence, recreation, industry, habitat (including food, cover or water) for wildlife or other uses;

HeinOnline -- 1973 vol. I 615 1973

(b) to the extent reasonable and practicable, the operator shall establish vegetative cover commensurate with the proposed land use;

(c) where operations result in a need to prevent acid drainage or sedimentation, on or in adjoining lands or streams, there shall be provisions for the construction of earth dams or other reasonable devices to control water drainage, provided the formation of such impoundments or devices will not interfere with other landowners rights or contribute to water pollution;

(d) to accomplish practical utilization of soil materials, such material will be utilized for placement on affected areas if required by the reclamation plan after completion or termination of that particular phase of the mining operations at a depth sufficient for plant growth on slopes of 3:1 or less. Grading specifications shall be commensurate with the topography sought and land use designated;

(e) metal and other waste shall be removed or buried;

(f) all access, haul and other support roads shall be located, constructed and maintained in such a manner as to control and minimize channeling and other erosion;

(g) the operator shall submit annually to the commission a progress report;

(h) all operations shall be conducted so as to avoid range and forest fires and spontaneous combustion. Open burning of carbonaceous materials shall be in accordance with suitable practices for fire prevention and control;

(i) archeological and historical values in areas to be mined shall be given appropriate protection;

(j) except for rock faces, bench faces and excavations used for water impoundments, each surface area of the mined premises which will be disturbed shall be revegetated when its use for extractive purposes is no longer required. Seeding and planting shall be done in a manner to achieve a permanent suitable vegetative cover for wildlife, livestock and retardation of erosion. All seed will be drilled unless otherwise provided in the plan;

(k) reclamation shall be as concurrent with mining operations as feasible, and must be completed within a specified length of time.

(3) If reclamation according to the plan has not been completed in the time specified, the commission shall after thirty (30) days written notice order the operator to cease mining, and.

HeinOnline -- 1973 vol. I 616 1973

if the operator does not cease, shall institute an action to enjoin further operation and may sue for damages for breach of contract, for payment of the performance bond, or for both.

(4) (a) At any time during the period of reclamation the operator may for good reason submit to the commission a new reclamation plan or amendment to the existing plan including extensions of time.

(b) The commission may approve the proposed new reclamation plan, or amendments to the existing plan if:

(i) the operator has in good faith carried on reclamation according to the existing plan, and

(ii) the proposed new plan, or amendments to the existing plan, will result in reclamation as desirable or more so than the reclamation proposed under the existing plan, or

(iii) it is highly improbable reclamation will be successful unless the existing plan is replaced or amended. When accepted, the proposed new reclamation plan or the proposed amendments to the existing plan becomes a part of the contract.

(5) The operator shall provide a performance bond, or an alternative acceptable to the commission, in an amount commensurate with the estimated cost of reclamation, but in no case shall the bond be less than two hundred dollars ($200) per acre. The estimated cost of reclamation shall be set forth in the reclamation plan.

(6) The contract, reclamation plan and amendments accepted by the commission shall be a public record and open to inspection.

(7) The contract shall become effective when signed by the commission and the operator, and shall remain in force until terminated by mutual consent or by the commission upon six (6) months notice.

Section 11. The commission may receive any federal funds, state funds or any other funds for the reclamation of land affected by open cut mining. The commission may cause the reclamation work to be done by its own employees or by employees of other governmental agencies, soil conservation districts or through contracts with qualified persons.

Any funds or any public works programs available to the commission shall be used and expended to reclaim and rehabilitate any lands that have been subject to open cut mining that have not been reclaimed and rehabilitated in accordance with the standards of this act.

HeinOnline -- 1973 vol. I 617 1973

Section 12. The commission, or its accredited representatives, may enter upon lands subjected to open cut mining at all reasonable times for the purpose of inspection, to determine whether the provisions of this act have been complied with.

Section 13. Anyone required by this act to have a contract and who engages in open cut mining without previously securing a contract to do so as prescribed by this act is guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than five hundred dollars ($500) and not more than one thousand dollars ($1,000). Each day of operation without a contract required by this act shall be deemed a separate violation.

Section 14. The commission shall have the power to reclaim, in keeping with the provisions of this act, any affected lands with respect to which a bond has been forfeited.

Section 15. (1) A person who is aggrieved by a final decision of the commissioner of state lands is entitled to a hearing before the commission.

(2) The Montana Administrative Procedure Act (title 82, chapter 42, R.C.M. 1947) governs hearings before the commission and judicial review of decisions of the commission under this act.

Section 16. The provisions of this act are severable, and if any part or provision thereof shall be held void the decision of the court so holding shall not affect or impair any of the remaining parts of provisions of this act that are severable from the invalid applications.

Section 17. Sections 50-1018 through 50-1033, R.C.M. 1947, are repealed. However, contracts entered into under the provisions of sections 50-1018 through 50-1033, R.C.M. 1947, are not affected hereby, and shall remain in effect until terminated or completed.

Section 18. Nothing in this act shall be construed to be applicable to mining or exploration operations which are regulated under the provisions of Title 50, Chapter 12, R.C.M. 1947.

Section 19. This act is effective on its passage and approval.

Approved: March 16, 1973.

CHAPTER NO. 327

An Act to Vest in the Department and Board of Natural Resources and Conservation the Authority to Require and Review Long-

Range Planning By Certain Utilities, to Give Approval to Energy Generation and Conversion Plant Sites and Associated Facilities, to Require Preconstruction Certification of Such Facilities; Providing Penalties For Violation of This Act; and Providing An Effective Date."

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. This act may be cited as the Montana Utility Siting Act of 1973.

Section 2. It is the constitutionally declared policy of this state to maintain and improve a clean and healthful environment for present and future generations; to protect the environmental life support system from degradation and prevent unreasonable depletion and degradation of natural resources; and to provide for administration and enforcement to attain these objectives.

The legislature finds that the construction of additional power and energy conversion facilities may be necessary to meet the increasing need for electricity and other energy, and that such facilities have an effect on the environment, an impact on population concentration, and an effect on the welfare of the citizens of this state. Therefore, it is necessary to ensure that the location, construction and operation of power and energy conversion facilities will produce minimal adverse effects on the environment and upon the citizens of this state by providing that no power or energy conversion facility shall hereafter be constructed or operated within this state without a certificate of environmental compatibility and public need acquired pursuant to this act.

Section 3. The following words, when used in this act, shall have the following meanings unless otherwise clearly apparent from the context:

(1) the word "department" means the department of natural resources and conservation.

(2) the word "board" means the board of natural resources and conservation.

(3) the words "utility facility" or "facility" mean:

(a) any energy generating and conversion plant and associated facilities

(i) designed for, or capable of, generating at fifty (50) megawatts of electricity or more or any addition thereto (except pollution control facilities approved by the department of health and environmental sciences added to an existing plant) having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

(ii) designed for, or capable of, producing one hundred million (100,000,000) cubic feet of gas per day or more or any addition thereto having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

(iii) designed for, or capable of, producing fifty thousand ($50,000) barrels of liquid hydro-carbon products per day or more or any addition thereto having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

(iv) designed for or capable of enriching uranium minerals;

(b) an electric transmission line and associated facilities of a design capacity of thirty-four and one-half (34.5) kilovolts or more, except that the following transmission lines and associated facilities shall be subject to certain exceptions under the act:

(i) a transmission line and associated facilities with a design capacity of sixty-nine (69) kilovolts or less and which will be constructed above ground for a distance of ten (10) miles or less shall not be considered a utility facility within the definitions of this act,

(ii) a transmission line and associated facilities with a design capacity of one hundred sixty-one (161) kilovolts or less and which will be constructed underground for a distance of five (5) miles or less shall not be considered a utility facility within the definitions of this act,

(iii) a transmission line or associated facilities of a design capacity of one hundred sixty-one (161) kilovolts or less which does not meet the requirements of subsections (i) and (ii) of this subsection shall be subject to the specific time review requirements for transmission lines in section 6, subsection (1) and section 7, subsection (1) of this act if the proposed length of the transmission line will not exceed thirty (30) miles,

(iv) unless specifically covered by subsection (i), (ii) or (iii) of this subsection, the construction of all transmission lines and associated facilities shall be subject to the two (2) year time requirement of section 6, subsection (1), and the six hundred (600) day requirement of section 7, subsection (1),

(v) the provisions of subsections (i) and (ii) of this subsection shall not be construed as authorizing the simultaneous construction of two (2) or more transmission lines serving the same community or customer which would, when constructed separately, come within the exceptions of subsections (i) and (ii);

(c) a gas or liquid transmission line and associated facilities designed for, or capable of, transporting gas or liquid hydro-carbon

HeinOnline -- 1973 vol. I 620 1973

products from a gasification or liquefaction facility of the size indicated in subsections (a)(ii) and (a)(iii) of this section.

(4) the words "associated facilities" include, but are not limited to, transportation links of any kind, aqueducts, diversion dams and any other device or equipment associated with the production, or delivery of the energy form produced by a facility.

(5) the words "commence to construct" mean any clearing of land, excavation, construction, or other action that would effect the environment of the site or route of a utility facility, but do not include changes needed for temporary use of sites or routes for non-utility purposes, or uses in securing geological data, including necessary borings to ascertain foundation conditions.

(6) the word "municipality" means any county or municipality within this state.

(7) the word "person" includes any individual, group, firm, partnership, corporation, cooperative, association, government subdivision, government agency, local government, or other organization.

(9) "certificate" means the certificate of environmental compatibility and public need issued by the board and required for the construction or operation of any facility.

Section 4. (1) No person shall commence to construct a utility facility in the state without first having obtained a certificate issued with respect to such facility by the board. Any facility, with respect to which a certificate is required, shall thereafter be constructed, operated and maintained in conformity with such certificate and any terms, conditions and modifications contained therein. A certificate may only be issued pursuant to this act.

(2) A certificate may be transferred, subject to the approval of the department, to a person who agrees to comply with the terms, conditions and modifications contained therein.

(3) This act shall not apply to any utility facility over which an agency of the federal government has exclusive jurisdiction.

Section 5. Every "producer" as defined in chapter 16 of title 84, the electrical energy producers' license tax, shall, in addition to the sum required to be paid by that act, pay an additional twenty-five hundredths percent (0.25%) of the gross amount as

HeinOnline -- 1973 vol. I 621 1973

shown on the statement which is required by that act, in the same manner and within the time provided by that act. The state board of equalization shall report to the state treasurer separately the amount transmitted to the state treasurer which is added to the electrical energy producers' license tax by this section of this act.

The legislature shall appropriate sufficient funds to finance the department's activities in carrying out its duties under this act. The legislature shall provide a tax on gasification, liquefaction and uranium enrichment facilities sufficient to produce an amount of revenue equal to that derived from electrical energy producers under this section.

Section 6. (1) At least two (2) years prior to anticipated commencement of construction of a utility facility as defined in sections 3(3)(a), 3(3)(b)(iv), and 3(c) and at least nine 9(9) months prior to the anticipated commencement date of the construction of a utility facility as defined in section 3(3)(b)(iii), an applicant for a certificate shall file with the department an application, in such form as the department may prescribe, containing the following information:

(a) a description of the location and of the utility facility to be built thereon;

(b) a summary of any studies which have been made of the environmental impact of the facility;

(c) a statement explaining the need for the facility;

(d) a description of any reasonable alternate location or locations for the proposed facility, a description of the comparative merits and detriments of each location submitted, and a statement of the reasons why the primary proposed location is best suited for the facility; and

(e) such other information as the applicant may consider relevant or as the department may by regulation or order require. A copy or copies of the studies referred to in clause (b) above shall be filed with the department, if ordered, and shall be available for public inspection.

(2) A filing fee shall be deposited in the state general fund. Said fee shall be based upon the estimated cost of the facility according to the declining scale which follows. The applicant shall pay the accumulated sums calculated as follows: three percent (3%) of any estimated cost up to one million dollars ($1,000,000); plus one percent (1%) of any estimated cost over a million dollars and up to twenty million dollars ($20,000,000);

HeinOnline -- 1973 vol. I 622 1973

plus one-half of one percent (0.5%) of any estimated cost over twenty million dollars ($20,000,000) and up to one hundred million dollars ($100,000,000); plus one-quarter of one percent (0.25%) of any amount of estimated cost over one hundred million ($100,000,000) and up to three hundred million dollars ($300,000,000); plus one-tenth of one percent (0.1%) of any amount of estimated cost over three hundred million dollars ($300,000,000). It is the intent of the legislature that the revenues derived from the filing fee be used by the department in compiling the information required for rendering a decision on a certificate and for carrying out its other responsibilities under this act.

(3) Each application shall be accompanied by proof of service of a copy of such application on the chief executive officer of each municipality and the head of each government agency, charged with the duty of protecting the environment or of planning land use, in the area in which any portion of such facility is to be located, both as primarily and as alternatively proposed. The copy of such application shall be accompanied by a notice specifying the date on or about which the application is to be filed.

(4) Each application shall also be accompanied by proof that public notice thereof was given to persons, residing in the municipalities entitled to receive notice under subsection (3) of this section, by the publication of a summary of the application, and the date on or about which it is to be filed, in such newspapers as will serve substantially to inform such persons of the application.

(5) Inadvertent failure of service on, or notice to, any of the municipalities, government agencies or persons identified in subsections (3) and (4) of this section may be cured pursuant to orders of the department designed to afford them adequate notice to enable their effective participation in the proceeding. In addition, the department may, after filing, require the applicant to serve notice of the application or copies thereof or both upon such other persons, and file proof thereof, as the department may deem appropriate.

(6) An application for an amendment of a certificate shall be in such form and contain such information as the department shall prescribe. Notice of such an application shall be given as set forth in subsections (3) and (4) of this section.

(7) The board may waive compliance with the time limit of this section if an applicant makes a clear and convincing showing that an immediate need for a facility exists and that the applicant did not have knowledge that the need existed sufficiently in advance of the need to file an application within the time provided in subsection (1) of this section.

HeinOnline -- 1973 vol. I 623 1973

Section 7. (1) Upon receipt of an application complying with section 6, the department shall commence an intensive study and evaluation of the proposed facility and its effects, pursuant to section 16 of this act. Within six hundred (600) days following receipt of the application for a facility as defined in sections 3(3)(a), 3(3)(b)(iv) and 3(c) and within one hundred eighty (180) days for a facility as defined in sections 3(3)(b)(iii) the department shall make a report to the board, which shall contain the department's studies, evaluations, recommendations, other pertinent documents resulting from its study and evaluation pursuant to section 16 of this act and the final environmental impact statement.

The departments of health and environmental sciences, highways, intergovernmental relations, fish and game, and public service regulation shall report to the department information relating to the impact of the proposed site on each department's area of expertise. Such information may include opinions as to the advisability of granting or denying the certificate. The department shall allocate funds obtained from filing fees to the departments making reports to reimburse them for the costs of compiling information and issuing the required report.

(2) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(3) Upon receipt of the department's report submitted under subsection (1) of this section, the board shall set a hearing date not more than sixty (60) days after such receipt.

Section 8. (1) The parties to a certification proceeding include:

(a) the applicant;

(b) each municipality and government agency entitled to receive service of a copy of the application under subsection (3) of section 6 of this act; and

(c) any person residing in a municipality entitled to receive service of a copy of the application under subsection (4) of section 6 of this act; any nonprofit organization, formed in whole or in part to promote conservation or natural beauty, to protect the environment, personal health or other biological values, to preserve

HeinOnline -- 1973 vol. I 624 1973

historical sites, to promote consumer interests, to represent commercial and industrial groups, or to promote the orderly development of the areas in which the facility is to be located; or any other interested person; and

(d) the department.

(2) Any party identified in subparagraphs (b) and (c) of subsection (1) of this section waives his right to be a party if he does not participate orally at the hearing.

Section 9. Any studies, investigations, reports, or other documentary evidence, including those prepared by the department, which any party wishes the board to consider or which the board itself expects to utilize or rely upon, shall be made a part of the record; a record shall be made of the hearing and of all testimony taken; and the contested case procedures of the Montana Administrative Procedure Act shall apply to the hearing, except that neither common law nor statutory rules of evidence need apply, but the board may make rules designed to exclude repetitive, redundant or irrelevant testimony.

Section 10. (1) The board shall make complete findings, issue an opinion, and render a decision upon the record, either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation or maintenance of the utility facility as the board may deem appropriate. The board may not grant a certificate either as proposed or as modified by the board unless it shall find and determine:

(a) the basis of the need for the facility;

(b) the nature of the probable environmental impact;

(c) that the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives;

(d) each of the criteria listed in section 16 of this act.

(e) in the case of an electric, gas or liquid transmission line or aqueduct, what part, if any, of the line or aqueduct shall be located underground; that such facility is consistent with regional plans for expansion of the appropriate grid of the utility systems serving the state and interconnected utility systems; and that such facilities will serve the interests of utility system economy and reliability;

(f) that the location of the facility as proposed conforms to applicable state and local laws and regulations issued there-

HeinOnline -- 1973 vol. I 625 1973

under, except that the board may refuse to apply any local law or regulation if it finds that, as applied to the proposed facility, such law or regulation is unreasonably restrictive in view of the existing technology, or of factors of cost or economics, or of the needs of consumers whether located inside or outside of the directly affected government subdivisions;

(g) that the facility will serve the public interest, convenience and necessity; and

(h) that duly authorized state air and water quality agencies have certified that the proposed facility will not violate state and federally established standards and implementation plans; the judgments of duly authorized air and water quality agencies are conclusive on all questions related to the satisfaction of state and federal air and water quality standards.

(2) If the board determines that the location of all or a part of the proposed facility should be modified, it may condition its certificate upon such modification, provided that the municipalities, and persons residing therein, affected by the modification, shall have been given reasonable notice of the modification.

(3) A copy of the decision and any opinion issued with the decision shall be served upon each party.

Section 11. (1) In rendering a decision on an application for a certificate, the board shall issue an opinion stating its reasons for the action taken. (3) The time requirement of section 6 and any of the provisions described in sections 7 through 11 of this act may be waived by the board, for good cause shown with respect to applications filed before January 1, 1975. Applications for certificates under this subsection (3) must be promptly filed. A certificate is not required under this act for facilities under construction or in operation on January 1, 1973. However, a certificate must be obtained for associated facilities upon which construction has not commenced before January 1, 1973, subject to the waiver provisions of this subsection.

Section 12. (1) Any party as defined in section 8 of this act aggrieved by the final decision of the board on an application for a certificate, may obtain judicial review by the filing of a petition in a state district court of competent jurisdiction within thirty (30) days after the issuance of such final decision. Upon receipt of such petition, the department shall deliver to the court a copy of the written transcript of the record of the proceeding before it and a copy of the board's decision and opinion entered therein which shall constitute the record on judicial review. A copy of such transcript, decision and opinion shall remain on file with the department and shall be available for public inspection.

(2) If a decision is issued after a hearing on an application for a certificate, such decision is final for purposes of judicial review. The judicial review procedure shall be the same as that for contested cases under the Montana Administrative Procedure Act.

Section 13. Except as expressly set forth in sections 12, 17 and 21 of this act, no court of this state shall have jurisdiction to hear or determine any issue, case or controversy concerning any matter which was or could have been determined in a proceeding before the board under this act or to stop or delay the construction, operation or maintenance of a utility facility except to enforce compliance with this act or the provisions of a certificate issued hereunder pursuant to sections 19 or 21 of this act.

Section 14. (1) Each utility shall furnish annually to the department for its review, a long-range plan for the construction and operation of utility facilities. Such plan shall be submitted on April 1 of each year. The plan shall include the following:

projected to commence during the ensuing ten (10) years, as well as those facilities to be removed from service during the planning period;

(b) a description of efforts by the utility to coordinate the plan with other utilities so as to provide a coordinated regional plan for meeting the utility needs of the region;

(c) a description of the efforts to involve environmental protection and land use planning agencies in the planning process, as well as other efforts to identify and minimize environmental problems at the earliest possible stage in the planning process;

(d) projections of the demand for the service rendered by the utility and explanation of the basis for such projections, and a description of the manner and extent to which the proposed facilities will meet the projected demand; and

(e) additional information that the department on its own initiative or upon the advice of interested state agencies might request in order to carry out the purposes of this act.

(2) The plan shall be made available to the public by the department, and the utility shall be required to give public notice throughout the state of its plan by filing the plan with the environmental quality council, the department of health and environmental science, the department of highways, the department of public service regulation, the department of state lands and the department of intergovernmental relations. Citizen environmental protection and resource planning groups, and other interested persons may obtain a plan by written request and payment therefor.

Section 15. If a utility lists and identifies a proposed utility facility in its plan, submitted pursuant to section 14 of this act, as one on which construction is proposed to be commenced within the five (5) year period next proceeding submission of the plan, the department shall commence examination and evaluation of the site to determine whether construction of the proposed facility would unduly impair the environmental values in section 16 of this act. This study may be continued until such time as a utility files an application for a certificate under section 6 of this act. Information gathered under this section may be used to support findings and recommendations required for issuance of a certificate.

Section 16. In evaluating long-range plans, conducting five-year site reviews, and evaluating applications for certificates of site and facility, the board and department shall give consideration to the following list of environmental factors and may, by regulation, add to the categories of this section:

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 75-5903, R.C.M. 1947, is amended to read as follows:

"75-5903. **Request and determination of number of high school district additional trustee positions.** As provided in subsection (2) (b) of section 75-5902, each high school district, except a high school district operating a county high school, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without representation on the high school district trustees under the provisions of subsection (2) (a) of section 75-5902, request the establishment of such additional trustee positions.

A request for additional trustee positions shall be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure:

(1) The taxable valuation of the elementary district which has its trustees placed on the high school trustees shall be divided by the number of positions on the trustees of such elementary district to determine the taxable valuation per trustee position.

HeinOnline -- 1973 vol. I 634 1973

(2) The taxable valuation used for the calculation in subsection (1) above shall be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(3) The taxable valuation determined in subsection (2) above shall be divided by the taxable valuation per trustee position calculated in subsection (1) above. The resulting quotient shall be rounded off to the nearest whole number.

The number determined in subsection (3) above shall be the number of additional trustee positions except that the number of additional trustee positions shall not exceed four (4) in a first or second class high school district or two (2) in a third class high school district *except* when two-thirds (⅔) or more of the high school enrollment of the high school district and two-thirds (2/3) or more of the taxable valuation of the high school district *are* located outside of the elementary district which has its trustees placed on the high school district trustees. *When this situation exists, three (3) additional trustees shall be elected from the elementary school districts where the high school is not located and one (1) additional trustee shall be elected at large in the high school district."*

"16-4204. **Notice of hearing—publication—posting.** *The commissioners by resolution shall fix a time for a* hearing *upon said petition at not less than two (2) nor more than four (4) weeks from the time of presentation thereof. Commissioners shall cause* notice *to* be posted in three (3) public places within the district, and where the district is partly in one county and partly in another county, notice must be posted in each county, but not in three (3) places in each county. *The notice shall state that any qualified elector within the boundaries of the proposed district in which the proposed district is situated may appear before the board at the time of hearing and show cause why the district should not be created, or may file his written objection to creation of the district at any time before the date of said hearing. The commissioners shall also cause notice to be given of the time and place of the hearing and methods of objection by publication* in a newspaper within or nearest the district, and if the district is partly in one (1) county and partly in another county, in a newspaper in each county, if such newspaper exists. *The* publication must be for two (2) weekly issues. *Posting* and first publication shall be at least ten (10) days before the hearing. Section 4. Section 16-4205, R.C.M. 1947, is amended to read as follows:

"16-4205. *Hearing—objections* **to district—creation of district.** *At the time fixed for said hearing, the commissioners shall determine whether or not the petition complies with the requirements hereinbefore set forth, and whether or not the notice required herein has been published and posted as required. At such hearing, the board must hear all competent and relevant testimony offered in support of or in opposition to said petition and creation of said district, and shall also consider the written objections to the creation of the district. Said hearing may be adjourned from time to time for determination of facts, but no adjournment shall exceed two (2) weeks in all from and after the date originally noticed and published for the hearing.* At such a hearing or at any time following the first (1st) publication of notice of such hearing, until the time of said hearing, any *qualified elector* may file his written objections to the creation of the district. Such objections shall be delivered to the county clerk, who shall endorse thereon the date of its receipt by him. Upon such hearing, if the commissioners *determine there has been compliance with all of the requirements herein set forth,* they shall by an order, duly made and entered on their minutes, declare the district created, setting forth the name and boundaries of the district and the description of land contained therein, *except, where, at the time of the hearing, the commissioners find that a geographical area desires exclusion from the area contained within the boundaries of the proposed district, the hearing may be adjourned to permit the commissioners to consult the department of health and environmental sciences to determine if it would be advisable to exclude the geographical area from the district. Upon reconvening, the commissioners shall define and establish such boundaries as are advisable.* Provided,

(1) that if fifty-one per cent (51%) or more of the *qualified electors* within the *boundaries of the* proposed district file their written objections to the creation of such district, the commissioners shall not proceed with the creation of such district*;*

(2) or, if, as the result of objections filed, the commissioners, in their discretion, determine the question in doubt whether or not the creation of a district is to the best interest of an area and the residents therein, the commissioners may cause the issue to be determined by referendum at the next regular election.

Before setting a time for hearing, the commissioners may cause a survey and study of the area sought to be included in such district to be made by competent personnel and may submit a report thereof to the *department of health and environmental sciences* for its review and recommendations."

HeinOnline -- 1973 vol. I 643 1973

Section 5. Section 16-4206, R.C.M. 1947, is amended to read as follows:

"16-4206. **Enlargement of districts — petitions — objections.** Any such district at any time subsequent to its creation may be enlarged to include adjacent land upon the presentation to the board of county commissioners of a petition signed by the *not less than* twenty-five per cent (25%) of the *owners of any property* lying within the *boundaries of the* area proposed to be annexed to the district *and whose names appear as such property owners upon the last completed assessment role of the county in which the said proposed area is situated.* If any such petition for enlargement of an existing district is presented, the board of county commissioners shall set a time for hearing thereon and shall cause notice thereof to be given in the manner provided by section 16-4204. If, upon such hearing, the commissioners believe it to be to the best interests of the area and those resident therein that such area be annexed to the district, they shall by an order duly made and entered on their minutes, declare the area in question to be annexed to the district, and such annexed area shall thenceforth be considered a part of such district for all purposes as thereof originally included therein. If fifty-one per cent (51%) or more *of the qualified electors of* the area proposed to be annexed to the district *file their objection to the creation of such district,* the commissioners shall not act on such petition. *If such additional area is added, such territory shall be subject to the tax authorized by this act together with the preexisting area of the district. Such tax shall be uniform for the area added and the territory in the district as enlarged.*"

Section 6. Section 16-4207, R.C.M. 1947, is amended to read as follows:

"16-4207. **Mosquito control board—members—term—per diem.** Upon the creation of any mosquito control district, the commissioners shall appoint a mosquito control board composed of not less than three (3) nor more than five (5) members, each of whom shall be *resident freeholder* within *the boundaries of* the district *and whose name appears as such property owner upon the last completed assessment role of the county in which said district is situated.* The terms of office for the first appointed members shall be so arranged that they do not all expire at the same time, and for that purpose may be set for any length of time not more than three (3) years. Thereafter the terms of all members shall be three (3) years, the term of one (1) member expiring on the first (1st) day of July in each year. *The* board shall be a body corporate and shall act as such, and *the* members shall be public officers and they shall organize each year by choosing a chairman who shall be from among the appointed members, and a secretary. All such

board members shall serve without pay, except that the appointed members shall receive per diem *as allowed by state law* for each day when the board is actually in session and their necessary mileage as provided by law. The health officer having jurisdiction in the proposed district, sanitarian or a member of his staff, and the county extension agent, if the county has any, or all such officers, shall be ex officio members of such board without vote."

Section 7. Section 16-4209, R.C.M. 1947, is amended to read as follows:

"16-4209. *Department of health and environmental sciences*—**duties.**

(1) It shall be the duty of *the department of health and environmental sciences* to advise the commissioners of any county relative to the creation of mosquito control districts within such county and upon request to advise the boards of such districts in connection with their control programs.

(2) Annually on or before the first (1st) day of February, the board of each district shall submit to the department of health *and environmental sciences and the department of agriculture* for *their* review and advice a written report of its operations for the preceding year and a written plan covering its control program for the ensuing year."

Section 8. Section 16-4211, R.C.M. 1947, is amended to read as follows:

"16-4211. **Dissolution of mosquito control district—hearing—notice—unexpended funds.** A mosquito control district may be dissolved upon presentation to the board of county commissioners of a petition signed by at least fifty-one per cent (51%) of the *qualified electors.* Upon the filing of such petition, the board of county commissioners shall set a time for hearing the same and shall cause notice thereof to be posted in at least three (3) public places within said district and to be published at least once in the official newspaper of the county, published in *the* district, such posting and publication to be at least ten (10) days before said date of hearing. If the district is partly in one (1) county and partly in another county, notice must be posted in each county but not three (3) *places* in each county, and notice must be published in the official newspaper of each county. If upon such hearing, the commissioners find such petition to be sufficient *and that the district is not indebted in any amount beyond the funds immediately available to extinguish all of its debts and obligations,* and that there is good reason for the dissolution of such district, the commissioners shall enter upon their minutes an order dissolving such

district. The effective date of such dissolution shall be set by the commissioners at such time within the fiscal year as best conforms with the operations of the county budget *providing that before the dissolution shall be effective for all purposes, the mosquito control board of the district shall certify to the commissioners that all debts and obligations of the district have been paid, discharged, or irrevocably settled together with legal proof thereof.* Any funds unexpended at the dissolution of a district shall be paid over into the county general fund, and where the district is partly in one (1) county and partly in another county, the funds shall be apportioned between the counties and such apportionment shall be based on the taxable value of *the property* which is within the district. Physical assets may be liquidated as provided for in section 16-1009, and where the district is partly in one (1) county and partly in another county, the proceeds of the sale of physical assets will be apportioned in like manner as the liquid assets.''

Provided further that any investigation, inquiry or hearing which the board has power to undertake or to hold, under the provisions of this act, may be undertaken or held by or before any member of the board, or by and before any agent or examiner of the board designated for the purpose by the board, and every finding, order, or decision made by a member of the board, or agent or examiner of the board so designated, together with a statement in writing of the reasons therefor which statement must be included in such finding, or order or decision, pursuant to such investigation, inquiry or hearing, when approved and confirmed by the board and ordered filed in its office, shall be, and be deemed to be the finding, order or decision of the board; provided also, that any agent or examiner of the board designated as aforesaid, shall have power to administer oaths, examine witnesses and receive evidence."

CHAPTER NO. 341

An Act Amending Section 40-3011, R.C.M. 1947, Relating to Standard Valuation Law in Life Insurance; Amending Section 40-3831, R.C.M. 1947, Relating to Standard Nonforfeiture Law in Life Insurance; Providing for Adoption of Annuity Mortality Tables and Permissible Interest Rates in Valuation of Annuity and Insurance Contracts; and Providing for an Effective Date.

HeinOnline -- 1973 vol. I 651 1973

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 40-3011, R.C.M. 1947, is amended to read as follows:

"40-3011. **Standard valuation law—life insurance.** (1) The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurer doing business in this state, and may certify the amount of any such reserves, specifying the mortality table or tables, rate or rates of interest and methods (net level premium method or other) used in the calculation of such reserves. In calculating such reserves, he may use group methods and approximate averages for fractions of a year or otherwise. In the case of an alien insurer, such valuation shall be limited to its insurance transactions in the United States. For the purpose of making such valuation the commissioner may employ a competent actuary who shall be paid by the insurer for which the service is rendered; but a domestic insurer may make such valuation and it may be received by the commissioner upon satisfactory proof of its correctness. In lieu of the valuation of the reserves herein required of any foreign or alien insurer, the commissioner may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided and if the official of such state or jurisdiction accepts as sufficient and valid for all legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction.

Any insurer which at any time shall have adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided.

(2) This subsection shall apply to only those policies and contracts issued prior to the operative date of section 40-3831 (the standard nonforfeiture law).

Except as otherwise provided in (3)(a)(vii)(A) of this section for group annuity and pure endowment contracts, the minimum standard of valuation on all policies of domestic life insurers issued prior to January 1, 1922, shall be the American experience

HeinOnline -- 1973 vol. I 652 1973

table of mortality and interest at three and one-half per cent (3½%) per annum, with preliminary term insurance for the first policy year, and for policies of such insurers issued subsequent to December 31, 1921, shall be the American experience table of mortality with interest at three and one-half per cent (3½%) per annum, with preliminary term insurance for the first policy year, except as follows: If the premium charged for term insurance under a limited payment life preliminary term policy providing for the payment of all premiums thereon in less than twenty (20) years from the date of the policy, or under an endowment preliminary term policy, exceeds that charged for life insurance under twenty (20) payment life preliminary term policies of the same insurer, the reserve thereon at the end of any year, including the first, shall not be less than the reserve on a twenty (20) payment life preliminary term policy issued in the same year and at the same age, together with an amount which shall be equivalent to the accumulation of a net level premium reserve sufficient to provide for a pure endowment at the end of the premium payment period equal to the difference between the value at the end of such period of such a twenty (20) payment life perliminary term policy and the full net level premium reserve at such time of such a limited payment life or endowment policy.

Reserves for all such policies and contracts may be calculated, at the option of the insurer, according to any standards which produce greater aggregate reserves for all such policies and contracts than the minimum reserves required by this subsection.

(3) This subsection shall apply to only those policies and contracts issued on or after the operative date of section 40-3831 (the standard nonforfeiture law), *except as otherwise provided in (3)(a)(vii)(A) of this section for group annuity and pure endowment contracts issued prior to such operative date.*

(a) *Except as otherwise provided in (3)(a)(vii)(A) of this section, the* minimum standard for the valuation of all such policies and contracts shall be the commissioner's reserve valuation method defined in subdivision (b), three and one-half per cent (3½%) interest, *or in the case of policies and contracts, other than annuity and pure endowment contracts, issued on or after the effective date of this amendatory act of 1973 and prior to January 1, 1986, four per cent (4%) interest,* and the following tables:

(i) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such policies—the commissioner's 1941 standard ordinary mortality table for such policies issued prior to the operative date of subsection (8-a) of section 40-3831 (the standard nofor-

feiture law) as amended, and the commissioner's 1958 standard ordinary mortality table for such policies issued on or after such operative date; except, that for any category of such policies issued on female risks, modified net premiums and present values, referred to in subdivision (b), may be calculated, at the option of the insurer with the approval of the commissioner, according to an age younger than the actual age of the insured.

(ii) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in such policies,—the 1941 standard industrial mortality table for such policies issued prior to the operative date of subsection (8-b) of section 40-3831 (the standard nonforfeiture law) as amended, and the commissioner's 1961 standard industrial mortality table for such policies issued on or after such operative date.

(iii) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies—the 1937 standard annuity mortality table or, at the option of the insurer, the annuity mortality table for 1949, ultimate, or any modification of either of these tables approved by the commissioner.

(iv) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies—the group annuity mortality table for 1951, any modification of such table approved by the commissioner, or, at the option of the insurer, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts.

(v) For total and permanent disability benefits in or supplementary to ordinary policies or contracts—for policies or contracts issued on or after January 1, 1966, the tables of period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 disability study of the society of actuaries, with due regard to the type of benefit; for policies or contracts issued on or after January 1, 1961, and prior to January 1, 1966, either such tables or, at the option of the insurer, the class (3) disability table (1926); and for policies issued prior to January 1, 1961, the class (3) disability table (1926). Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(vi) For accidental death benefits in or supplementary to policies—for policies issued on or after January 1, 1966, the 1959 accidental death benefits table; for policies issued on or after January 1, 1961, and prior to January 1, 1966, either such table or, at the option of the insurer, the intercompany double indemnity mortality table; and for policies issued prior to January 1,

1961, the intercompany double indemnity mortality table. Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(vii) For group life insurance, life insurance issued on the substandard basis and other special benefits—such tables as may be approved by the commissioner.

(A) The minimum standard for the valuation of all individual annuity and pure endowment contracts issued on the effective date of this subsection, as defined herein, and for all annuities and pure endowments purchased on or after such operative date under group annuity and pure endowment contracts, shall be the commissioner's reserve valuation method defined in (3) (b) of this section and the following tables and interest rates:

(I) For individual annuity and pure endowment contracts issued prior to January 1, 1986, excluding any disability and accidental death benefits in such contracts, the 1971 individual annuity mortality table, or any modification of this table approved by the commissioner, and six per cent (6%) interest for single premium immediate annuity contracts, and four per cent (4%) interest for all other individual annuity and pure endowment contracts.

(II) For individual annuity and pure endowment contracts issued on or after January 1, 1986, excluding any disability and accidental death benefits in such contracts, the 1971 individual annuity mortality table, or any modification of the table approved by the commissioner, and three and one-half per cent (3½%) interest.

(III) For all annuities and pure endowments purchased prior to January 1, 1986, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under such contracts, the 1971 group annuity mortality table, or any modification of the table approved by the commissioner, and six per cent (6%) interest.

(IV) For all annuities and pure endowments purchased on or after January 1, 1986, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under such contracts, the 1971 group annuity mortality table, or any modification of this table approved by the commissioner, and three and one-half per cent (3½%) interest.

After the effective date of this amendatory act of 1973, any insurer may file with the commissioner a written notice of its election to comply with the provisions of the subsection (A) after a specified date before January 1, 1979, which shall be the operative date of the subparagraph for such insurer provided an insurer

HeinOnline -- 1973 vol. I 655 1973

may elect a different operative date for individual annuity and pure endowment contracts from that elected for group annuity and pure endowment contracts. If an insurer makes no such election, the operative date of this subparagraph for such insurer shall be January 1, 1979.

(b) Reserves according to the commissioner's reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (A) over (B), as follows:

(A) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due; provided, however, that such net level annual premium shall not exceed the net level annual premium on the nineteen year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(B) A net one year term premium for such benefits provided for in the first policy year.

Reserves according to the commissioner's reserve valuation method for (i) life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums, (ii) annuity and pure endowment contracts, (iii) disability and accidental death benefits in all policies and contracts, and (iv) all other benefits, except life insurance and endowment benefits in life insurance policies, shall be calculated by a method consistent with the principles of this subdivision (b), except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums.

(c) In no event shall an insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, be less than the aggregate reserves calculated in accordance with the method set forth in subdivision (b) and the

HeinOnline -- 1973 vol. I 656 1973

mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(d) Reserves for any category of policies, contracts or benefits as established by the commissioner, may be calculated at the option of the insurer according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided. but the rate or rates of interest used shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for therein. Provided, however, that reserves for participating life insurance policies may, with the consent of the commissioner, be calculated according to a rate of interest [lower than the rate of interest] used in calculating the nonforfeiture benefits in such policies, with the further proviso that if such lower rate differs from the rate used in the calculation of the nonferfeiture benefits by more than one-half per cent (½%) the insurer issuing such policies shall file with the commissioner a plan providing for such equitable increases, if any, in the cash surrender values and nonforfeiture benefits in such policies as the commissioner shall approve.

(e) Deficiency reserves. If the gross premium charged by any life insurer on any policy or contract is less than the net premium for the policy or contract according to the mortality table, rate of interest and method used in calculating the reserve thereon, there shall be maintained on such policy or contract a deficiency reserve in addition to all other reserves required by law. For each such policy or contract the deficiency reserve shall be the present value, according to such standard, of an annuity of the difference between such net premium and the premium charged for such policy or contract, running for the remainder of the premium-paying period."

Section 2. Section 40-3831, R.C.M. 1947, is amended to read as follows:

"40-3831. **Standard nonforfeiture law—life insurance.** (1) This section shall be known as the standard nonforfeiture law.

(2) Nonforfeiture provisions—Life: In the case of policies issued on or after the operative date of this section as defined in subsection (11) of this section, no policy of life insurance, except as set forth in subsection (10) of this section, shall be delivered or issued for delivery in this state unless it shall contain in substance the following provisions, or corresponding provisions which in the opinion of the commissioner are at least as favorable to the defaulting or surrendering policyholder:

HeinOnline -- 1973 vol. I 657 1973

(a) That in the event of default in any premium payment, after premiums have been paid for at least one full year, the insurer will grant, upon proper request not later than sixty (60) days after the due date of the premium in default, a paid-up nonforfeiture benefit, a cash surrender value of such amount as as of such due date of such value as may be hereinafter specified.

(b) That upon surrender of the policy within sixty (60) days after the due date of any premium payment in default after premiums have been paid for at least three (3) full years in the case of ordinary insurance, and five (5) full years in the case of industrial insurance, the insurer will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of such amount as may be hereinafter specified.

(c) That a specified paid-up nonforfeiture benefit shall become effective as specified in the policy unless the person entitled to make such election elects another available option not later than sixty (60) days after the due date of the premium in default.

(d) That if the policy shall have become paid up by completion of all premium payments, or if it is continued under any paid-up nonforfeiture benefit which became effective on or after the third policy anniversary in the case of ordinary insurance, or the fifth policy anniversary in the case of industrial insurance, the insurer will pay, upon surrender of the policy within thirty (30) days after any policy anniversary, a cash surrender value of such amount as may be hereinafter specified.

(e) A statement of the mortality table and interest rate used in calculating the cash surrender values and the paid-up nonforfeiture benefits available under the policy, together with a table showing the cash surrender value, if any, and paid-up nonforfeiture benefit, if any, available under the policy on each policy anniversary, either during the first twenty (20) policy years or during the term of the policy, whichever is shorter, such values and benefits to be calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the insurer on the policy.

(f) A statement that the cash surrender values and the paid-up nonforfeiture benefits available under the policy are not less than the minimum values and benefits required by or pursuant to the insurance law of this state; an explanation of the manner in which the cash surrender values and the paid-up nonforfeture benefits are altered by the existence of any paid-up additions credited to the policy or any indebtedness to the insurer on the policy; if a detailed statement of the method of computa-

HeinOnline -- 1973 vol. I 658 1973

tion of the values and benefits shown in the policy is not stated therein, a statement that such method of computation has been filed with the insurance supervisory official of the state in which the policy is delivered; and a statement of the method to be used in calculating the cash surrender value and paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy.

(3) Any of the provisions or portions thereof set forth in subdivisions (a) through (f) of the foregoing subsection (2) which are not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy. The insurer shall reserve the right to defer the payment of any cash surrender value for a period of six (6) months after demand therefor with surrender of the policy.

(4) Cash surrender value—life: Any cash surrender value available under the policy in the event of default in the premium payment due on any policy anniversary, whether or not required by subsection (2) of this section, shall be an amount not less than the excess, if any, of the present value on such anniversary of the future guaranteed benefits which would have been provided for by the policy, including any existing paid-up additions if there had been no default, over the sum of:

(a) The then present value of the adjusted premiums as defined in subsections (6), (7), (7-a), (8), (8-a) and (8-b) of this section, corresponding to premiums which would have fallen due on and after such anniversary, and

(b) The amount of any indebtedness to the insurer on account of or secured by the policy. Any cash surrender value available within thirty (30) days after any policy anniversary under any policy paid up by completion of all premium payments, or any policy continued under any paid-up nonforfeiture benefits, whether or not required by such subsection (2), shall be an amount not less than the present value, on such anniversary, of the future guaranteed benefits provided for by the policy, including any existing paid-up additions, decreased by any indebtedness to the insurer on account of or secured by the policy.

(5) Paid-up nonforfeiture benefit—Life: Any paid-up nonforfeiture benefit available under the policy in the event of default in the premium payment due on any policy anniversary shall be such that its present value as of such anniversary shall be at least equal to the cash surrender value then provided for by the policy, or, if none is provided for, that cash surrender value which would have been required by this section in the ab-

HeinOnline -- 1973 vol. I 659 1973

sence of the conditions that premiums shall have been paid for at least a specified period.

(6) The adjusted premium—Life: Except as provided in subsection (7-a), the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a substandard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of:

(a) The then present value of the future guaranteed benefits provided for by the policy;

(b) Two per cent (2%) of the amount of the insurance if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with the duration of the policy;

(c) Forty per cent (40%) of the adjusted premium for the first policy year;

(d) Twenty-five per cent (25%) of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less, provided, however, that in applying the percentages specified in subdivisions (c) and (d) above, no adjusted premiums shall be deemed to exceed four per cent of the amount of insurance or uniform amount equivalent thereto. Whenever the plan or term of a policy has been changed, either by request of the insured or automatically in accordance with the provisions of the policy, the date of inception of the changed policy for the purposes of determining a nonforfeiture benefit or cash surrender value shall be the date as of which the age of the insured is determined for the purposes of the changed policy. The date of issue of a policy for the purposes of this subsection shall be the date as of which the rated age of the insured is determined.

(7) In the case of a policy providing an amount of insurance varying with the duration of the policy, the equivalent uniform amount thereof for the purpose of the preceding subsection (6) shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy, provided, however, that in

HeinOnline -- 1973 vol. I 660 1973

the case of a policy for a varying amount of insurance issued on the life of a child under age ten (10), the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age ten were the amount provided by such policy at age ten (10).

(7-a) The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision shall be equal to (i) the adjusted premiums for an otherwise similar policy issued at the same age without such term insurance benefits, increased during the period for which premums for such term insurance benefits are payable, by (ii) the adjusted premiums for such term insurance, the foregoing items (i) and (ii) being calculated separately and as specified in subsections (6) and (7) except that, for the purposes of (b), (c), and (d) of subsection (6), the amount of insurance or equivalent uniform amount of insurance used in the calculation of the adjusted premiums referred to in (ii) shall be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in (i).

(8) Except as otherwise provided in subsections (8-a) and (8-b), all adjusted premiums and present values referred to in this section shall for all policies of ordinary insurance be calculated on the basis of the commissioner's 1941 standard ordinary mortality table, provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated, at the option of the insurer with approval of the commissioner, according to an age younger than the actual age of the insured and such calculations for all policies of industrial insurance shall be made on the basis of the 1941 standard industrial mortality table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half per cent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty per cent (130%) of the rates of mortality according to such applicable table, provided further that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

(8-a) In the case of ordinary policies issued on or after the operative date of this subsection (8-a) as defined herein, all ad-

justed premiums and present values referred to in this section shall be calculated on the basis of the commissioner's 1958 standard ordinary mortality table and the rate of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, *provided that such rate of interest shall not exceed three and one-half per cent (3½%) per annum except that a rate of interest not exceeding four per cent (4%) per annum may be used for policies issued on or after the effective date of this amendatory act of 1973 and prior to January 1, 1986, and* provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the commissioner's 1958 extended term insurance table. Provided, further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

After the effective date of this subsection (8-a), any insurer may file with the commissioner a written notice of its election to comply with the provisions of this subsection after a specified date before January first, nineteen hundred and sixty-six. After the filing of such notice, then upon such specified date (which shall be the operative date of this subsection for such insurer), this subsection shall become operative with respect to the ordinary policies thereafter issued by such insurer. If an insurer makes no such election, the operative date of this subsection for such insurer shall be January first, nineteen hundred and sixty-six.

(8-b) In the case of industrial policies issued on or after the operative date of this subsection (8-b) as defined herein, all adjusted premiums and present values referred to in this section shall be calculated on the basis of commissioners 1961 standard industrial mortality table and the rate of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits *provided that such rate of interest shall not exceed three and one-half per cent (3 1/2) per annum except that a rate of interest not exceeding four per cent (4%) per annum may be used for policies issued on or after the effective date of this amendatory act of 1973 and prior to January 1, 1986.* Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not

more than those shown in the commissioners 1961 industrial extended term insurance table. Provided, further, that for insurance issued on a substandard basis the calculations of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

After the effective date of this subsection (8-b), any insurer may file with the commissioner a written notice of its election to comply with the provisions of this subsection after a specified date before January first, nineteen hundred and sixty-eight. After the filing of such notice, then upon such specified date (which shall be the operative date of this subsection for such insurer), this subsection shall become operative with respect to the industrial policies thereafter issued by such insurer. If an insurer makes no such election, the operative date of this subsection for such insurer shall be January first, nineteen hundred and sixty-eight.

(9) Calculation of values—Life: Any cash surrender value and any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in subsections (4), (5), (6), (7), (7-a), (8), (8-a) and (8-b) of this section may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the dividends used to provide such additions. Notwithtsanding the provisions of subsection (4) of this section, additional benefits payable:

(a) In the event of death or dismemberment by accident or accidental means,

(b) In the event of total and permanent disability,

(c) As reversionary annuity or deferred reversionary annuity benefits,

(d) As term insurance benefits provided by a rider or supplemental policy provision to which, if issued as a separate policy, this section would not apply,

(e) As term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if such term insurance expires before the child's age is twenty-six, is uniform in amount after the child's age is one, and

HeinOnline -- 1973 vol. I 663 1973

has not become paid up by reason of the death of a parent of the child, and

(f) As other policy benefits additional to life insurance and endowment benefits, and premiums for all such additional benefits,

Shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by this section, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits.

(10) Exceptions. This section shall not apply to any reinsurance, group insurance, pure endowment, annuity or reversionary annuity contract, nor to any term policy of uniform amount, or renewal thereof, of fifteen (15) years or less expiring before age 66 for which uniform premiums are payable during the entire term of the policy, nor to any term policy of decreasing amount on which each adjusted premium, calculated as specified in subsections (6), (7), (7-a), (8), (8-a), and (8-b) of this section is less than the adjusted premiums so calculated on a policy issued at the same age and for the same initial amount of insurance for a term defined as follows: For ages at issue fifty (50) and under, the term shall be fifteen (15) years; thereafter, the term shall decrease one (1) year for each year of age beyond fifty (50).

(11) Operative date. After the effective date of the act by which this section was originally enacted, any insurer could have filed with the state auditor a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1948, with respect to the policies specified in the notice. After the filing of such notice, then upon such specified date (which shall be the operative date for such insurer with respect to such policies), this section shall have become operative with respect to the policies specified in such notice thereafter issued by such insurer. As to all of its policies and contracts with respect to which an insurer makes no such election, the operative date of this section with respect to such policies and contracts for such insurer is January 1, 1948."

Section 3. This act is effective on its passage and approval.

Notice may consist of a notice to all stockholders, or may be in the form of an announcement at the meeting at which such delegates or alternates are elected.

(f) A quorum at a regular or special meeting shall be as provided in the associations articles or bylaws. If the articles or bylaws do not define a quorum, ten percent (10%) of the first one hundred (100) stockholders plus five percent (5%) of any additional stock-

HeinOnline -- 1973 vol. I 665 1973

holders, present in person, shall constitute a quorum. Stockholders represented by signed vote may be counted in computing a quorum only on those questions as to which the signed vote is taken."

Section 2. Section 14-216, R.C.M. 1947, is amended to read as follows:

"14-216. *Merger or consolidation* **of co-operative associations.** It shall be lawful for two *(2)* or more co-operative associations formed, or which may be hereafter formed under the laws of the state of Montana, *to merge or consolidate with each other, or with one or more associations incorporated under the laws of another state or states relating to organization of cooperative associations, by complying with the provisions of chapter 2 of title 14, R.C.M. 1947, or with the applicable laws of the state where the surviving or new association has its principal place of business.*

(1) Plan for merger or consolidation. Before an association may merge or consolidate with any other association, a written plan of merger or consolidation shall be prepared by the board of directors of one or both associations, by a committee appointed for that purpose by the board of directors of one or both associations, or by a committee composed of at least ten percent (10%) of the stockholders of one of the associations concerned. Such plan shall set forth all the terms of the merger or consolidation, and the proposed effect thereof on each of the stockholders of the associations concerned. In the case of consolidation the plan shall also contain a copy of the proposed articles for the new association to be formed.

(2) Notice. Notice of the proposed plan, and in the case of consolidation, of the proposed new articles, shall be mailed to each stockholder of the associations to be affected thereby.

(3) Meeting of association. The notice shall advise the stockholders of each association of the time and place each association shall meet, at which time the proposal shall be considered and voted upon by each association. The meetings shall be held not less than thirty (30) or more than sixty (60) days after the mailing of notice. The plan shall be considered adopted if a quorum is present and two-thirds (2/3) of those voting vote in its favor.

(4) Effective date of merger or consolidation. Within thirty (30) days after the merger or consolidation plan has been adopted, documents of merger or consolidation setting forth the plan and the manner of adoption thereof shall be signed and acknowledged by the president or vice-president, and by the secretary or assistant secretary of each association merging or consolidating, and filed with the clerk and recorder of the county in which the principal office of the new or surviving association is located if the office is

HeinOnline -- 1973 vol. I 666 1973

in Montana, and with the Montana secretary of state. If the new or surviving association has its principal office in Montana, the merger or consolidation shall become effective as of the date of filing with the Montana secretary of state; if its principal office is outside the state of Montana, the merger or consolidation shall become effective upon full compliance with the laws of the state in which its principal office is located. If there is a merger, the articles and bylaws of the surviving association are amended to the extent provided in the documents setting forth the plan of merger.

(5) Sale or disposition of assets. At any meeting the stockholders of a cooperative association may authorize the disposition or sale of all or substantially all of the association's assets, if notice that such disposition or sale will be considered at such meeting has been given to all persons entitled to vote thereon, and if disposition or sale is approved by two-thirds (2/3) of those entitled to vote thereon voting at the meeting.

(6) Rights and duties of new or surviving association. After the effective date, the associations which are parties to the plan become a single association. In the case of a merger, the surviving association is that association so designated in the plan. In the case of a consolidation, the new association is the association provided for in the plan. The separate existence of all associations which are parties to the plan, except the surviving or new association, then ceases.

The surviving or new association possesses all the rights and all the property of each of the individual associations, and is responsible for all their obligations. Title to any property is vested in the surviving or new association with no reversion or impairment thereof caused by the merger or consolidation. No right of any creditor may be impaired by the merger or consolidation without his consent.

(7) Statute of limitations. No action may be maintained to invalidate any sale, merger or consolidation taken pursuant to this chapter because of the manner of its adoption, unless the action is commenced within two (2) years after the date of filing same."

Section 3. Sections 14-217, 14-218 and 14-220, R.C.M. 1947, are repealed.

Section 4. This act is effective on its passage and approval.

Approved: March 15, 1973.

The estimated increase in average number belonging shall be established by the trustees and the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction no later than the fourth Monday in June;

(4) the district is conducting, or will conduct during the ensuing school fiscal year, a special education class or program. (5) a district anticipates an unusual enrollment increase in the ensuing school fiscal year. The increase in average number belonging shall be based on estimates of increased enrollment approved by the superintendent of public instruction and shall be computed in the manner prescribed by section 75-6904.

(6) For the initial year of operation of a program established under section 75-7507 (1), the ANB to be used for budget purposes is the same as one-half (1/2) the number of five (5) year old children residing in the district as of October 1 of the preceding school year, either as shown on the official school census, or as determined by some other procedure approved by the superintendent of public instruction."

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 75-6912, R.C.M. 1947, is amended to read as follows:

"75-6912. **Basic county tax and other revenues for county equalization of the elementary district foundation program.** It shall be the duty of the county commissioners of each county to levy an annual basic tax of twenty-five (25) mills on the dollars of the taxable value of all taxable property within the county *for the purposes of local and state foundation program support. The revenue to be collected from this levy shall be apportioned to the*

support of the foundation programs of the elementary school districts in the county and to the earmarked revenue fund, state equalization aid account, in the following manner: In order to determine the amount of revenue raised by this levy which is retained by the county, the sum of the estimated revenues identified in subsections (1) through (6) below shall be subtracted from the sum of the county elementary transportation obligation and the total of the foundation programs of all elementary districts of the county. If *the* basic levy of twenty-five (25) mills, *produces more revenue than is required* to finance the difference determined above, the county commissioners shall *order the county treasurer to remit the surplus funds to the state treasurer for deposit to the earmarked revenue fund, state equalization aid account, not later than June 1 of the fiscal year for which the levy has been set.*

The proceeds realized from the *county's portion of the* levy prescribed by this section and the revenues from the following sources shall be used for the equalization of the elementary district foundation programs of the county as prescribed in section 75-6914 and a separate accounting shall be kept of such proceeds and revenues by the county treasurer in accordance with subsection (1) of section 75-6805;

(5) any money remaining at the end of the immediately preceding school fiscal year in the county treasurer's account for the various sources of revenue established or referred to in this section; and

(6) any federal or state moneys distributed to the county as payment in lieu of the property taxation established by the county levy required by this section."

Section 2. Section 75-6913, R.C.M. 1947, is amended to read as follows:

HeinOnline -- 1973 vol. I 689 1973

"75-6913. **Basic special levy and other revenues for county equalization of high school district foundation program.** It shall be the duty of the county commissioners of each county to levy an annual basic special tax for high schools of fifteen (15) mills on the dollar of the taxable value of all taxable property within the county *for the purposes of local and state foundation program support. The revenue to be collected from this levy shall be apportioned to the support of the foundation programs of high school districts in the county and to the earmarked revenue fund, state equalization aid account, in the following manner: In order to determine the amount of revenue raised by this levy which is retained by the county,* the estimated revenues identified in subsections (1) and (2) below shall be subtracted from the sum of the county's high school tuition obligation and the total of the foundation programs of all high school districts of the county. If *the* basic levy for fifteen (15) mills *produces more revenue than is required* to finance the difference determined above, the county commissioners shall *order the county treasurer to remit the surplus to the state treasurer for deposit to the earmarked revenue fund, state equalization aid account, not later than June 1 of the fiscal year for which the levy has been set.*

The proceeds realized from the *county's portion of the* levy prescribed in this section and the revenues from the following sources shall be used for the equalization of the high school district foundation programs of the county as prescribed in section 75-6914, and a separate accounting shall be kept of these proceeds by the county treasurer in accordance with subsection (1) of section 75-6805:

(1) any money remaining at the end of the immediately preceding school fiscal year in the county treasurer's account for deposit of the proceeds from the levy established in this section; and

(2) any federal or state moneys distributed to the county as a payment in lieu of the property taxation established by the county levy required by this section."

Section 3. Section 75-6916, R.C.M. 1947, is amended to read as follows:

"75-6916. **Definition of and revenue for state equalization aid.** There shall be paid into the earmarked revenue fund, for state equalization aid to public schools of the state, twenty-five per cent (25%) of all moneys received from the collection of income taxes under chapter 49 of Title 84, R.C.M. 1947, and twenty-five per cent (25%) of all moneys received from the collection of corporation license taxes under chapter 15 of Title 84, R.C.M. 1947, as provided by section 84-1901, R.C.M. 1947. In

HeinOnline -- 1973 vol. I 690 1973

addition to these revenues, one-half (½) of the moneys received from the treasurer of the United States as the state's shares of oil and gas royalties under the Act of Congress of February 25, 1920 shall be paid into the same earmarked revenue fund. *In addition to these revenues, the surplus revenues collected by the counties for foundation program support according to sections 75-6912 and 75-6913 shall be paid into the same earmarked revenue fund.*

As used in this Title, the term "state equalization aid" shall mean those moneys deposited in the earmarked revenue fund as required in this section plus any legislative appropriation of moneys from other sources for distribution to the public schools for the purpose of equalization of the foundation program."

Section 4. Section 75-6921, R.C.M. 1947, is amended to read as follows:

"75-6921. **Additional** *state* **levy for state deficiency.** If the estimated state equalization level made under the provisions of section 75-6920 is less than one hundred per cent (100%), it shall be the duty of the *director of the department of revenue* to levy, separately for the elementary districts and the high school districts, additional taxes in such number of mills on the taxable value of all taxable property within the *state* as shall be required to complete the financing of the foundation programs of all elementary districts or all high school districts of the *state.*

The state treasurer shall keep a separate accounting of the proceeds realized from these mill levies. The superintendent *of public instruction* shall apportion the proceeds of the mill levies to the elementary districts of the *state* or the high school districts of the *state,* whichever the case may be, on the following basis:

(1) Determine the total amount required from this source of revenue by the several elementary or high school districts of the *state.*

(2) Determine the total amount of moneys available for this source of revenue.

(3) Calculate the percentage the amount determined in subsection (2) is of the amounts determined separtely in subsection (1) for all elementary or all high school districts.

(4) Mutiply each elementary district or each high school district requirement for this source of revenue by the percentage calculated in subsection (3).

When the total amount of the proceeds realized from these mill levies is greater than the requirements of all the elementary

HeinOnline -- 1973 vol. I 691 1973

districts or high school districts of the *state*, whichever the case may be, the excess amount of moneys shall be retained by the *state* for reduction of the ensuing year's additional *state* levy for elementary schools or high schools *or, if there is no additional state levy under this section the excess may be transferred to the state equalization aid account for the reduction of the legislative appropriation.*

The apportionment of *state* moneys under this section shall be known as the "additional *state* levy for state deficiency" and it shall be the last source of revenue in calculating the financing of the elementary district foundation program and the high school district foundation program.

The superintendent *of public instruction* shall compute the budgeted requirement for this source of revenue for each district and shall supply the *total state* requirements for the elementary district foundation programs and the high school district foundation programs to the *director of the department of revenue* on the second Monday of August.

Section 5. Section 75-6922, R.C.M. 1947, is amended to read as follows:

"75-6922. **Permissive levy.** *(1)* Whenever the trustees of any district shall deem it necessary to adopt a general fund budget in excess of the foundation program amount but not in excess of the maximum general fund budget amount for such district as established by the schedule in section 75-6905, the trustees shall adopt a resolution stating the reasons and purposes for exceeding the foundation program amount. The financing of such general fund budget amount shall be known as the "permissive levy," and it shall be financed by a levy on the taxable value of all taxable property within the district as prescribed in section 75-6926, *supplemented with revenue from a levy on all the taxable property in the state.*

(2) The district levies to be set for the purpose of funding the permissive amount are determined as follows:

(a) For each elementary school district, the county commissioners shall annually set a levy not exceeding nine (9) mills on all the taxable property in the district for the purpose of funding the permissive levy requirements of the district. If the amount of revenue raised by this levy is not sufficient to fully fund the district's permissive levy requirements, the amount of the deficiency shall be paid to the district from the earmarked revenue fund, permissive levy account, according to the provisions of subsection (3) of this section.

HeinOnline -- 1973 vol. I 692 1973

(b) For each high school district, the county commissioners shall annually set a levy not exceeding six (6) mills on all taxable property in the district for the purpose of funding the permissive levy requirements of the district. If the amount of revenue raised by this levy is not sufficient to fully fund the district's permissive levy requirements, the amount of the deficiency shall be paid to the district from the earmarked revenue fund, permissive levy account, according to the provisions of subsection (3) of this section.

(3) The director of the department of revenue shall annually set a levy on all the property of the state which will produce enough revenue to fund the permissive levy deficiency of the elementary and high school districts of the state. The proceeds of this levy shall be deposited to the earmarked revenue fund, permissive levy account, and shall be distributed to the elementary and high school districts in accordance with their entitlements as determined by the superintendent of public instruction according to the provisions of subsections (1) and (2) of this section.

Such distribution shall be made in two payments. The first payment shall be made at the same time as the first distribution of state equalization aid is made after January 1 of the fiscal year. The second payment shall be made at the same time as the last payment of state equalization aid is made for the fiscal year. If sufficient revenue is not collected to completely cover the permissive levy requirement of the districts, each district will receive the same percentage of its total requirement. Surplus revenue in the permissive levy account shall be used to reduce the state levy required for the next succeeding fiscal year. Interest earned on investment of permissive levy funds shall be deposited to the earmarked revenue fund, permissive levy account, for distribution during the next succeeding fiscal year."

Section 6. Section 75-6923, R.C.M. 1947, is amended to read as follows:

"75-6923. **Additional levy for general fund and election for authorization to impose.** The trustees of any district may propose to adopt a general fund budget in excess of the general fund budget amount for such district as established by the schedule in section 75-6905 for any of the following purposes:

(1) building, altering, repairing or enlarging any schoolhouse of the district;

(2) furnishing additional school facilities for the district;

(3) acquisition of land for the district;

HeinOnline -- 1973 vol. I 693 1973

(4) proper maintenance and operation of the school programs of the district.

However, the trustees may not adopt a total general fund budget which exceeds one hundred seven per cent (107%) of the general fund budget for the proceding year, unless such budget is adopted under conditions as provided in sections 75-6723 through 75-6730, or under the following conditions:

(a) new programs which are approved under 75-6903 or existing programs which are expanded as a result of ANB increases approved under 75-6903;

(b) federal programs which are continued with local funds if federal funds are withdrawn or withheld.

In subsection (2)(a), above, the budget may exceed 107% of the proceding year's budget by a dollar amount equal to the increase in the maximum budget without a vote resulting from the introduction of the new or expanded program and in subsection (2)(b), above, by a dollar amount not to exceed the amount received from federal sources for the preceding year. Nothing in this act shall prevent a school district from adopting a budget at least as large as the maximum budget without a vote as provided in section 75-6905.

When the trustees of any district determine that an additional amount of financing is required for the general fund budget that is in excess of the statutory schedule amount, the trustees shall submit the proposition of an additional levy to raise such excess amount of general fund financing to the electors who are qualified, under section 75-6410, to vote upon such proposition. Such special election shall be called and conducted in the manner prescribed by this Title for school elections. The ballot for such election shall state the amount of money to be raised by additional property taxation, the approximate number of mills required to raise such money, and the purpose for which such money will be expended, and it shall be in the following format:

PROPOSITION

Shall a levy be made in addition to the levies authorized by law in such number of mills as may be necessary to raise the sum of (state the amount to be raised by additional tax levy), and being approximately (give number) mills, for the purpose of (insert the purpose for which the additional tax levy is made)?

☐ FOR the additional levy.

HeinOnline -- 1973 vol. I 694 1973

☐ AGAINST the additional levy.

If the election on any additional levy for the general fund is approved by a majority vote of those electors voting at such election, the proposition shall carry and the trustees may use any portion or all of the authorized amount in adopting the preliminary general fund budget. The trustees shall certify the additional levy amount authorized by such a special election on the budget form that is submitted to the county superintendent and the county commissioners shall levy such number of mills on the taxable value of all taxable property within the district as prescribed in section 75-6926, as are required to raise the amount of such additional levy.

Authorization to levy an additional tax under the provisions of this section shall be effective for only one school fiscal year and shall be authorized by a special election conducted before the first day of August of the school fiscal year for which it is effective. Only one such additional levy for the maintenance and operation of the school programs of a high school district may be imposed by a high school district in a given school fiscal year."

(2) Any valuable constituents have been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

(3) Its composition or quality falls below or differs from that stated on its label.

(4) It contains a drug and the methods used in or the facilities or controls used for its manufacture, processing or packaging do not conform to current good manufacturing practice rules adopted by the department to assure that the drug meets the requirement of this act as to safety and has the identity and strength and meets the quality and purity characteristics which it is represented to possess. In formulating these rules, the department shall adopt the current good manufacturing practice regulations for medicated feed premixes and for medicated feeds established under the Federal Food, Drug, and Cosmetic Act, unless it determines that they are not appropriate to the conditions which exist in this state.

(5) It contains viable weed seeds in amounts exceeding the limits which the department established by rule.

Section 7. No person may:

(1) manufacture or distribute any commercial feed that is adulterated or misbranded;

(2) adulterate or misbrand a commercial feed;

(3) distribute agricultural commodities such as whole seed,

HeinOnline -- 1973 vol. I 700 1973

hay, straw, stover, silage, cobs, husks, and hulls which are adulterated within the meaning of section 6(1) of this act;

(4) remove or dispose of a commercial feed in violation of an order under section 12 of this act;

(5) fail to register or obtain a permit in accordance with section 3 of this act;

(6) violate section 13(6) of this act;

(7) fail to pay inspection fees and file reports as required by section 8 of this act.

Section 8. (1) An inspection fee shall be paid on all commercial feeds, except "pet foods" and "specialty pet foods" distributed in this state as follows:

(a) The inspection fee shall be set at ten cents ($.10) per ton. However, after May 1975 the department may adjust the fee by rule to adequately fund the administration of this act. Adjustments shall be made only after holding a public hearing on the proposed changes as required in section 10 of this act and shall remain within the limits of five cents ($.5) to twenty-five cents ($.25) per ton. The effective date of any such rule adjusting fees will be January 1 of the calendar year following the issuance of such rule. All permit holders are to be notified immediately of any changes in fees.

(b) The feed manufacturer shall have primary responsibility for paying inspection fees; however, the distributor shall be held responsible for inspection fees if the manufacturer has not paid them.

(c) Inspection fees shall be paid on each commercial feed including feed ingredients that are defined as commercial feeds even though they are used in the manufacture of other commercial feeds. However, premixes prepared and used within a feed plant are exempt but not premixes or ingredients transferred from one plant to another even within the same organization.

(d) A person producing a commercial feed with a feed mixing plant at a feed lot, poultry, swine or dairy operation shall not be required to pay inspection fees on the commercial feeds produced and used in his feeding operation at the site but he will be responsible for any unpaid inspection fees on commercial feed purchased by him and on any commercial feed he produces and distributes other than in his feeding operations at the site.

HeinOnline -- 1973 vol. I 701 1973

(2) Each person who holds a permit as required in section 3(1) of this act shall:

(a) file, not later than February 28 of each year, an anual statement setting forth the number of tons of commercial feeds distributed in this state during the preceding calendar year (January 1 through December 31); and upon filing such a statement shall pay the inspection fee at the rate stated in subsection (1) of this section. Inspection fees which have not been remitted to the department within fifteen (15) days following the due date shall have a penalty fee of ten per cent (10%) with a minimum of ten dollars ($10) added to the amount due. The assessment of this penalty fee does not prevent the department from taking other action as provided in this act;

(b) keep those records which are necessary or are required by the department to indicate accurately the tonnage of commercial feed distributed in this state. The department may examine the records to verify statements of tonnage;

(c) make accurate and prompt reports as required. Failure to do so is sufficient cause for the department to cancel or refuse to reissue a permit.

Section 9. All fees collected for permits, registration and inspection shall be deposited in the state treasury to the credit of the earmarked revenue fund for the purpose of administering this act, including the cost of equipment and facilities and the cost of inspecting, analyzing and examining commercial feeds manufactured or distributed in this state and the cost of developing better analytical methods, means of evaluating the value or the potential toxic qualities of a feed.

Section 10. (1) The department may adopt those rules for commercial feeds and pet foods which are specifically authorized in this act and those other reasonable rules necessary for the efficient enforcement of this act. In the interest of uniformity the department shall adopt unless it determines that they are inconsistent with this act or are not appropriate to conditions which exist in this state:

(a) the official definitions of feed ingredients and official feed terms adopted by the association of American feed control officials and published in this official publication of that organization and,

(b) any rules adopted under the Federal Food, Drug, and Cosmetic Act as long as the department has the authority under this act to adopt that rule.

HeinOnline -- 1973 vol. I 702 1973

(2) In adopting rules the department will follow procedures prescribed in the Montana Administrative Procedure Act.

Section 11. (1) To enforce this act, the department, upon presenting appropriate credentials and a written notice to the owner, operator, or agent in charge may (1) enter, during normal business hours, any factory, warehouse or establishment within the state in which commercial feeds are manufactured, processed, packed or held, or enter any vehicle being used to transport or hold commercial feeds. The department may inspect at reasonable times and within reasonable limits and in reasonable manner any factory, warehouse, establishments or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling found in them. The inspection may include the verification of only those records and production and control procedures necessary to determine compliance with the good manufacturing practice rules adopted under section 6(4) of this act.

(2) A separate notice shall be given for each inspection, but a notice is not required for each entry made during the period covered by the inspection. Each inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

(3) If the officer or employee making the inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises he shall give the owner, operator or agent in charge a receipt describing the sample obtained.

(4) If the owner of a factory, warehouse or establishment described in subsection (1), or his agent, refuses to allow an inspection, the department may obtain from the district court a warrant directing the owner or his agent to allow inspection of the premises described in the warrant.

(5) To enforce this act, the department may enter upon any public or private premises including any vehicle of transport during regular business hours to obtain samples and examine records relating to distribution of commercial feeds.

(6) Sampling and analysis shall be conducted in accordance with methods published by the association of official analytical chemists or with other generally recognized methods.

(7) The results of all analyses of official samples shall be forwarded by the department to the person named on the

HeinOnline -- 1973 vol. I 703 1973

label and to the purchaser. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded and upon request within thirty (30) days following receipt of the analysis the department shall furnish the registrant a portion of the sample.

(8) The department, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in subsection (16) of section 1 and obtained and analyzed as provided for in subsection (3), (5) and (6) of section 11 of this act.

(9) All chemical analyses shall be performed cooperatively by the department and the Montana agricultural experiment station at Montana state university.

Section 12. (1) When the department has reasonable cause to believe any lot of commercial feed is in violation of this act or a rule adopted by the department, it may issue and enforce a written or printed embargo order, requiring the person holding the commercial feed not to dispose of it in any manner until written permission is given by the department or the court. The department shall release the feed when this act and the rules of the department have been complied with. If compliance is not obtained within thirty (30) days, the department may begin or upon the request of the registrant or the person holding the commercial feed shall begin, proceedings for condemnation.

(2) Commercial feed not in compliance with this act or the rules of the department may be seized on complaint of the department to a district court in the area in which the commercial feed is located. If the court finds the commercial feed in violation of this act and orders its condemnation, it shall be disposed of in any manner consistent with the quality of the commercial feed and state law. The disposition of the commercial feed may not be ordered by the court without first giving the owner or person from whom the feed was seized an opportunity to apply to the court for release of the commercial feed or for permission to process or relabel the commercial feed to bring it into compliance with this act.

Section 13. (1) A person who violates this act or who obstructs, prevents or attempts to obstruct or prevent the department in the performance of its duty under this act, is guilty of a misdemeanor and shall be fined not less than one hundred dollars ($100) or more than three hundred dollars ($300) for the first violation, and not less than five hundred dollars ($500)

HeinOnline -- 1973 vol. I 704 1973

nor more than one thousand dollars ($1,000) for a subsequent violation.

(2) Nothing in this act requires the department to prosecute, begin seizure proceedings or issue an embargo order as a result of minor violations or when it believes the public interest will best be served by suitable notice of warning in writing.

(3) A county attorney to whom a violation is reported shall prosecute in a court of competent jurisdiction without delay. Before the department reports a violation for prosecution, an opportunity shall be given the distributor to present his view to the department.

(4) The department may apply for and the court may grant a temporary or permanent injunction restraining any person from violating this act or any rule adopted under this act notwithstanding the existence of other remedies at law. The injunction shall be issued without bond.

(5) Any person adversely affected by an act, order, or ruling made pursuant to the provisions of this act may within thirty (30) days seek judicial review in the district court where the person resides or has his place of business.

(6) A person who uses to his own advantage, or reveals to persons other than officers of the department or to the courts when relevant in a judicial proceeding, any information acquired under this act, concerning any method, records, formulations, or processes which as a trade secret is entitled to protection, is guilty of a misdemeanor and shall be fined not more than three hundred dollars ($300), or imprisoned for not more than one (1) year, or both. However, the department may exchange information of a regulatory nature with the proper officials of the United States government, or of other states, who are similarly prohibited by law from revealing that information.

Section 14. The department may cooperate with and enter into agreements with governmental agencies of this state, other states, agencies of the federal government and private associations in order to carry out this act.

Section 15. The department shall publish at least annually in a form it considers proper, information concerning the sale of commercial feed, data on production and use and the results of analysis of official samples of commercial feeds sold within the state as compared with the analysis guaranteed in the registration and on the label. The information concerning production

HeinOnline -- 1973 vol. I 705 1973

and use of commercial feed shall not disclose the operations of any person.

Section 16. If any clause, sentence, paragraph or part of this act is for any reason judged invalid by a court of competent jurisdiction, that judgment does not affect, impair or invalidate the remainder thereof but is confined in its operation to the clause, sentence, paragraph or part thereof directly involved in the controversy in which the judgment is rendered.

Section 17. Sections 3-2012 through 3-2024, R.C.M. 1947, are repealed.

Section 18. This act shall take effect and be in full force from and after the first day of January 1, 1974, except the department may and is hereby directed to adopt necessary rules as authorized in section 10 of this act as soon as practical so they can become effective January 1, 1974.

CHAPTER NO. 357

An Act Requiring Montana Colleges and Universities to Develop Procedures to Protect a Student's Right to Privacy Concerning His Place of Residence and His College or University Records.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. It is the legislature's intent that an institution of the university system of Montana is obligated to respect a student's right of privacy. This obligation must be observed by establishing procedures to safeguard the institution's activities which are necessary to protect the health, safety and privacy of a person's residence and the privacy of his records. Intrusions by police and other officials exercising responsibility for law enforcement must be governed by standards and procedures no less stringent than those applicable to intrusions on private quarters outside the institutions. Further, a student may not be subjected to discrimination in the manner of covert records.

Section 2. A university or college facility may not require a student to sign any contract which would waive his or her right to privacy and due process of law.

Section 3. An authorized official of the university or college may not enter the room of a student located at such insti-

tution unless he has given the student in writing a notice. An emergency such as a fire or a call for help, or where there is probable cause to believe the occupant needs assistance is the only exception to the written notice requirement. In such an emergency evidence of crime obtained as a result of such emergency entry shall not be admissible in any court of law unless due process of law has been satisfied in obtaining such evidence.

Section 4. A search or entry by any law enforcement official shall be in accordance with the laws of the city, county, state and nation.

Section 5. A university or college shall release a student's academic record only when requested by the student or by a subpoena issued by a court or tribunal of competent jurisdiction. A student's written permission must be obtained before the university or college may release any other kind of record unless such record shall have been subpoenaed by a court or tribunal of competent jurisdiction.

Section 6. Academic records shall be kept separate from disciplinary and all other records. Academic transcripts shall contain only information of academic nature. A student shall have the right to examine all written summaries, descriptions, statements or reports of academic or disciplinary nature which may have been compiled upon him or her.

Approved: March 17, 1973.

(2)(a) The governor shall appoint the members. *A majority of the members shall be appointed to* serve for terms concurrent with the *gubernatorial term,* and until their successors are appointed and qualified. *The remaining members shall be appointed to serve for terms ending on the first day of the third January of the succeeding gubernatorial term, and until their successors are appointed and qualified.* It is the intent of this subsection that the governor appoint a majority of the members of each quasi-judicial board at the beginning of his term, *and* the remaining members in the middle of his term. As used in this subsection, "majority" means the next whole number *greater* than half.

(b) This subsection does not affect the terms of persons who were members of a continued board on the effective date of the chapter of this title continuing the board; upon the expiration of those terms, members shall be appointed and serve in accordance with this subsection.

(3) The appointment of each member is subject to the confirmation of the senate. However, the governor may appoint a member to assume office before the senate meets at its next regular session to consider the appointment. A member so appointed has all the powers of the office upon assuming that office, and is a de jure officer, notwithstanding the fact that the senate has not yet confirmed the appointment. If the senate does not confirm the appointment of a member, the governor shall appoint a new member to serve for the remainder of the term.

(4) A vacancy shall be filled in the same manner as regular

(5) The governor shall designate the chairman. *The chairman may make and second motions and vote.*

(6) Members may be removed by the governor only for cause.

(7) Unless he is a full-time salaried officer or employee of this state *or of a political subdivision of this state, each member is entitled to* be paid twenty-five dollars ($25) for each day in which he is actually and necessarily engaged in the performance of board duties, and *he is* also *entitled to* be reimbursed for actual and necessary expenses incurred while in the performance of board duties. Members who are full-time salaried officers or employees of this state *or of a political subdivision of this state are* not *entitled to* be compensated for their service as members, but *are entitled to* be reimbursed for their *actual and necessary* expenses.

(8) A majority of the membership constitutes a quorum to do business. *A favorable vote of at least a majority of all members of a board is required to adopt any resolution, motion, or other decision, unless otherwise provided by law.''*

Section 13. Section 82A-115, R.C.M. 1947, is amended to read as follows:

"82A-115. **Future** *agencies and* **functions.** If an agency or a function is not allocated or transferred to a department or a constitutional office by this *title* or any other act of the *legislature,* the governor shall, by executive order, allocate that agency *for administrative purposes only* or function to the appropriate principal department or *constitutional office. The governor shall transmit copies of all executive orders issued under this section to the legislature at its next regular session.''*

Section 14. Section 82A-116, R.C.M. 1947, is amended to read as follows:

"82A-116. **Rights of state personnel.** Unless otherwise provided in this act, each state officer or employee affected by the reorganization of the executive *branch* of state government under this *title* is entitled to all rights which he possessed as a state officer or employee before the effective date of the applicable chapter of this *title,* including rights to tenure in office and of rank or grade, rights to vacation and sick pay and leave, rights under any retirement or personnel plan or labor union contract, rights to compensatory time earned, and any other rights under any law or administrative policy. This section is not intended to create any new rights

for any state officer or employee, but to continue only those rights in effect before the effective date of the applicable chapter of this *title or an amendment to this title.*"

Section 15. Section 82A-117, R.C.M. 1947, is amended to read as follows:

"82A-117. **Rights to property.** The department or unit thereof that succeeds to all or part of the functions of an agency under this *title* also succeeds to the rights to all real and personal property of that agency relating to the functions or parts of functions transferred. The property includes real property, records, office equipment, supplies, contracts, books, papers, documents, maps, appropriations, accounts within and without the state treasury, funds, vehicles, and all other similar property. However, the department or unit may not use or divert moneys in a fund or account for a purpose other than provided by law. The governor shall resolve any conflict as to the proper disposition of the property, and his decision is final. This section does not apply to property owned by the federal government."

Section 16. Section 82A-118, R.C.M. 1947, is amended to read as follows:

"82A-118. **Rules, regulations, and orders.** The department or unit thereof that succeeds to all or part of the functions of an agency under this *title* also succeeds to the rules, regulations, and orders of that agency relating to the functions or parts of functions transferred. The rules, regulations, and orders of any agency in effect before the effective date of the *transfer* remain in effect until amended, repealed, superseded, or nullified by proper authority or by law."

Section 17. Section 82A-119, R.C.M. 1947, is amended to read as follows:

82A-119. **Legal proceedings.** *The transfer or abolition of an agency or function under this title* does not affect the validity of any judicial or administrative proceeding pending or which could have been commenced before the effective date of the *transfer or abolition,* and the department or unit which succeeds to the functions of an agency relating to the proceeding shall be substituted as a party in interest."

Section 18. Section 82A-120, R.C.M. 1947, is amended to read as follows:

"82A-120. **Rights and duties under existing transactions.** The rights, privileges, and duties of the holders of bonds and other obligations issued, and of the parties to contracts, leases,

indentures, and other transactions entered into, before the effective date of the *transfer of functions under* this *title,* by the state or by any agency, officer, or employee thereof, and covenants and agreements as set forth therein, remain in effect, and none of those rights, privileges, duties, covenants, or agreements is impaired or diminished by reason of the transfer of the functions of an agency or the abolition of an agency *under* this *title.* The department or unit which succeeds to the functions of an agency is substituted for that agency and succeeds to its rights and duties under the provisions of those bonds, contracts, leases, indentures, and other transactions."

Section 19. Section 82A-121, R.C.M. 1947, is amended to read as follows:

"82A-121. **References.** *Unless inconsistent with this title, if an agency is abolished under this title, or if a function of an agency is transferred to another agency, references to the abolished agency or to the agency whose functions were transeferred in any law, contract, or other document shall apply to the agency which succeeds to the functions which were transferred."*

Section 20. Section 82A-122, R.C.M. 1947, is amended to read as follows:

"82A-122. **Federal aid.** If any part of this *title* is ruled to be in conflict with federal requirements which are a prescribed condition to the receipt of federal aid by the state, an agency, or a political subdivision, that part of this *title* has no effect, and the governor may issue an executive order which substitutes for that part to the extent necessary to effectuate the receipt of federal aid. The order is effective until the legislative assembly again acts upon the matter."

Section 21. Sections 82A-113, 82A-114 and 82A-123, R.C.M. 1947, are repealed.

Approved: March 17, 1973.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 87-106, R.C.M. 1947, is amended to read as follows:

"87-106. **Disqualification for benefits.** An individual shall be disqualified for benefits —

(a) If he has left work without good cause attributable to the employment for a period of not less than two (2) nor more than five (5) weeks (in addition to and immediately following the waiting period), as determined by the *division* according to the circumstances in each case.

(b) If he has been discharged:

(1) For misconduct connected with his work, or affecting his employment, for a period of not less than two (2) nor more than nine (9) weeks (in addition to and immediately following the waiting period), as determined by the *division* in each case according to the seriousness of the misconduct.

(2) For gross misconduct connected with his work or committed on the employer's premises, as determined by the *division*, for a period of twelve (12) months.

(c) If he failed, without good cause, either to apply for available and suitable work when so directed by the employment office or the *division* or to accept suitable work offered to him which he is physically able and mentally qualified to perform, or to return to his customary self-employment (if any) when so directed by the *division*. Such disqualification shall continue for the week in which such failure occurred and for not less than two (2) nor more than five (5) weeks in addition to the waiting week which immediately follow such week as determined by the *division* according to the circumstances in each case.

(1) In determining whether or not any work is suitable for an individual, the *division* shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and previous earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence.

(2) Notwithstanding any other provisions of this act, no work shall be deemed suitable and benefits shall not be denied under this act to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

HeinOnline -- 1973 vol. I 741 1973

(A) If position offered is vacant due directly to a strike, lockout, or other labor dispute;

(B) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality;

(C) If as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(d) For any week with respect to which the *division* finds that his total unemployment is due to a stoppage of work which exists because of a labor dispute at the factory, establishment, or other premises at which he is or was last employed, provided that this subsection shall not apply if it is shown to the satisfaction of the *division* that —

(1) He is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work; and

(2) He does not belong to a grade or class of workers of which immediately before the commencement of the stoppage, there were members employed at the premises at which the stoppage occurs, any of whom are participating in or financing or directly interested in the dispute;

Provided, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purpose of this subsection, be deemed to be a separate factory, establishment, or other premises; provided, further, that if the *division*, upon investigation, shall find that such labor dispute is caused by the failure or refusal of any employer to conform to the provisions of any law of the state wherein the labor dispute occurs or of the United States pertaining to collective bargaining, hours, wages or other conditions of work, such labor dispute shall not render the workers ineligible for benefits.

(e) For any week with respect to which he is receiving or has received payment in the form of —

(1) Wages in lieu of notice or separation or termination allowance;

(2) Compensation for disability under the Workmen's Compensation Law or the Occupational Disease Law of this or any other state or under a similar law of the United States, provided, however, that when an injured claimant has ceased to draw compensation benefits and shall have returned to the labor market, he

shall then be entitled to receive unemployment compensation benefits under this title, if he shall be otherwise qualified. Provided further, that compensation which is received as a payment for a permanent partial disability shall not be computed to be spread over a period of weeks in advance so as to bar the recipient from receiving unemployment compensation benefits under this title, provided the recipient has returned to the labor market and is otherwise qualified;

(3) Benefits under the Railroad Unemployment Insurance Act or any state unemployment compensation act or similar laws of any state or of the United States. This disqualification does not apply to any week with respect to which an individual is receiving or has received benefits under unemployment compensation law of another state or of the United States, if such benefits are paid pursuant to section 87-129.

Receipt of any wages, compensation or benefits as set forth in subsection (1), (2), or (3) above, after payment of unemployment benefits, and with respect to the same week for which unemployment benefits were received, will thereupon require such individual to repay such unemployment benefits and the *division* may collect such unemployment benefits in the same manner as provided for collection of benefits under section 87-145 (d).

(f) During the school year (within the autumn, winter and spring seasons of the year) or the vacation periods within such school year or during any prescribed school term if claimant is a student regularly attending an established educational institution. Notwithstanding any other provisions in this subsection, no otherwise eligible individual shall be denied benefits for any week because he is in training approved by the *division*, nor shall such individual be denied benefits with respect to any week in which he is in training approved by the *division* by reason of the application of provisions in subsection (c) of this section or the application of provisions in section 87-105 (c).

(g) Where retired and *receiving* retirement compensation paid in whole or in part from funds furnished by an employing unit, *which when prorated on a weekly basis, exceeds the average weekly benefit amount paid during the last fiscal year,* such disqualification to be applied as follows: All wages earned by such individual in the employment from which he has been retired shall not be considered or included in determining his wage credits or weekly benefit amount under sections 87-103 and 87-105. This disqualification does not extend to the receipt of benefits under the Federal Social Security Act, as amended.

(h) For any week wherein claimant leaves her most recent

employment during pregnancy, and due to such pregnancy, and such disqualifications shall continue through the period of pregnancy unless claimant presents evidence of her physical ability to work at such employment. At any time after the seventh month of pregnancy a claimant, to establish eligibility, must present evidence of physical ability to work at such employment. Further, at any time during the first two (2) months following childbirth, a claimant, to establish eligibility, must present evidence of her physical ability to work at such employment. In any of the cases set forth hereinbefore, such evidence of eligibility must be in the form of certificate of a duly licensed physician that such claimant is physically able to work at her most recent employment, and such evidence must be presented as often as requested by the *division.''*

Upon application a corporation shall be allowed an automatic extension of time for filing its return to the fifteenth day of the third month following the date prescribed for filing of its tax return. The application is to be made on such forms as the *department of revenue* shall prescribe. The *department of revenue* may grant an additional extension of time for the filing of a return whenever in its judgment good cause exists. *The terms "engaged in business" and "doing business" both mean actively engaging in any transaction for the purpose of financial or pecuniary gain or profit.* The term gross income means *all income recognized in determining the corporation's gross income for federal income tax purposes;* but shall include interest exempt from federal income tax. *No corporation is exempt from the corporation license tax unless specifically provided for under section 84-1501. Any corporation not subject to or liable for federal income tax but not exempt from the corporation license tax under section 84-1501 shall compute gross income for corporation license tax purposes in the same manner as a corporation that is subject to or liable for federal income tax according to the provisions for determining gross income in the federal internal revenue code in effect for the taxable year.* The term "net income" means the gross income of the corporation less the deductions *set forth in section 84-1502.*

(3) In cases wherein receivers, trustees in bankruptcy, or assignees are operating the property or business of a corporation subject to the license fee imposed by this act, such receiver, trustee, or assignee shall make the return in the same manner and form as such corporation is hereinbefore required to make return, and any license fee due on the basis of such returns made by the receiver, trustee, or assignee, shall be assessed and collected in the same manner as if assessed directly against the corporation of

CHAPTER NO. 381

An Act Providing for Lowering the Noise Intensity Level from One Hundred (100) to Ninety (90) Decibels in the Occupational Deafness Section of the Workmen's Compensation Act; Amending Section 92-710, R.C.M. 1947; and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 92-710, R.C.M. 1947, is amended to read as follows:

"92-710. **Occupational deafness.** Regardless of other definitions of injury and time limitations imposed by this act, there shall be compensation awarded for occupational deafness as follows:

HeinOnline -- 1973 vol. I 758 1973

(1) "Occupational deafness" means permanent partial or permanent total loss of hearing of one or both ears due to prolonged exposure to noise in employment. "Noise" means sound capable of producing occupational deafness. "Noisy employment" means employment in the performance of which an employee is subjected to noise.

(a) Losses of hearing due to industrial noise for compensation purposes shall be confined to the frequencies of 500, 1000 and 2000 cycles per second. Loss of hearing ability for frequency tones above 2000 cycles per second is not to be considered as constituting disability for hearing.

(b) The per cent of hearing loss, for purposes of the determination of compensation claims for occupational deafness, shall be calculated as the average, in decibels, of the thresholds of hearing for the frequencies of 500, 1000 and 2000 cycles per second. Pure tone air conduction audiometric instruments, approved by nationally recognized authorities in this field, shall be used for measuring hearing loss. If the losses of hearing average *25* decibels or less in the three frequencies, as measured under ISO Standard 1964, such losses of hearing shall not then constitute any compensable hearing disability. If the losses of hearing average *92* decibels or more in the three frequencies, as measured under ISO Standard 1964, then the same shall constitute and be total or 100 per cent compensable hearing loss.

(c) In measuring hearing impairment the lowest measured losses in each of the three frequencies shall be added togehter and divided by three to determine the average decibel loss. For every decibel of loss exceeding *25* decibels an allowance of one an one-half *per cent* (1½%) shall be made up to the maximum of one hundred *per cent* (100%), which is reached at *92* decibels.

(d) In determining the binaural percentage of loss, the percentage of impairment in the better ear shall be multiplied by five (5). The resulting figure shall be added to the percentage of impairment in the poorer ear and the sum of the two divided by six (6). The final percentage shall be representative of the binaural hearing impairment.

(e) Before determining the percentage of hearing impairment, in order to allow for the average amount of hearing loss from non-occupational causes found in the population at any given age, there shall be deducted from the total average decibel loss, one-half decibel for each year of the employee's age over forty at the time of last exposure to industrial noise.

(f) No consideration shall be given to the question of whether or not the ability of an employee to understand speech is improved

HeinOnline -- 1973 vol. I 759 1973

by the use of a hearing aid.

(2) No benefits shall be payable for temporary total or temporary partial disability under this act for loss of hearing due to prolonged exposure to noise.

(3) An employee who because of occupational deafness is transferred by his employer to other employment and thereby sustains actual wage loss, shall be compensated at the rate provided in section *92-703.1*, not exceeding three thousand five hundred dollars ($3,500) in the aggregate from all employers. "Time of injury," "incurred such injury," "date of injury" in such case shall be the date of wage loss.

(4) Subject to the limitations herein contained, there shall be payable for total occupational deafness of one ear, forty (40) weeks of compensation; for total occupational deafness of both ears, two hundred (200) weeks of compensation; and for partial occupational deafness, compensation shall bear such relation to that named herein as disabilities bear to the maximum disabilities herein provided.

In cases covered by this subsection, "time of injury," "incurred such injury" or "date of injury" shall be exclusively the date of occurrence of any of the following events to an employee:

(a) Transfer because of occupational deafness to nonnoisy employment by an employer whose employment has caused occupational deafness;

(b) Retirement;

(c) Termination of the employer-employee relationship;

(d) Layoff, provided the layoff is complete and continuous for one year;

(e) No claim under this subsection shall be filed, however, until six (6) consecutive months of removal from noisy employment after the time of injury except that under subparagraph (d), such six (6) consecutive months period may commence within the last six (6) months of layoff.

(5) The limitation provisions in this act shall control claims arising under this subsection. Such provisions shall run from the first date upon which claim may be filed, or from the date of subsequent death, provided that no claim shall accrue to any dependent unless an award has been issued or liability admitted.

(6) No payment shall be made to an employee under this section unless he shall have worked in noisy employment for a

HeinOnline -- 1973 vol. I 760 1973

total period of at least ninety (90) days for the employer from whom he claims compensation.

(7) Any amount paid to an employee under this section by an employer shall be credited against compensation payable by any employer to such employee for occupational deafness under subsections (3) and (4). No employee shall in the aggregate receive greater compensation from any or all employers for occupational deafness than that provided in this section for total occupational deafness.

(8) Occupational deafness as herein provided is distinguished from traumatic loss of hearing which is governed by the specific loss schedule hereinabove.

(9) An employer shall become liable for the entire occupational deafness to which his employment has contributed; but if previous deafness is established by hearing test or other competent evidence, whether or not the employee was exposed to noise within the six (6) months preceding such test, he shall not be liable for previous loss so established nor shall he be liable for any loss for which compensation has perviously been paid or awarded.

(10) No claim shall be filed, however, unless the employee is exposed eight (8) hours daily and for a period of at least ninety (90) days as above required to noise intensity levels above *90* decibels.

(11) This act shall become effective January 1, *1974.*''

Approved: March 20, 1973.

"32-2147. **Minimum speed regulations.** (a) No person shall drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

On a two-lane highway where passing is unsafe because of traffic in the opposite direction or other conditions, a slow-moving vehicle, including a passenger vehicle, behind which four (4) or more vehicles are formed in line, shall turn off the roadway at the nearest place designated as a turnout by signs erected by the authority having jurisdiction over the highway, or wherever sufficient area for a safe turnout exists, in order to permit the vehicles following it to proceed. As used in this section a slow-moving vehicle is one which is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place.

The department of highways is authorized to designate and construct such turnouts and to erect signs at appropriate places advising motorists of this statute.

(b) Whenever the board or local authorities within their respective jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the board or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or in compliance with law."

CHAPTER NO. 389

An Act to Establish Guidelines for the Management and Use of Investments Held by Eleemosynary Institutions and Funds.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. In this act:

(1) "Institution" means an incorporated or unincorporated organization organized and operated exclusively for educational, religious, charitable or other eleemosynary purposes, or a governmental organization to the extent that it holds funds exclusively for any of these purposes.

(2) "Institutional fund" means a fund held by an institution for its exclusive use, benefit, or purposes, but does not include

(a) a fund held for an institution by a trustee that is not an institution, or

(b) a fund in which a beneficiary that is not an institution has an interest, other than possible rights that could arise upon violation or failure of the purposes of the fund.

(3) "Endowment fund" means an institutional fund, or any part thereof, not wholly expendable by the institution on a current basis under the terms of the applicable gift instrument.

HeinOnline -- 1973 vol. I 768 1973

(4) "Governing board" means the body responsible for the management of an institution or of an institutional fund.

(5) "Historic dollar value" means the aggregate fair value in dollars of

(a) an endowment fund at the time it became an endowment fund,

(b) each subsequent donation to the fund at the time it is made, and

(c) each accumulation made pursuant to a direction in the applicable gift instrument at the time the accumulation is added to the fund.

The determination of historic dollar value made in good faith by the institution is conclusive.

(6) "Gift instrument" means a will, deed, grant, conveyance, agreement, memorandum, writing or other governing document (including the terms of any institutional solicitations from which an institutional fund resulted) under which property is transferred to or held by an institution as an institutional fund.

Section 2. The governing board may appropriate for expenditure for the uses and purposes for which an endowment fund is established so much of the net appreciation, realized and unrealized, in the fair value of the assets of an endowment fund over the historic dollar value of the fund as is prudent under the standard established by section 6. This section does not limit the authority of the governing board to expend funds as permitted under other law, the terms of the applicable gift instrument or the charter of the institution.

Section 3. Section 2 does not apply if the applicable gift instrument indicates the donor's intention that met appreciation shall not be expended. A restriction upon the expenditure of net appreciation may not be implied from a designation of a gift as an endowment, or from a direction or authorization in the applicable gift instrument to use only "income," "interest," "dividends," or "rents, issues or profits," or "to preserve the principal intact," or a direction which contains other words of similar import. This rule of construction applies to gift instruments executed or in effect before or after the effective date of this act.

Section 4. In addition to an investment otherwise authorized by law or by the applicable gift instrument, and without restriction to investments a fiduciary may make, the governing board, subject to any specific limitations set forth in the applic-

HeinOnline -- 1973 vol. I 769 1973

able gift instrument or if the applicable law other than law relating to investment by a fiduciary, may:

(1) invest and reinvest an institutional fund in any real or personal property deemed advisable by the governing board, whether or not it produces a current return, including mortgages, stocks, bonds, debentures and other securities of profit or nonprofit corporations, shares in or obligations of associations, partnerships or individuals, and obligations of any government or subdivision or instrumentality thereof;

(2) retain property contributed by a donor to an institutional fund for as long as the governing board deems advisable;

(3) include all or part of any institutional fund in any pooled or common fund maintained by the institution; and

(4) invest all or any part of an institutional fund in any other pooled or common fund available for investment, including shares or interests in regulated investment companies, mutual funds, common trust funds, investment partnerships, real estate investment trusts or similar organizations in which funds are commingled and investment determinations are made by persons other than the governing board.

Section 5. Except as otherwise provided by the applicable gift instrument or by applicable law relating to governmental institutions or funds, the governing board may:

(1) delegate to its committees, officers or employees of the institution or the fund, or agents, including investment counsel, the authority to act in place of the board in investment and reinvestment of institutional funds;

(2) contract with independent investment advisors, investment counsel or managers, banks, or trust companies, so to act; and

(3) authorize the payment of compensation for investment advisory or management services.

Section 6. In the administration of the powers to appropriate appreciation, to make and retain investments and to delegate investment management of institutional funds, members of a governing board shall exercise ordinary business care and prudence under the facts and circumstances prevailing at the time of the action or decision. In so doing they shall consider long-and short-term needs of the institution in carrying out its educational, religious, charitable or other eleemosynary purposes, its present and anticipated financial requirements, expected total return on

HeinOnline -- 1973 vol. I 770 1973

its investments, price level trends and general economic conditions.

Section 7. (1) With the written consent of the donor, the governing board may release, in whole or in part, a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund.

(2) If written consent of the donor cannot be obtained by reason of his death, disability, unavailability or impossibility of identification, the governing board may apply in the name of the institution to the appropriate court for release of a restriction imposed by the applicable gift instrument on the use or investment of an instituitonal fund. The attorney general shall be notified of the application and shall be given an opportunity to be heard. If the court finds that the restriction is obsolete, inappropriate or impracticable, it may by order release the restriction in whole or in part. A release under this subsection may not change an endowment fund to a fund that is not an endowment fund.

(3) A release under this section may not allow a fund to be used for purposes other than the educational, religious, charitable or other eleemosynary purposes of the institution affected.

(4) This section does not limit the application of the doctrine of cy pres.

Section 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared severable.

Section 9. This act shall be so applied and construed as to effectuate its general purpose to make uniform the law with respect to the subject of this act among those states which enact it.

Section 10. This act may be cited as the "Uniform Management of Institutional Funds Act."

Approved: March 20, 1973.

(b) Noxious weed seeds are hereby divided into two (2) groups defined as follows:

1. "Prohibited noxious weed seeds" are the seeds of perennial and other serious weeds that not only reproduce by seed but also may spread by underground roots, stems, and other reproductive parts, and which when well established, are highly destructive and difficult to control in this state by ordinary good cultural practice. "Controlling the pollination" means to use a method hybridization which will produce pure seed which is at least seventy-five per cent (75%) hybrid seed. Hybrid designations shall be treated as variety names.

(6) The terms "approximate percentage" and "approximate number" shall mean the percentage or number with the variations above or below as allowed according to the tolerance limits defined in the "rules for seed testing" adopted by the Association of Official Seed Analysts.

(7) The term "percentage of germination" shall mean the percentage of seeds which show normal sprouts as evidence of vitality when the seeds are subjected to the proper moisture and temperature conditions with proper aeration for the customary length of time for each specific kind of seed, as specified in the "rules for seed testing" adopted by the Association of Official Seed Analysts.

(8) The term "name of state in which the seed was grown" shall mean any of the several states of the United States or the foreign country.

(11) The term "certifying agency" means:

(a) an agency authorized under the laws of a state, territory or possession to officially certify seed and which has standards and procedures to assure the genetic purity and identity of the seed certified; or

(b) an agency of a foreign country determined by the department of agriculture to adhere to procedures and standards for seed certification comparable to those adhered to generally by seed certifying agencies under subsection (11)(a) of this section.

(12) The term "protected variety" means a variety for which a certificate has been issued by the U.S. plant variety protection office, or for which an application for protection has been filed, granting the owner or his authorized agent exclusive rights in the sale and distribution of the variety."

Section 2. Section 3-802.2, R.C.M. 1947, is amended to read as follows:

"3-802.2. **Labeling of agricultural seeds.** The owner, vendor, or person in possession of each and every package, parcel, or lot of agricultural seeds, as defined in the first section [3-802.1] of this act, that contains one (1) pound, or more, of agricultural seeds, whether in package or in bulk, shall before offering the seeds for sale affix in a conspicuous place on the exterior of the container a written or printed label in the English language in legible type or copy and the label shall contain a statement specifying:

(1) A lot number or other distinguishing mark.

(2) Kind. The name of each kind of seed present in excess of five per cent (5%) shall be shown on the label and need not be accompanied by the word "kind." When two or more kinds of seed are named on the label, the name of each kind shall be accompanied by the percentage of each. When only one kind of seed is present in excess of five per cent (5%) and no variety name or type designation is shown, the percentage of that kind may be shown as "pure seed" and such percentage shall apply to seed of the kind named.

Variety. (a) The following kinds of agricultural seeds are generally labeled as to variety and shall be labeled to show the variety name or the words "Variety Not Stated":

Alfalfa	Oat
Barley	Pea, field

HeinOnline -- 1973 vol. I 774 1973

Bean, field	Rye
Beet, field	Safflower
Brome, smooth	Sorghum
Clover, crimson	Sorghum-Sudan hybrid
Clover, red	Soybean
Clover, white	Sudangrass
Corn, field	Sunflower
Corn, pop	Trefoil, Birdsfoot
Fescue, tall	Wheat, common
Flax	Wheat, Durum
Millet, foxtail	

(b) If the name of the variety is given, the name may be associated with the name of the kind with or without the words "kind and variety." The percentage in this case may be shown as "pure seed" and shall apply only to seed of the variety named. If separate percentages for the kind and the variety or hybrid are shown, the name of the kind and the name of the variety or the term "hybrid" shall be clearly associated with the respective percentages. When two or more varieties are present in excess of five per cent (5%) and are named on the label, the name of each variety shall be accompanied by the percentage of each.

(3) If any one kind or kind and variety of seed present in excess of five per cent (5%) is "hybrid" seed, it shall be designated "hybrid" on the label. The percentage that is hybrid shall be at least ninety-five per cent (95%) of the percentage of pure seed shown unless the percentage of pure seed which is hybrid seed is shown separately. If two or more kinds or varieties are present in excess of five per cent (5%) and are named on the label, each that is hybrid shall be designated as hybrid on the label. Any one kind or kind and variety that has pure seed which is less than ninety-five per cent (95%) but more than seventy-five per cent (75%) hybrid seed as a result of incompletely controlled pollination in a cross shall be labeled to show (a) the percentage of pure seed that is hybrid seed or (b) a statement such as "Contains from seventy-five per cent (75%) to ninety-five per cent (95%) hybrid seed." No one kind or variety of seed shall be labeled as hybrid if the pure seed contains less than seventy-five per cent (75%) hybrid seed.

(4) Origin, state or foreign country if known, of alfalfa, red clover, white clover, native range grasses and field corn other than hybrid. If the origin is unknown, the fact shall be stated.

(5) The approximate percentage of germination of agricultural seed, together with the date of test of germination. In all cases where hard seeds remain at the end of the germination test,

HeinOnline -- 1973 vol. I 775 1973

the percentage of actual germination and the percentage of hard seeds shall be stated separately; with the provision that any portion or all of the percentage of hard seeds may be added to the percentage of germination, and stated as "total germination and hard seed."

(6) The approximate percentage by weight of pure seed, meaning the freedom of agricultural seeds from inert matter and from other seeds.

(7) The approximate percentage by weight of sand, dirt, broken seeds, sticks, chaff, and other inert matter combined in agricultural seeds.

(8) The approximate total percentage by weight of weed seeds.

(9) The approximate percentage by weight of other crop seeds in agricultural seeds.

(10) The name and approximate number of each kind or species of restricted noxious weed seeds occurring per pound of agricultural, vegetable, or flower seeds.

(11) The full name and address of the seedsman, importer, dealer or agent, other person or persons, or firm or corporation selling the agricultural seed.

(12) In the case of mixtures of agricultural seeds which contain two (2) or more kinds of seed in excess of five per cent (5%) by weight of each, when sold as mixtures:

(a) Name of mixture.

(b) The name and approximate percentage by weight of each kind of agricultural seed present in the mixture in excess of five per cent (5%) by weight of the total mixture.

(c) Approximate percentage by weight of broken seeds and other inert matter in the mixture of agricultural seeds.

(g) Approximate percentage of germination of each kind of agricultural seed present in the mixture in excess of five per cent
